ABOUT ASTROLOGY

Astrology is often defined as the study of the influences of the cosmos on life on earth.

The zodiac is the belt or band of constellations through which the Sun, Moon, and planets transit across the sky.

Astrology is a science related to the heavenly bodies. It is the study of the movements and positions of the sun, moon, planets and stars, and the skill of describing the expected effect that these are believed to have on the character and behavior of humans. Astrology is not at all a fortune telling. It is one of the successfully tested methods for man to learn about who he is, where he came from and where he is going. Astrology reveals CHARACTER and character makes your destiny.

The main uses of astrology are analysis of health and sickness, character psychoanalysis, professional guidance, analysis of children's horoscopes so as to give parents a better idea as to how best to raise their children, and analysis of the compatibilities between people.

Astrology does not show anything but tendencies. A man can dominate his stars by exerting his determination. If a man decides to flow with the wave of life, then the tendencies indicated in the birth chart could be observed in that man. Astrology forewarns and being put on alert, a man is thus in a better position to cope with the struggles of life.

There are three aspects which bring to us the mystic message of the stars - the houses, the signs and the planets. Each house represents a section of life; the signs are divisions of the heavens which by their placement relative to the houses indicate our basic temperament and attitude towards life and the relative motion of the planets through the houses are the messengers of the god which bring to us the opportunities.

About Sun signs

Your sun sign represents the sign of the zodiac that the Sun passed through at the time of your birth. The Sun rules your essential personality, your ego and your willpower. It represents the core of your potential and your distinctiveness as an individual; it is who you are and what you are about.

The beginning and end dates for each of the signs can vary from year to year. Cusp is the border line between two adjacent sun signs. If you were born on a cusp, you may have some qualities of one sign and some from the other sign.

In astrology, nothing can replace the personal touch of the astrologer because astrology is much more beyond the planets and requires intuition and understanding of the subject.

Life is a journey and the forecasts are given to help you. Use them as a guideline. These horoscopes shall give you an idea of your future in year 2008. A day may be good for one thing and bad for another. Please read the trend in horoscopes carefully as they might indicate opportunities and pitfalls ahead.

There are no absolute guarantees in life. It depends on how you interpret the things. This is a small book and does not contain each and every minute details of the subjects. We've tried to be specific on topic and be general in trends. If we say you'll be busy with your partner, he could be your spouse/colleague/business partner/friend and your pet. KNOW YOURSELF

It is not that you cannot love deeply and sincerely. It is your need for change that may cause trouble.

For this reason, marriage is not really your strong point, as a tie or bonding is not meant for you.

Your zodiac sign is symbolized by the bearer of the jug of water, you provide the spiritual and intellectual health drink to the society and people around you. And the water has a tendency to flow ahead, so that you are forward looking, and optimistic, and think only in terms of growing inward and outward possession.

You dispense knowledge, advice and even material possessions to those around you, who solicit your help and emotional support. You are the sign of brilliance and creativity, but these are not without the sufferings and sacrifices. You have distinctive, in fact a peculiar character - you are knowledgeable and intelligent yet hesitant to take important decisions or to give your opinion where it counts most. You are quite philanthropist, at least in thought, and have a great sense of humor.

You are tolerant and don't mind others poking fun at you. You are valuable to the world as you are a giver rather than a taker, you give hope and inspiration. Aquarians are amiable, charming and intuitive, but can get eccentric and unruly at times. They are also slow and shaky starters, taking their own time, but half way through, they might change their mind, irritating those with them. In your love life, you will have really good experiences, but some setback will keep piercing your heart at all times.

You Aquarius are a wonderful and engaging friend. Aquarius can be a wildly exciting, fun, and exhilarating partner when it comes to a special "wild night out on the town" or when doing something of an original, bizarre, and/or unexpected nature. But you don't like taking long romantic walks under the moonlight, quietly sipping wine, and holding hands while engrossed in intimate conversation during candlelit dinners. Aquarius may not be completely in touch and comfortable with his or her body. Aquarius may even turn on and turn off his or her sexuality like a light switch. Unconventional, friendly, unpredictable and innovative are all characteristics of you as a lover.

Qualities that make you lucky are honesty, truthfulness, innovative, and insightfulness. Qualities that hinder your success are inconsistency, unusual, rebellious, and cautious.

2008 FOR AQUARIUS

As a friend, you will always give both guidance and warmth. Basically you are a better counselor with your objectivity and detachment. So even though emotionally involved you can visualize problems clearly.

The trend for you this year is that of take initiative in the work sphere, making the most out of the knowledge you have, traveling and spending and most of all, of spiritual and contemplative pursuits. Affairs of the heart will have a sway in your life. There is also a possibility of deterioration of your health. But the most important thing is that you will be compelled to look back and learn from your mistakes.

A visit to a holy place of your interest is on the charts. Quite strangely, separation and reunion, gain and loss, pleasure and pain seem to come to you at the same time. Secret relationships and surreptitious dealings might land you into a lot of trouble.

Your health and financial situation are at risk. While an accident or sudden illness may take away weeks of productive effort from you, investing in the wrong place or transacting with the wrong person may land you in financial difficulties. Be vigilant all the while and let your faith do the rest. All the same, health of near and dear ones and legal matters will keep you busy more than the usual. And yet, the most peculiar thing about this period is that the unexpected can be expected the most. While unfortunate incidents are possible, there is an even greater possibility for you to have a sudden surge in your income, may be from a lottery.

You will, however, have a romantic and charismatic attitude, and this will help you maintain cordial relations with the ones you know and establish contacts with the ones you don't. This will obviously help you, but do not expect too much from them. Further education and communication are more possible than usual.

MONTHLY HOROSCOPES

As a father, you will have an advanced outlook, and want to keep up with, in fact, go ahead of, your children. You never have trouble bridging the generation gap.

JANUARY

Two distinctly different trends, yet related to the overall theme of moving ahead, will come at the start of the year. In the first half of the month, I see you concentrating more on your own inner growth, even self-analysis, leading to greater spiritual awareness. Doubts and misgivings will be dealt with very positively. So also will financial matters. Careful budgeting will be undertaken to cope with rising expenses in your sphere of career and employment. It may be moving to a different sphere within your job, or changing job altogether. This change will definitely prove to be for the better, of course, otherwise you wouldn't even contemplate it. You always put the demands of family first. Aquarius, the water-bearer, is often the symbol of the cares of the world, and that's what you may well feel — burdened by cares, worries, responsibilities. I prefer to think of Aquarius as the nourisher and provider.

And this month, you are that, par excellence. The glorious thing is that it will not slow down your spiritual advancement. He makes it move better. In fact, spiritual and mental growth could well be the trend that you see for this entire month. Your determination to get along better with people makes for some pleasant times, and also some rather wonderful help from the people around you.

FEBRUARY

The growth of last month is sustained, under the influence of your birth phase, and several good things come to you. Your heightened awareness and perceptions continue. They lead you to some major career decisions. In fact, they were hinted at by me last month itself. The great thing is that they are shared decisions, in fact, you share even your innermost thoughts and bare your soul to the one you love.

In fact, loving communication not only leads to extra fulfillment, but also shared success in dealing with family squabbles or conflicts and confrontations with your children's willfulness. It's easy to make good decisions even while you socialize, if the bond of marital partnership is strong. In fact, both the money *and* the honey are good, contributing greatly to your sense of well-being and self-worth. The trend of gains and better things for you firms up into out-and-out success, no matter what it is you take on.

MONTHLY HOROSCOPES

As a mother, you are a great friend to your children but may sometimes be just a little cold and not particularly loving or affectionate. You may want children to live their own individual lives.

Your self-confidence and balance have gained momentum, and they see you through anything that could be an obstacle. Socializing, meeting relatives, closer family interaction are there in full measure as I've already pointed out. Because the money crunch will no longer be there, perhaps you feel less worried.

MARCH

Acquisitions, assets, valuables and property come to you, as does added income now. At the same time, you have some monetary responsibilities you cannot escape, including those who seem dependent, or unable to stand on their own feet.

You prefer to interact with old friends and acquaintances rather than make social contacts. Kin and family are part of the social scene but some of your favorite people may be away, causing you to feel let down emotionally. You learn to cope, and also how to value people more. It certainly makes for better relationships — at every level. It will help you to make greater efforts to get on with people generally and particularly with those you meet professionally or in the workplace.

Personal communication, writing, publishing and teaching will be linked to finances — you gain from them monetarily. Business, mutual funds, partnerships will benefit you, and come out of your changed outlook and greater popularity. This will be reflected in the quality of both your social life *and* in closer family interactions.

I should have mentioned all this much earlier, but I got a bit carried away by the sudden, dramatic changes for the better that I've just finished describing. In fact, I completely forgot to point out that it was your birth-month where heightened activity was expected. Astrology is not restricted to dates or fixed periods of time, just as life isn't. An altogether happier existence comes out of your formidable mental powers.

Health care and adequate rest will be so necessary that without them, you cannot shape your life as you please or wish to. You will need the energy and stamina to manage it all.

APRIL

Last months' was a long forecast. This month's highlights are contracts, contacts and communication. This is precisely what you will be doing, since it is a very strong indication. No two ways about this.

Let's look at the *how* and *where*; the *when* you already know is NOW. You'll be brilliant at the written/spoken word. There might be some short trips too. You've got rid of some rather rigid attitudes, even some wrong opinions, and relating to people is much easier, thanks to your greater poise and confidence. This will help you not only in your interactions with family but also in your financial dealings. Your intellectual achievements, pleasing as they are in themselves, will probably also yield profit.

Finally, and most importantly, you form a strong personal link/bond/tie that will last for your lifetime. It may not necessarily be marriage. I can sum up thus — you will make your presence felt. What better way than this?

MAY

The material world — in terms of money matters/issues — will now demand your attention. Early in the month, you will embark on a round of dealing with finances in a keen and emphatic manner. Joint-finances and funds, loans, some buying and selling are all on the horizon. The focus will be on having the ready cash for improving the quality of family life by renovation or addition to your house. Once again, trust me on this there can be no doubt whatsoever.

In any case, very few-signs are more home-oriented than Aquarius. Your relatives, ancestors, your roots, even the little village you might have hailed from generations ago are retraced. Also, very definitely but not too surprisingly, your own inner development and growth will be huge. You will try, identify, and remove personal complexes, hang-ups as well.

It makes you happier with yourself, and makes those around you happier too. Your focus will be on what is closest to your heart — home and family. Even your career, achievements, intellectual pursuits are viewed in terms of how they influence/affect your home life and you will gear them accordingly, as you always have done!

MONTHLY HOROSCOPES

You Like friendship, freedom, intellectual stimulation, camaraderie, surprises, heavy consumption of liquids, companionship, feeling understood and emotional safety.

JUNE

A hugely exciting month, full of joys, thrills, even high living! And this encompasses both work and play. Ideas swarm in, challenges are stimulating; personal love has a warm glow that suffuses you. Let it keep you from being overcritical, judgmental or intolerant. An element of freedom is necessary for love to flourish. To sum up, you're having a lively month with bright new ideas to make it so.

Happy friendship, love, even luxury and prosperity bless you. You're on roll, in terms of reaping benefits in the spheres most important to you — family, work profile and spirituality, not to mention luck in money matters. All these are combined into a harmonious whole that spells JOY. no matter what the alphabets. And you're in a mood to express this joy in being alive, happy, creative, close to things you love.

You hit the high spots, quite unlike the staid Aquarian profile. You can flirt with danger, gamble your money and your heart and eagerly take on rivals and opponents. Nothing, but nothing can stop you in feeling this way. The danger, of course, in going overboard does not need to be spell out.

JULY

Work and responsibilities now reassert themselves, but their hold on you is a bit different. Changes in your personal regimen of health care and habits, also in your relationships with your colleagues and fellow-workers (in either job. if you're doing more than one) will ultimately be to your benefit and advantage.

You will also square up to your own personal shortcomings, and try to be more in control. This may help defuse some tension that may arise over money. Your work is stimulating, though it may upset household peace. Changes in your work angle will be seen very prominently. You may either change your job to do something you find more congenial and rewarding, or take on some extra work even a second or part-time job. The benefits you seek are not strictly financial.

You want to do your bit to help make the world a better planet, care and nourish those who need it. In fact, you're willing to go out on a limb, financially speaking, to help others. Some shady deals, even risky gambles could happen

MONTHLY HOROSCOPES

You Dislike jealousy, possessiveness, control, ego plays, pointless meetings, narrow-mindedness, being ridiculed, routines, fighting/violence, inequality, and being taken for granted.

Some shady deals, even risky gambles could happen but I warn you that you'll be the one caught — so stay away from anything even remotely illicit or risky. Family harmony comes when love, reconciliation of differences, mutual respect for personal space happen. Charm, values, and happy-friendship help this along.

AUGUST

A time of relaxation and pleasure. You are blessed many times over, in terms of your creativity and excellence, and pleasure in children's activities. Money flows in easily. You'll be more than likely to have wins, windfalls, legacies or gifts coming to you. Holidays, leisure activities and sports give pleasure.

However, I would rate our greatest gain to be the desire to acquire knowledge, information and net space, leading to both a world-view/ vision and wisdom. As if that were not enough. Add on luck, success and gains in love — all tensions ease away. There is pleasure and affection with someone special, lifting you to the heights, even excitement and thrills, perhaps as never before.

You are not the type to consider the world well lost for love, but you *could* be inclined that way now. Power, achievements, good choices, the right moves, exhilarating travel are all there. Don't throw away care and concern — you just might regret it when things slow down, as they're bound to. It is an immutable law of nature; one *must* be prepared to deal with it.

SEPTEMBER

A slower pace this month with some delays, dragging of feet to deal with the money scene will be steady rather than spectacular, as it was last month. You can't have it that way for long, anyway.

What you do *not* lose are entertainment, a touch of romance or pleasure from children. Your own creativity remains as sharp as ever. It helps you rejuvenate your surroundings, even get rid of the bad vibes. You'll take care of your health and your relationships. Wrong ideas and opinions will need to be totally jettisoned, despite your desire for personal freedom.

MONTHLY HOROSCOPES

You are most compatible with Libra, Gemini and Aquarius.

Togetherness, companionship and warmth are your gains in this month, despite its less spectacular results. Your brilliance and sheer joy must have aroused a lot of envy. Whatever the reason, the indication is there for your competition revving up. your rivals getting active.

This may have started in August itself, but you'll definitely see it now! Moving away, separation, even the breaking up of a relationship could happen. Friends may turn into enemies. but you have to watch that your personal interactions do not slip or perish. Let family connections be free, too. Some of your ideas may not gel with a partner, but sensible cooperation is possible.

OCTOBER

A somewhat low phase starts the month, but it builds up to a glorious crescendo by the end.

Once again, you'll have to focus your attention on money matters even though there may still be some health problem nagging at you. Money matters will be to do with, as I said, legacies, trusts, loans and lottery, fund-raising.

Your own mindset will have to be both cheerful and focused. A common enterprise benefits from your adapting to new methods. Thus the new and the old are equally balanced, leading to what is called exaltation and exultation. Pending matters may come to an end: there could be a death, a legacy causing you sorrow and joy/relief at the same time.

New projects, even a new birth or a new home. One chapter closes, but another opens. All your relationships are nurtured. And that's good. Personal interests will be shelved by you, once again, in your concern for larger welfare issues.

NOVEMBER

Sometimes, the months before a zodiac birth phase are like a low pressure trough. This is a time when you, like others, will need. You will find that you are helped also by your own infinitely more positive outlook as a result of your spiritual gains and intellectual ones. That is why the phrase "Work is worship" comes to mind as the motto you should work with.

MONTHLY HOROSCOPES

You have to deal with a kind of weariness even disillusionment, that sets in even though both close relationships and shared entertainment help you cope. The preceding month had lots of highs and lows for you to reckon with.

This month reorients you to your lasting value, and greater idealism is the result, in conjunction with heightened consciousness, and conscience that come hand in hand with true and sincere spirituality and faith. In mundane matters of life, long distance and foreign connections, exchange and trade will be favored. You'll travel a fair amount and may strike up a chance acquaintance who shares your views, ideals and ideas.

DECEMBER

Genuinely tangible gains make this a fine month for you. No money worries — in fact, added income helps you relax. Recognition, rewards, greater power and prestige, even your assets, property, belongings are also enhanced. The universe is being truly generous, and yes, you deserve it.

What's more. All your personal equations register a gain and improvement on the level of family and friendship. Love is sublimely exciting — there may even be a new love coming to you. You are blessed, and make the right choices, so that your inner growth is enhanced by further strength of mind, focus, maturity, awareness and idealism. I wish I could say the same for myself. As if these were not enough, worldly success comes to you in full measure too, as I've already detailed above.

WEEKLY HOROSCOPES

JANUARY

You are semi-compatible with Aries, Leo, Sagittarius, Capricorn, and Pisces.

January 1, 2008 to January 6, 2008

Back to widening the vistas of your mind, life, experiences. You undertake travel and journeys, partnerships and new beginnings coming to the fore. A new venture (perhaps even long-delayed) may be set up or a new project may be off to an exciting start. While talking of excitement, can we ever leave out love? And when love knocks at your door, who can resist? It makes everything more meaningful and joyous indeed. You are involved with socializing, networking, firming up relationships with friends, enhancing your social status, joining new organizations. Love will play a heart-warming part in old and new relationships. There may also be a challenge concerning work responsibilities but you meet it head-on. All this, of course, above and beyond the scope of the usual goodwill that comes with the season!

January 7, 2008 to January 13, 2008

You're not really the type to neglect work, but in this opening week of the year, you do put it on the back-burner, in your desire to concentrate on things you consider even more important. You start the year by concentrating on personal issues — your children, your own health, the home, even future plans regarding these. You could even seriously contemplate a move/shift, even to the extent of migrating or relocating overseas. There is a love underlying all your actions, perhaps a new one, or greater bonding with an old one, too. You want to think of ways and means, and the actions necessary to ensure the kind of future you have envisaged.

January 14, 2008 to January 20, 2008

Your work, job, profession will be not just a means of earning a living but a vocation for you in this phase. But even as you deal with work demands, responsibilities and quite a bit of socializing, you are seriously aware of the fact that the time for planning is ending. The time for decisions and for acting on these plans is here or almost here. As I've frequently said, there are no watertight compartments in life or in astrology.

WEEKLY HOROSCOPES

JANUARY

You are incompatible with Taurus, Cancer, Virgo, and Scorpio.

January 21, 2008 to January 27, 2008

You realize the value of having good and meaningful interactions in both professional relationships as well as personal ones. Useful friendships will form; even erstwhile rivals will be on your side, and these good relationships lead to new skills, greater power and, therefore greater efficiency. This will be really a simple equation, so make the most of it. Don't hesitate to ask for help, advice, suggestions. It will be willingly given and lead to gems at work, particularly you will retain your questioning, analytical mood. This attitude is what you take into your financial affairs. You may decide on: (a) looking closely at funds, loans, new projects; (b) a change of job/profession/work, and (c) ways and means to cut costs and economize at home/the office, so that your funds can be utilized for maximum gain.

January 28, 2008 to February 3, 2008

Now is the time to make decisions and act on your own intuitions. You will be hearing your inner voice quite loudly and clearly, prompting you to act in your own best interests. I mean hard work since you know what needs to be done. I know I'm making you sound a bit weird, but it is not so. What your inner voices impel you to is greater power/position or wins over rivals who are stronger. You have an edge over others, as you not only strive hard, but have a clear, analytical, realistic picture of why you're doing it. Need not to mention earning, perks, job satisfaction, and professional recognition, all of which will be your rewards, as well as the targets you have set yourself. Yet at the same time, you will persevere in all relationships. You will be sincere in both old ties/bonds and the new ones you forge. You will have both sincerity and courage in your dealings with people. In fact, friendly communication will ease hidden fears. You will understand people's feelings with affection, caring, or at the very least, insight. It makes for greater happiness in your own life, too. The special feature of this week will be personal interaction, and you will carry on with it and make it work for you.

February 4, 2008 to February 10, 2008

Last week's forecast was a long one, so I'll be brief now. Marked gains come to you in cash and kind — possessions, new acquisitions, and objects for yourself and your home, as well as cash inflow into your purse. Suddenly, with the new moon in your own sign, your outlook, surroundings and attitudes all take on the dazzle of success and achievement. Equally marked will be gains in your self-esteem and your confidence about your future. Now polish the image that others have of you. Your personal one-to-one interactions thus show a definite improvement.

February 11, 2008 to February 17, 2008

The theme remains the same — how and why you interact with people. At this time you will meet the right people and create greater opportunities for earning. Inside knowledge contributes to your plans and it is easy to improve cash assets. With all this, though, the theme of improvement, buying, enhancement of a home or property is inextricably linked. One may give rise to the others, but they're both there, any which way you look at it. Your image in other's eyes continues to be important, and your home environment and surroundings have to be a reflection of your achievements and success. Even though the primary focus of all this success will be house/ property, home and family, you will be equally busy on the financial front. Opportunities for further earning and greater benefits will be sought — and found too!

February 18, 2008 to February 24, 2008

A time when you realize the almost dire need to get down to brass tacks and work systematically and practically at your own progress and all-round development. Therefore, you're down to earth in dealing with: (a) home-improvements, renovations, additions, enhancement; (b) yourself in the same manner, and finally (c) finances, personal funds, capital. That's it. Last week it was mainly your financial dealings and deals, but now it's a wider spectrum. New and undiscovered areas of study, knowledge and research remain as important to you as they were before but you find yourself devoting somewhat less time to that area at the moment.

February 25, 2008 to March 2, 2008

Your personal interactions and relationships will provide both joy and deep satisfaction in this phase. You will be busy in the social circle, entertainments and entertaining, and *most important of all* in giving and receiving love. You will use your leadership skills and force of personality. There will be shared space and ideas, your hopes will be supported by true well-wishers, and there is glorious communication — all these lift you to transcendental peaks of bliss or perfection in this mad world of ours. In short, good things flow to you. But there are more material benefits, too in terms of phenomenal and concrete gains. There is money of course, but also a great feeling of being wanted and welcome in society.

March 3, 2008 to March 9, 2008

A week that's both proactive and interactive, as they say these days. Social and group activities will be shared much more actively, and will also prove much more enjoyable. They might prove quite profitable — contacts can lead to contracts and future benefits. The primary gain, the one that is usually considered the most important, is financial security, which is the trend for this quarter and the lunar month. Once again I must stress contracts and communications, but there are also companionship, correspondence, in fact, all the ties that you are capable of. You'll want to communicate not only with those in your immediate circle or vicinity but with the whole wide world. You will truly reach out to people and places, entertaining, socializing, spending quality time with family, even house guests, friends dropping by, and visitors galore— so it's strictly personal social interaction.

March 10, 2008 to March 16, 2008

Now it's the work arena in which changes for the better will come into play. Kindness and humaneness in you develop greater clarity and specially enhances the work situation. However, don't carry this too far as you Aquarians are notorious for making the world's burdens your own. A sense of proportion is necessary, for there could be disappointments and a feeling of being let-down, if not actually betrayed. You concentrate on hobbies, creative interests, new skills and new knowledge. And these could open up vast new spheres of work for you. There will be other gains, too. In fact till June/July, this upward direction may continue in your personal graph. Your relationship with loved ones, in particular, is favored.

WEEKLY HOROSCOPES

MARCH

Your Lucky Numbers are 1 and 7.

Your Lucky Days are Wednesday and Saturday.

Your Lucky Flower is Orchid.

March 17, 2008 to March 23, 2008

Progress comes to you, both in concrete terms and more intangibly, too. There will now be: (a) joy and bonding with family, parents/ children (particularly); (b) leanings towards higher studies, intellectual growth and new skills/knowledge; (c) possibilities of new collaborations, receiving grants, loans, endowments. In fact, strong inner foundations for future gains are indicated, but I need to make a clarification. The gains in this quarter are of a very different kind — glorious optimism, self-vision, inner strength come to you as. You are experimenting with profound emotions. In addition, with the shift and re-focusing that have happened over the last few weeks, you will see changes in both vision and lifestyle. Let me digress a bit and add that these shifts and revisions are part of human nature and happen all the time, as the pendulum of life swings back and forth.

March 24, 2008 to March 30, 2008

Travel is extremely important, also overseas visitors, even tourists. You are hospitable, friendly and outgoing. Those in related spheres of work like travel, tourism, hotels do well; at least they're bound to be busy. Also important is a kind of reaching out — to people who need care and support now. The scale of operation will be large — it will be social welfare, charitable organizations and trusts, even ecology and the environment. All this has you feverishly involved with money matters. There is an equal ardor or passion for the ones you love, or one special person. Whatever you're doing, there is an intensity of involvement along with useful, productive work. Planning and research yield wonderful results, in terms of great comradeship and support for you, and of course, the lines of communication are truly buzzing, right now.

WEEKLY HOROSCOPES

APRIL

Your hobbies can range from cycling, photography, reading comics, collecting stones of unusual shapes and sizes, collecting gadgets, collecting spices and off beat recipes, collecting perfumes, holidaying in the mountains.

March 31, 2008 to April 6, 2008

You realize that your greatest gains are your added knowledge, skills, wisdom. You wish to carry on in the same manner. Friendly activity supports your mental growth and expansion. Sometimes entertaining and socializing may not pan out as anticipated but it will still be a boost in will power, optimism, vision. You enjoy exploring new avenues for a) earning more and b) for acquiring more know-how. While income is important, it is the unknown, the uncharted seas of the world of the mind, tantra and mantra that draw you powerfully and discoveries, inventions, research — may be into astrology, metaphysics, space travel, other worldly beings, computers, technology — knowledge and skills for their own sake as well as for success.

April 7, 2008 to April 13, 2008

I need just one word to sum up *and* describe what will be the trend, the focus, the favored sphere of activity. The word is — *relationships*, encompassing all the ties, bonds, contacts and associations known to man. However, your ties and bonds with spouse, children, siblings, and parents will be uppermost. It is good to enjoy home and neighborhoods. It is marvelous to see your ideals of love and beauty taking concrete shape. It is fulfilling to see good chances of swift breakthroughs, in terms of work/profession as a result of the security of support from both family and colleagues. You will work steadily but ties with people (old friends/partners/colleagues and new ones) will give ideas and exciting connections. In fact, the excitement of multiple contacts energizes you mentally, flooding your mind with inventive ideas, information and innovation.

WEEKLY HOROSCOPES

APRIL

The diseases with which the Aquarian may be afflicted are swelling of the legs, and nervous diseases of various kinds.

April 14, 2008 to April 20, 2008

Once again, innovations and new ideas come and your work has a global, universal dimension. Your skills with people and with relationships will hold the key to success. There may be a kind of negative attitude in you about some things; there can be family disagreements or emotional tensions which are the cause of this. Give a little (be more open to suggestion) and watch hard opinions melt. Your loved ones, family and mate/spouse/lover require extra perceptive handling and right now you have the faith, vision, profound ideas, and optimism to make it happen. In concrete terms ties, trips, travel and pets, perks, promotion and power. At the same time, there is heavy commitment in terms of spending on home/family. Also, there will be foreign collaborations and overseas deals. In a major way, you make true gains in the insight, psychic and psychological impulses come to you, making you able to relate spiritually to God — and on earth, to people.

April 21, 2008 to April 27, 2008

The focus on work will be steady, even unrelenting. You will have to concentrate very hard on your professional sphere of activity. It will not be a sudden change, but a gradual build-up from the trends of the last few weeks. This is the quarter when the full moon brings you gains in terms of recognition, promotion, added money, even added prestige. In fact, good things flow to you. Marvelous communication helps you integrate your various functions and there's pleasure in all the roles — parent, child, sibling, lover, spouse, efficient worker. The possibilities, as they say are endless. Truly, I'm not exaggerating. Both love and money are therefore favored for you. You Aquarians tackle work with great zest, even cheerfulness. In fact, you truly enjoy hard work. In the light of this, can the matching rewards be far behind?

WEEKLY HOROSCOPES

MAY

Aquarius is drawn to and inspired by great causes.

They do not deter from their goals and pursue them until the very end. Often termed as head of their times, their ideas are progressive.

April 28, 2008 to May 4, 2008

In your own sun sign, you will shine and scintillate in several ways. Your own success may well invite envy, jealousy or resentment in others. Even bosses and superiors or elders in the family can feel that you are outshining them, and therefore feel threatened. What you need to do is proceed with caution, maintain a low profile, and yet give vent to creative instincts. That way, promotions and perks — will be yours. Enormous creativity, both professionally and personally, leads to an equal enormous amount of productivity/ Let me add that this is a time to take precautions — make sure your interests are safeguards

May 5, 2008 to May 11, 2008

This phase has all of the above, in terms of creativity, charisma and even person; freedom. It is a phase of very smooth sailing. And once again, this is a monthly phase. Leisure activities: sports/games, fresh interests, great times with children (your own or other peoples). Above all, there is real good money to make all these activities entertaining an easy. That's not all; exceptionally worthwhile and exciting possibilities of future gain are perceptible. This is the time to blow away all your worries and problems.

May 12, 2008 to May 18, 2008

Alongside a strong desire for personal space and freedom, you experience an equally strong desire to strengthen bonds/relationship: In your mind, trips, tics, people, places are very important and all linked together. It is the way you need to go into the future that will be decided now. Trips and places at just one aspect of the overall theme of communication reaching out and forging strong new links. You experience love for someone you look up to, or even put on a pedestal. In fact you're confident that your ideals of love and beauty will be realized. A mood of elevation along with elation sustains you even as people question your values, your ability. A somewhat complex week, but not to your own mood/mindset. That's straightforward and pretty clear!

WEEKLY HOROSCOPES

MAY

Among the faults, which are typically Aquarian, are extreme eccentricity, and an unwillingness to participate in any standard of protocol. When angered, they become seriously rude.

May 19, 2008 to May 25, 2008

This is the second such phase and while certain aspects are very similar, I need to highlight the differences. Progress, achievements, gains are all there and you are also able to accomplish a great deal. You may, however, feel that you are carrying a lot on your shoulders, both emotionally and in your work/ business/profession. It does not create any resentment in you. On the contrary, it spurs you on to greater efforts and I must say you enjoy it. You enjoy hard work, if it's to your taste and fulfills your creativity. You attack your work with zest. You will not feel like sparing the time for your children, loved ones, and dependents.

May 26, 2008 to June 1, 2008

It's not that you were neglecting your family and loved ones, just spending less time than usual with them. This week you have far warmer and better relations with family, young people, children, and loved ones. Also responsible for this is your own better health which allows you to indulge yourself and them, even though the need to work hard continues. Finally, your energy levels and sheer zest make you also undertake what Aquarians truly love to do — take care of and provide for others who need your help. You don't curtail any of your activities. On the contrary, care of the sick, elderly, disabled, less privileged or mentally challenged draw you into action of the right kind.

June 2, 2008 to June 8, 2008

Your capacity to reach out to people even if it's just touching base will be greatly enhanced. Communication will be much better sustained and more meaningful. This applies both personally and professionally. Doubts and mysteries will be clarified. The reason is that your mind will be uplifted to higher knowledge and the wisdom that comes with it. You are more willing to listen, to be patient and understanding. That certainly makes for accord. You feel blessed, relieved, playful, and energetic— all at once: Do I need to actually spell out how it impacts a) your relationships and b) your own mood and mental state.

June 9, 2008 to June 15, 2008

A desire for true upward mobility motivates you. You will seek to improve/enhance your finances as well as your property and other assets. Questions of spending and sharing pleasure are handled with both delicacy and freedom. It is easy to improve cash reserves and assets in the present scenario, you find. Now that you've tasted blood in terms of finances and gain, you're suddenly making it a very major concern indeed. You think of new avenues, means, opportunities, but let me hasten to add, nothing underhand. Your conscience won't permit it! The added money is, moreover, attractive to you for a very definite reason. Your own assets, property, house, belonging need to be improved added to, or renovated. You don't want to do this the wrong way and thus cancel your very tangible personal gains.

June 16, 2008 to June 22, 2008

Your success is very visible and you feel quite pleased with the direction your life is taking right now. It's visible to others, too. At work and at larger gatherings, conferences and such, you are dazzlingly vocal, powerful, and make your mark. The impact of this phase is further strengthened by luck. Games of chance, speculation or lotteries may well prove very lucrative right now. The luck of the draw will favor you. Let me sum it up. You strike it lucky and you strike it rich. Remember the moon is in the sign of Sagittarius, the archer. Your focus and dedication are bound to yield results in terms of success in relationships, too.

WEEKLY HOROSCOPES

Aquarius

June 23, 2008 to June 29, 2008

A phase of steady gains and consolidation of your position comes to you, as does enthusiastic co-operation from people. Your projects, plans and hopes are supported with enthusiasm by like-minded people who wish you well. You handle the public effectively, and are strong in organizational work. Love is a bit of a see-saw, a daring relationship with excitement and thrills, and also soothing harmony, a tenderness filled with peace and joy. You settle down to a steady low-key phase. No more dazzle and brilliance. You're putting your tremendous gains to good use. In terms of squaring up to family and domestic responsibilities, legal and property matters, demands of relatives and kin. Once again, there is philanthropy and charity. The worlds, society, community, all find you willing to care and share.

June 30, 2008 to July 6, 2008

The calm and gentle frame of mind you have developed will last well into this phase, too. So does the caring and sharing. Nursing, caring or providing for dependents/pets/children/old people will be paramount. Financial matters will also be geared to this end. You allow a lot of latitude to family, mate, and friends. A shared project benefits those who are desperate. Philanthropy and charity too, are important, but you handle them with charm, tact, and get old friends involved. Some helpful partnership leads to methods of pooling and sharing resources. To sum it up — you share everything you have in this phase.

July 7, 2008 to July 13, 2008

Peace and a sense of plenty characterize this phase. There is also a keen desire for further study, new disciplines, research and acquiring the latest skills in your field. There is a warning though. Do only as much as you can cope with comfortably — stress/overwork could be dangerous. Health problems are not ruled out. Finally, the greatest benefit will be the easing of tensions and unrest minds of others. Good comrades, useful friendships, even secret connections all support you in your projects and endeavors. You also have the best support of all. The gains from the last few weeks are becoming evident now. Much more so, I might add, especially in happiness with loved ones.

WEEKLY HOROSCOPES

JULY

Each sign has a part of the anatomy attached to it, making this the area of the body that is most sensitive to stimulation. The anatomical areas for Aquarius are the ankles and calves.

July 14, 2008 to July 20, 2008

You will have to cope with the demands that both, other people and you yourself make on you. Expenses will be so high that they'll be painful. But luckily success is not just sure, it's a foregone conclusion. Right time to make your dreams come true, to turn long-cherished ambitions into a reality (even on the personal front). What this gives you, as a result of these various and manifold benefits, is HOPE. In the middle of the year, you look ahead to the future with confidence; in yourself.

July 21, 2008 to July 27, 2008

The expenses will continue, but right now. You enjoy them — and gain from them. This is *not* as paradoxical as it sounds. You shop/acquire the best of things for your home, your property, your family and loved ones and children, your friends and above all, for yourself. In fact, you consider it money well-spent. It gives you joy, satisfaction and, let's be realistic, status in the eyes of the world. After all, money is the usual yardstick by which success is measured most often. Success hasn't gone to your head (I hope) but it has certainly made you generous as you spend money like water. These days, of course, even water is a precious commodity, but you should have got my meaning.

July 28, 2008 to August 3, 2008

You will feel that you need to now devote time, attention, effort to your inner advancement. This week, therefore, shifts your areas of interest and focus to inner revisions *vis-a-vis* your personal foundations, and lifestyle values will all be of vital importance. As I've said already, how you can accomplish inner growth is your major concern. Both higher study and good communication will be hugely highlighted, so to say! Keep your dealings with servants, colleagues, subordinates as cool and unemotional as possible; the buzz word is "objective". Believe me, you won't regret it. Don't get too personally involved at the risk of your own mental peace. You may well find yourself losing the affection of someone you cherish, or even harboring some very wrong notions.

WEEKLY HOROSCOPES

AUGUST

The best gift for an Aquarian is something mystical or arts related.

August 4, 2008 to August 10, 2008

It will be necessary to think of ways to sustain your gains, and even move ahead to fresh new achievements at this stage. Even some pending matters, long delayed projects that were practically in cold storage will start up afresh. BUT, what is the most important start/growth for you is on the strictly personal plane of love and intimacy. You are totally overwhelmed by the extent, the joy, the glow of personal love. Love is yours, and you feel loved. A blissfully fulfilling relation full of pleasure and affection lifts you to hitherto unsealed peaks, in terms of sheer joy and happiness. There could be excitement of a different kind in the starting of a new project. It will certainly lead to travel and lots of tics some new, some old.

August 11, 2008 to August 17, 2008

You concentrate now on a different factor in the theme of getting ahead. Though the motivation is the same, your activities shall change. From relationships and partnerships, the focus shifts to big-time finances, deals, tie-ups. There is valuable cooperation; you spend/give for a common enterprise. You are also the first one stepping forward in terms of new projects. You assert your authority, but charm helps in your job. You may even take on, and relish, a dazzling public role. In the personal sphere, the freedom and leeway you are willing to give will ease tensions in love, in family and bring hidden benefits, to everyone concerned, including you.

August 18, 2008 to August 24, 2008

In this phase, you feel attuned to virtually everyone, and loving communication leads to extra joy and fulfillment. Remember, the full moon is in your own sign, so it's bound to be so. In concrete terms, you have success, accomplishment of targets, objectives, achievements, good finances, and warmth in love, too. You can be in no doubt that you've hit a winning streak that's a mile wide. You can also have no doubt that it's all your own efforts, charisma, leadership, even charm that have made it happen. Even the warm glow of personal love overpowers you — it is almost overwhelming!

WEEKLY HOROSCOPES

AUGUST/SEPTEMBER

Close relationships inevitably stir up complex and convoluted emotions that Aquarians often find troublesome. Generally not materialistic, their most treasured belongings are their freedom and independence.

August 25, 2008 to August 31, 2008

You're back to being interactive, to reaching out to sharing space, ideas, thoughts, in this phase. Visions, optimism, the will to implement your ideas, all get a phenomenal fillip. You still create time for hobbies, new activities, and time out with friends, new fields of study and even research into subjects that interest you. Your vision, as said at the outset of this forecast, gets such a boost as to be almost total, if not all-encompassing.

September 1, 2008 to September 7, 2008

A time for growth, but of a more visible kind comes now. There is a shift, growth or movement in several spheres of your life. This could be purely physical relocation to a new house or even a new country, with the whole range in between. The other, even more vital and interesting development could be moving into a new, entirely different personal relationship or a shift of attitude in an existing one, so that love and even passion are intensely experienced. There is a romantic aura to your meetings, interludes, even talk. But my other favorite, money, is equally highlighted. This gainful phase also brings you a fair amount of financial activity, in terms of loans/funds/financing/capital — towards new projects or revitalizing old ones. The theme is basically the same, as I'm sure you can see.

September 8, 2008 to September 14, 2008

A different, lighter, more fun-loving side of you will surface in this week. You enjoy yourself, have a ball, not just a good time, party, socialize, even perhaps sing and dance to your heart beats. However, what you truly love is people right now — of all ages, sizes, descriptions, and callings in life. It's a true and genuine love for your fellow beings that suffuses your heart. Aquarians are often considered to be serious-minded, even lacking in humor and often not given to looking at the lighter side of life. This week, you set out with a vengeance to prove such opinions wrong.

September 15, 2008 to September 21, 2008

You've had your time out and now get back to work with quite a bang. You will be truly busy — in drawing up plans, projections, negotiating business deals/collaborations/tie-ups and drafting/studying/dealing with legal matters. All these activities will be linked, of course. Ideas swarm in your mind and have to be discussed, retained or rejected for even better ones. Your drive towards accomplishment is intense: in your field of work there is a valuable help. All this, while it may seem a total contrast from last week has actually come out of that rejuvenating phase. Your batteries are recharged and you take on the most difficult of tasks with ease and skill.

September 22, 2008 to September 28, 2008

Both money matters *and* your close interactions with people you care for will keep you busy. Your work and your familial duties take up almost all your time. Also on in-laws, elders, even the environment, if not the community and neighborhoods. Money matters are also important, though now it's time for you to receive rather than give. Benefits or added sources of income come to you. Also funds, joint-finances, even capital that could lead to future prosperity and security.

WEEKLY HOROSCOPES

OCTOBER

There is a bit of reformer in Aquarius. They'll try to get you to see through superficiality, and encourage you to be open and forthright.

September 29, 2008 to October 5, 2008

You now pile up rewards and riches of a higher order. I am talking now of spiritual and mental growth and movement. You show greater empathy with people too. This has actually been developing rather strongly and should come as no surprise. Your plans, objectives, future and place in the world, in fact, are all viewed from this rather lofty perspective. The times determined to make you a truly enlightened human being. The leanings are already there and you are just able to give them a proper direction. You are back to the theme of movement. Travel and trips are almost definite, too. In this theme of widening your horizons, this is the worldly aspect.

October 6, 2008 to October 12, 2008

You have the spiritual and moral growth. Remember that there can be no exact demarcations in astrology, as in life. To get back to the point, one theme very dear to the Aquarian heart, is care of the needy, the underprivileged, the infirm, the sick and the old. The core of this is your own growing care for your inner self. You seek it in philosophy, secret and mysterious religious practices, in *tantra* and *mantra*. There may even be some deals behind closed doors. Last week's new moon phase was a trend for the month(s) to come. In addition, there is a broadening to include two more activities, definitely, that come into their own now.

October 13, 2008 to October 19, 2008

You will use all your skills, intelligence, and imagination to keep a balance between your various aspirations and desires, and prevent it from tilting in either direction at the cost of the other. Therefore, needless to say, it is a week of hectic activity. But you enjoy it all tremendously. You realize that you have to live in this world, even while seeking the higher one. Day-to-day needs and material demands have to be met, and one must have the requisite skills to move with the times. In this light, even foreign connections, visitors and friends from overseas will be welcome in a different way. God-realization, identification with the Supreme Being, and thus seeking to improve yourself, become full-blown activities now. Besides meditation, introspection and your hidden quest, you will undertake research, further study, or pursuit of knowledge in new fields.

WEEKLY HOROSCOPES

OCTOBER

Some of the greatest benefactors to the human race are Aquarians, involved in social professions or as social benefactors .

October 20, 2008 to October 26, 2008

You are about to embark on an extremely busy time in your life, and as I said earlier, it will carry over well into the next year. Pleasures intermingle with work to form a wholesome ease, and there will be greater creativity and talent in your work. There may be confusion too, from discussions and matters revealed through and about friends. But sharing your thoughts is like a therapy, and will clear up misunderstandings, misconceptions that could arise. In fact, you are so good at the personal and one-to-one contacts and communication that many social inhibitions are loosened and there is both relaxed entertainment and love. You have the time, despite all your socializing, to plan wisely, well and slowly, about your career advancement and thrust. You are in no hurry to go places, so no rash moves are made.

October 27, 2008 to November 2, 2008

You will be in a fault-finding mood, not with others, but with your own self. Suddenly, you desire something a little different. You want to raise your own self-esteem and, at the same time, strive for recognition of your true worth in others' eyes. It is a different kind of security you're after, but equally important to us human beings. Now open up new avenues, prospects and schemes for you in terms of career and profession. Advancement or making your mark is not just a question of getting the right breaks. .

WEEKLY HOROSCOPES

NOVEMBER

Aquarians are fans of anything tart, especially lemon.

They are the ones most likely to have a hi-tech kitchen and the trendiest dining furniture.

Crystal or anything sparkle on the dinner table will appeal to Aquarius.

November 3, 2008 to November 9, 2008

Everything that you undertake is sharpened, heightened and vitalized in your sun sign in this phase. Your success at work and professional expertise are foregone conclusions, therefore. What's more important, to me at least, is that your people-skills are truly wonderful. Personal and intimate relationships find you doing/saying the right thing; so do most persons you interact with. This stems from your desire for peace and harmony which impels you very strongly indeed. Power, determination, focus, lots of zest and energy come your way. And since they are in very much the right channels, both success in career/ business and rise in popularity, credit, and public image can easily be foretold.

November 10, 2008 to November 16, 2008

Last week brought you gains that were dazzling and spectacular. This one sees you trying to strengthen and consolidate your gains and your position. Therefore, ties of family and duty are reiterated and refreshed. Your home, where you feel so secure, comes in for a sprucing up, in terms of additions and improvements. It's not only renovation and decoration of the home that you undertake; equally important will be the effort you make to rejuvenate/revitalize your relationships/bonds/ties. Your sincerity and caring are evident to all around you and communication with them helps you to scale new peaks of transcendence. As I've already said, relationships too are strengthened as you jettison pride and ego, and attempt to draw loved ones even closer than before, so that there is greater warmth and caring.

November 17, 2008 to November 23, 2008

Your people-skills will be spectacular as will the warmth of all your relationships — due to your own effort and attitude. Ties are vital. There might even be a wedding in the offing. There is also a touch of romance in the air, very warming indeed as you feel the nip of early winter. Your home and hearth, cozy domesticity and affection are your greatest desire, and you do all you can to keep it that way. You extend the same caring and warmth to your friends, even acquaintances, in all your interactions with them, as well as to colleagues at the workplace.

WEEKLY HOROSCOPES

NOVEMBER/DECEMBER

Alcohol is destructive to an Aquarian's nervous system. But a small amount of light beer or champagne and other drinks with carbonation may help calm the nerves.

November 24, 2008 to November 30, 2008

A truly marvelous phase is given to you now. You may well see the coming to pass of hopes/ambitions you've cherished for some time now. Long-delayed matters will be concluded well, rather than new. You find relief, relaxation, fun, and pleasure in socializing, hospitality, and generally having a good time with friends. In that respect, you're lucky because you have realized who your real friends are, what they mean to you and vice versa, and identify yourself with people who share your values with smooth dexterity in this new, more caring attitude. So finance, food (read entertaining/socializing) and family form a glorious contract with the future.

December 1, 2008 to December 7, 2008

All the popularity and approval, the praise and recognition you have desired is yours, in full measure, and brimming over, equally in full measure, is the inflow of money. You've got the right touch for both money matters and add-ons in the family. The last could range from acquisitions to greater warmth and unity, to even a new arrival/birth in the family. What makes it even more pleasing is that you have worked hard to get where you are; secondly, it's just where you saw yourself in the scheme of things.

December 8, 2008 to December 14, 2008

Status, authority, even your public image and persona are such that you could look back at yourself in the mirror and see success personified. But once again, while it's wonderful to feel this way, you just might get carried away, thinking you can do no wrong. I'm not talking of 'Pride before a fall'. I'm talking of the risk of loss, even personal loss or alienation, from the very persons who have made it all worthwhile. Care and restraint, if not a touch of modesty would be very desirable indeed. Even greater credit and popularity than you have known before are yours as you scale the heights — in several ways, which I've just described to you above.

WEEKLY HOROSCOPES

DECEMBER

An Aquarian child will often be totally unpredictable and come up with lots of ideas; she will also be sensitive and intuitive.

December 15, 2008 to December 21, 2008

You're not content to rest on your laurels and/or take things easy. As the year enters its last few days, all other matters pale in significance and only finances seem important, not necessarily meaning that you're money-mad. It implies that, at least this week, you focus your attention almost totally on money matters and activities dealing with buying, selling, trade, lending/borrowing, forming capital. Travel, too before the year is out, or even moving office/house. It is quite likely that there is a linking factor in all these, at least a job-switch, a new business, even a new line of work. Weigh your options before you take the plunge. Be careful where and how you invest, especially in business. If we're talking of taking the plunge, you could be in deep waters here. Pun intended — to make you get my meaning!

December 22, 2008 to December 31, 2008

Your activity is sustained, and genuine, but totally free of tension or any kind of anxiety. You find yourself content, experiencing much fulfillment in the last days of this week that ends the year. It will certainly carry you happily into the year to come. Once again, journeys, trips, expansion of the mind are all favored. So also are rites, ceremonies, religious or otherwise. You know you've got what it takes to get on with life the way you choose, and on your own terms. And you know that it will come to pass fairly soon, though
