ABOUT ASTROLOGY

Astrology is often defined as the study of the influences of the cosmos on life on earth.

The zodiac is the belt or band of constellations through which the Sun, Moon, and planets transit across the sky.

Astrology is a science related to the heavenly bodies. It is the study of the movements and positions of the sun, moon, planets and stars, and the skill of describing the expected effect that these are believed to have on the character and behavior of humans. Astrology is not at all a fortune telling. It is one of the successfully tested methods for man to learn about who he is, where he came from and where he is going. Astrology reveals CHARACTER and character makes your destiny.

The main uses of astrology are analysis of health and sickness, character psychoanalysis, professional guidance, analysis of children's horoscopes so as to give parents a better idea as to how best to raise their children, and analysis of the compatibilities between people.

Astrology does not show anything but tendencies. A man can dominate his stars by exerting his determination. If a man decides to flow with the wave of life, then the tendencies indicated in the birth chart could be observed in that man. Astrology forewarns and being put on alert, a man is thus in a better position to cope with the struggles of life.

There are three aspects which bring to us the mystic message of the stars - the houses, the signs and the planets. Each house represents a section of life; the signs are divisions of the heavens which by their placement relative to the houses indicate our basic temperament and attitude towards life and the relative motion of the planets through the houses are the messengers of the god which bring to us the opportunities.

About Sun signs

Your sun sign represents the sign of the zodiac that the Sun passed through at the time of your birth. The Sun rules your essential personality, your ego and your willpower. It represents the core of your potential and your distinctiveness as an individual; it is who you are and what you are about.

The beginning and end dates for each of the signs can vary from year to year. Cusp is the border line between two adjacent sun signs. If you were born on a cusp, you may have some qualities of one sign and some from the other sign.

ABOUT THIS BOOK

Destiny refers to a predetermined course of events.

Fate is a power or agency that predetermines and orders the course of events.

KNOW YOURSELF

Romance doesn't have much meaning for you without sex, for you believe more in the meeting of bodies than of minds

When in love the Aries enjoy surprising their partners, and generally make excellent husband and wives.

You are aggressive, the kind of person who takes problems by the headlocks. You are as fearless as the Gods and enthusiastic and fervent to the extreme. Your sex drive is very strong and you are quite aptly, extrovert. But the drawback is in terms of your egotism. Even though you are the leader in your peer group, you lack the wisdom required in a leader.

You might also show attributes of blunt and roguish behavior and lack of pragmatism while dealing with people. However, having strong emotions and being courageous and forceful, you forge your way ahead in precarious situations. So when a new endeavor is to be undertaken, you will be the crucial person. Your approach with opposite sex is altogether aggressive and straight-on, like your approach towards life itself. You have an exceptional exuberance and stamina, and this probably originates from your quality of being your own master, but this also leads to the lack of style and grace.

You don't talk a lot or try to justify, you just assert your supremacy and work. Now you can decide for yourself how good this can be for your leadership. You are not very social, but you are quite helpful and even gullible. May be that is why people try to take undue advantage of you and even become successful.

Qualities that make you lucky are daring, full of life, impulsive, and plain philosophy. Qualities that hinder your success are intolerance, self-seeking, envy, and inflexibility.

2008 FOR ARIES

As a friend, you are warm and on the level, never doing things by halves. You expect total sincerity and devotion and are willing to extend the same. In short, a fine friend and a formidable foe.

This year is surely going to bring all the authority and power that you strive for. And do you know what power brings along with it – responsibilities, lots of responsibilities. So you will be drowning in schedules, tasks and appointments, and you will have to put every ounce of effort that your body can muster into it. Needless to say, safeguards on health are totally necessary. Look at it like this – you take care of yourself now and not let yourself be overburdened, and that way you can keep yourself going for long.

Funds, investments and capital will warrant most of your interest, just as meetings, celebrations and journeys will take up most of your time. Foreign connections will serve you well for a considerable duration, and they might just be the source of the extra unexpected income on the cards for you. There is quite a possibility for deceit. You might be beguiled into taking a decision or making a commitment that you may later regret.

Other than this, you will have a variety of new experiences that will widen your way of thinking about your job, and your life itself. These different experiences that you will have (most probably a journey of some kind), will make you go about your work with even more enthusiasm and zeal. Plus, you will start indulging in the good things of life – something you haven't been able to do hitherto.

The important thing for you is to understand not to take personal setbacks and hurts too much to the heart. Time has a way of sorting out things on its own – especially if you are having such a materially gainful one. Keep up the tempo and believe in your abilities, the year will see you off in a completely new position.

MONTHLY HOROSCOPES

As a father, you like to impose your will over your children. You look forward to the day when they will join in your interests, finding it difficult to accept that they have their own. You must learn to respect their interests, to prevent harming the relationship

JANUARY

The universe grants, right from the very beginning, a splendid year — both personally and professionally. Your hopes, aspirations, profession, your status in the eyes of the world are all favoured and focused in a pleasing display of glory. By glory is implied not only success but the achieving of personal milestones you've set yourself in other spheres — things that you have long wanted to do. And here we're painting on a truly broad spectrum; in fact. I seriously doubt if it could get any wider! There is personal status, prestige, power and position, but there is also fulfilment of no mean order in all the relationships that are dearest to you. So there are friends and family as well, to round off this grand repast.

Love is manifested in all its hues — care and concern for parents, older relatives, your children, intense emotional bonding with your spouse/lover/mate/live-in companion, and total commitment and dedication to your vocation/profession/avocation. I would even be prepared to stick out my short, fat neck and say that at this juncture, at least, it is your first love and your major concern. You not only give it all you've got but also feel it's the only way to go about it.

That actually says it all. The pressures at work will mount, but there is the very real danger that you might let them preoccupy your mind to such an extent that personal relationships you value could be put in serious testimony. You need to keep your priorities clear! And you should have both the wisdom and the common sense to ensure that this is so. A good start is half the battle won, people always say, and it was never more true than your forecast for this first month of the year. To mix metaphors a bit, you start by firing on all cylinders, i.e., home, family, parents and in-laws as I said in the context of relationships, but above them all, your own self.

FEBRUARY

Creativity, ingenuity, personal charisma all make you truly successful. is to let your own personality shine forth — harmony comes from sharing ideas. At this time in any case, you're happily involved with friends, neighbors, even work-mates, in a spate of glorious activity. Some aspirations, desires or even secret wishes known only to you so far may blossom and be realized — fulfillment, friendship, finances

MONTHLY HOROSCOPES

As a mother, you are naturally ambitious for your children, not grudging an outlay of time and money so that the child wins glory. You will fight tooth and nail for your children's rights. Although tolerant you must cultivate a more tactful approach.

will almost certainly come to you. I can tell you I am pretty sure about this particular forecast!

You have to curb a tendency to want your own way, your own ideas to prevail. We all do at some time or the other, so no criticism is implied. Astrologically, this is a trait you share with other signs, Leo and Capricorn, for example. In any case, no one can hope to get away with it all the time, and nor to be fair, do you. My advice is to tread softly and attempt to get ahead without causing hurt or offense. Love is felt deeply and wonderful ideas shared in mutual affection which seems to be ever increasing.

You are conscious of a sense of well-being, security from older relatives, peace of mind. There will be a pleasurable widening in both your interests and pursuits, creatively speaking. In fact, in that sphere, this month should actually be clubbed with March. There will be a kind of continuum, a flow, happening in this spurt of creativity that you experience. Long cherished hopes, dreams and plans now seem ready to be realized.

Travel and home come together and that could also mean a home away from home. You will communicate and act brilliantly and courageously, and that assures both success and satisfaction.

MARCH

A fantastic time of success and glory in which your own performance and achievements speak for themselves. You don't even need to put yourself to the trouble of trying to impress others, make a statement. This applies specially to your newest pursuit — charity, fund-raising, giving alms and your time to worthy causes. And your very patently obvious sincerity and commitment help you not only to handle these with a considerable amount of success, but also gain much yourself in the bargain.

This won't just be rewards in the after-life for good deeds done now. You attain tremendous poise, confidence, true convictions. All these are not to be sneezed at in any case, but they yield other dividends too. You may find yourself having to deal with bad-mouthing, loose talk, envy, even

MONTHLY HOROSCOPES

Ideal careers for you are sports related, engineering, exploring, military, or acting.

Suitable occupations are where initiative and enterprise are needed, and preferably physical activity.

loose talk, envy, even outright enmity- and resentment. But they cause no real setbacks in terms of further progress.

Relationships flourish and grow into greater warmth and closeness; you continue to make both phenomenal gains and material progress, even though you are more than aware of restrictions and limitations — you just don't let them faze you! This will apply most particularly to your financial dealings as well as your personal interactions, both. Most of the previous month's forecast applies here too, so I'll keep this short and snappy.

APRIL

It's self-evaluation time, perhaps even make-over time. A low start to the month comes as a forerunner.

Your complete persona, your image in the eyes of others, and your values come under the microscope. Health could be a little unsatisfactory. You may become a prey to sorrow or depression or self-doubt. A solid advice is not to be such a perfectionist, and so critical of yourself. Leave that to others. The reason is that you are seeking success/achievements of a higher sort. There is another reason, for part of your birth-month, astrologically speaking, is over, and with it some of the 'high' phase. You still have tremendous gains, but of a different kind. You turn the searchlight inwards and make sincere effort to remove flaws or shortcomings that you perceive in yourself.

MAY

After the slowing down you experienced at the end of April, the momentum is picked up once more this month, particularly in all activities dealing with finances. Opportunities to make money come fast and furious, from clever investments and playing the market, to windfalls, legacies, lotteries, even wins at pool, the races, whatever! Your possessions, gadgets, belongings will be so important to you that any encroachment on them, whether real or perceived, may upset/hassle you greatly. I would suggest that you try for a greater sense of proportion about them, more for your own peace of mind than anything else. You might alienate friends and loved ones that way. You don't want them to think that things matter more to you than people and/or their feelings. You are ready to give i.e., make

MONTHLY HOROSCOPES

You like to be ahead of your comrades, do everything first, and have the first and last word in discussions and arguments.

You are bold, aggressive and courageous, impulsive and compulsive, strongly independent and physically able to be competitive.

compromises and adjustments.

You may also find yourself giving in to parents, superiors or those in authority over you. Lest you think that this entire forecast is about you giving in, making adjustments and such activities. The rewards that you really deserve are gains in prestige, perks, promotions and popularity. Good for you! Recognition of worth is always pleasing. It certainly makes you want to make your success more visible and more concrete.

Trips and travel are also likely, for either work or just in a mood of getting away from it all. Contacts and communication will be vital in importance; one could even say that they form practically a theme for you in terms of over-all gains. They not only help in career and profession, but teach you to deal with your own pride and ego — of which you have a fair share. Here I must say that it is well-deserved, for when push comes to shove, you're not only an achiever yourself but genuinely don't grudge help to others.

After the keen strivings and the hectic activity of your birth-month and the weeks after, you may have found the pace slowing down somewhat. Now once more, the zing is back and you're no slouch at doing it full justice.

JUNE

From material/professional success, you now move on to target relationships and ties. Loyalty is your strong suit and it is on this that you forge strong and lasting relationships. True bonding, the exchange of ideas and information along with hugs and kisses, affection and caring in no small measure are yours. You have to deserve all this by being less adamant and assertive, even if it goes against the grain. You have it in you to be a good, caring/ sympathizer, a patient listener. It is also a sure-fire way of garnering both popularity and desired results. In fact, they could be pretty dazzling.

Future plans, travel, growth and movement are in store for you this month, all linked together by contacts and communication. From personal interactions to time spent with siblings and cousins whom you grew up with, even in-laws, parents, older relatives — you renew contacts, make that telephone call, write that letter, or go and visit. You gain much from this effort in terms of satisfaction and not just

MONTHLY HOROSCOPES

good will but perhaps also good ideas for future gain.

JULY

All I really need to say for this month's forecast is from the previous one. Another fine month. But it's vastly different as you focus now on relationships, ties, bonds, the joys of home, house and property. In fact, this trend was initiated last month itself, as I had pointed out. You embark on a major improvement exercise on all, or almost all, of the above! Renovation, redecoration, overhauling, adding, beautifying and acquiring are taken up with true zest and enthusiasm in the home — even if all it includes is a new set of curtains or a new labor-saving gadget.

The quality of life improves all round, I must stress. Emotionally, socially and also relationships-wise you are a huge gainer. The ties you forge or re-establish, or strengthen (as with parents, relatives and old friends) are based on affection, love, mutual caring and sharing. They also center around home, and home-based activities. You may also be inspired by the same objectives to take up a new craft, skill, course. Peace of mind, absence of worn-, as well as increased benefits in your job, which makes all this possible. Greater spirituality and religious faith, almost bordering on fervor are also in store for you.

To go back to the angle of relationships and emotions, you may be forming or about to form a strong and lasting relationship or bond which will achieve its glory or zenith by the end of the year. It may or may not be a marital bond, but believe me when I say it's powerful. In fact, all relationships are working out with a depth, an inevitable growth, and the good news is that they're here to stay. That may make you feel secure if it's what you're looking for. But I would still go out and bat for spirituality as your major strengths.

AUGUST

Owning up to moral or other responsibilities is never easy. You now decide to analyze your own role in, and contribution to, your relationships. It is a time for many new beginnings, not the least of which is over-all improvement of your personality and your values. You understand, perhaps as never before, just how vital it is to believe in networking,

You Dislike waiting, tyranny, failure, lack of opposition and the advice of others.

You can easily be irritated by slowness or moderation in their companions and, though themselves easily irritated by slowness or moderation in their companions, ride roughshod over the sensitivities of others.

MONTHLY HOROSCOPES

You are most compatible with Leo, Sagittarius, and Aries.

sharing, teamwork, building bridges and deep understanding. All this makes for growth and movement of your total persona to a much more evolved avatar. Incidentally, it's an equally favorable time for moving house, shifting to a new job, city or location. New beginnings can encompass so many things.

The month ahead is going to be wonderful for fun, partying, amusements and entertainment, much like the spring month of March. You are likely to experience — love, flights of fancy and imagination, heightened awareness of the beauty that surrounds you, and us all, for that matter. But even more pleasing and certainly more enduring are the heights you attain in spiritual and occult matters. They lead to greater inventiveness, inspiration and creativity which are reflected gloriously in both professional brilliance and success at all kinds of creative, socio-centric or publicity-oriented ventures, enterprises, efforts.

SEPTEMBER

The end of last month's forecast hinted at what will be the primary focus or main trend now. You will be heavily involved in house and family, and in dealing with superiors and people who have power and authority over you. There is a need for care in the areas of health and nutrition without your actually failing ill- You may have been over-stressed by involvement in the problems of others. you can barely find the time to do justice to them, in terms of proper attention and appropriate action.

Your partying days are over. Cares and commitments keep you far too busy to socialize and you do introspect a lot, too. Having given so much last month, You are advised to have a breather to think things over. it is definitely not the time for new investments and deals on business, in general. He probably doesn't want on to fall victim to greed and gluttony — and that's not entirely a joke either! It is a phase in which you will be preoccupied with yourself, almost to the exclusion of others. And that way lies the road to selfishness, over which I am ever concerned.

OCTOBER

Your introspective assessments of last month will yield great results. You have realized that you prefer to give rather than take. Perhaps a business partnership could also evolve

MONTHLY HOROSCOPES

about this time — the time is astrologically favorable for it. Of course it depends on your individual horoscope too.

The time is equally propitious for the ties and bonds of matrimony; perhaps greater closeness and sharing if you're already married. In addition, your public persona and image will be hugely important. Once again, the how and why will depend on your individual horoscope. Right now, I'm talking of trends and indications. You may reach out a helping hand in voluntary work or perhaps form a partnership which extends more support to the other partner; here I'm not talking of marriage or family.

Your other main occupation, preoccupation, interest and focus will definitely be the information technology, websites and even software, since you're reaching out on a scale that is truly global in its manifestation. Here the give-and-take assumes huge dimensions and yields results on a similar scale. It had to be, since you Ariens have always been fast learners. Whatever the reason, the result is glorious bonding and togetherness and establishing contact in any way you can with the people who matter to you personally. I can see travel and short trips as a distinct possibility. Also interactions with colleagues and companions at work in a new spirit of mutual cooperation. It will lead not only to deals and ventures that are lucrative, but satisfaction on the personal and emotional level, too.

NOVEMBER

A time to assess past achievements and set yourself fresh goals and objectives. You will make the right decisions and choices. The reason is simple and you don't have trouble finding it. Your own greatly enhanced spirituality and faith guide you; moral values, you're already strong on. The combination will be deadly, unbeatable, and you annihilate any wrong tendencies before they have a chance to grow.

Kindness, caring, sharing seem to be what you desire to achieve the most. It will have a greatly pleasing and beneficial effect on your personal life and on your professional interactions. Let's just carry on looking at your sphere of personal relationships for a while more. Your ideas could be confused, perhaps mixed up with powerful sexual attractions. Even alarming, and certainly strong, passions are experienced, either within marriage or outside it.

MONTHLY HOROSCOPES

Don't take offense or turn puritanical on me. I'm just telling you the astro-indications! Ultimately, of course, you see through things and gain superb strength, power and creative union, so that true love is felt deeply and solid ideas are shared in a setting that increases affection and caring. Moving on to other matters, gains and acquisitions will figure largely, but finances will present a somewhat confused picture. Loans, funds, capital, join-finances are favored, but so also are the possibilities of huge expenses and outlays or perhaps even a debt-trap. It will pay to be careful, cautions, conservative — an attitude that will yield better — and more lasting — material gains.

DECEMBER

A year of achievements, glory and recognition is ending, and you continue as you have been through the year, achieving much and planning ahead. Travel for long distance connections or even pilgrimages of faith are possible. So also a more permanent shift, relocating to a new town, city, or even country. Some kind of uprooting is virtually definite even it is emotional or religious.

Spiritual growth, too, is a tremendous gain that you have made this year, and this will continue unabated. Also favored will be higher study, learning, research, technology, science and future plans. Have I left anything out. you may well ask cynically. Personal bonding, a sense of belonging, and oneness with those you love, value, and cherish, particularly with parents will be as sweet as never before. However, you feel that it is on the personal front and it is your growth as a person that constitute your greatest gains. In some truly valuable respects, December therefore, continues the trends of November.

January 1, 2008 to January 6, 2008

The first week of the year will just reflect the developments of the previous week. With your rejuvenated zeal and fervor, you will pounce on your work, absolutely confident of your self and your objectives. You are ready to clamber to the apex of your glory and take any sort of pain that comes your way without flinching. People around you will take notice of this rising determination within you and be inspired by it. Whatever you will do with this spirit will impel you tremendously in the New Year.

January 7, 2008 to January 13, 2008

You've been working hard over the past few weeks and the results now begin to show. The focus or emphasis, however, will be strongly on finances, definitely, but more in terms of investing rather than just spending. The inflow of money is a certainty — loans, funds, trusts, personal income, family finances. Any or all could apply. A fine week to start the year with. It also makes home life and family interactions move along smoothly.

January 14, 2008 to January 20, 2008

Family issues/concerns and money matters both move smoothly this week, too. but the pace is steady rather than spectacular. Older people are a support in terms of advice for making long-term plans for your career, setting goals and making the right moves. And that's a lot. It's the way to longer lasting achievements, financial and emotional security for you and for the family. A week for quick thinking; interplay with people you like will stimulate you; your work is solid and steady and you win at games, too.

WEEKLY HOROSCOPES

JANUARY

You are incompatible with Cancer, Virgo, Scorpio, Capricorn, Taurus, and Pisces

January 21, 2008 to January 27, 2008

A shorter forecast for this is a week that can be summed by just saying "Expect the unexpected" Distant connections may seem puzzling and mysterious. You may also strike up chance acquaintances and friendships. Some strange happenings are afoot, but the fallout will be good rather than harmful. It could range from unexpected projects, offbeat friends, an intoxicating new love. Fine developments come at home. A lot of activity will be your lot this week — centered mainly on house and home on the one hand and finances on the other.

January 28, 2008 to February 3, 2008

It's money all the way. I'm not saying that you are going to be raking it in with a shovel. But your concern will be with household expenses, future financial commitments, and business demands. It may be that you acquire, certainly, a few extra things, if not property shares. You get valued co-operation and help from several quarters.

WEEKLY HOROSCOPES

Pleasure, profit, progress are coming your way as they do now. Sources of fulfillment will seem within your reach: your work leads to ideas for investment and expansion. You feel loved and people around you are supportive. A good monthly trend to start the year with! Your own role is vital — learn to appreciate and reciprocate what you are given, learn to show you care. It's time to make the right moves. Decisions taken now will have long-range repercussions, especially if you want to aim prestige power, position as I've mentioned to you right at the outset. It's a very good feeling and a good friend.

February 11, 2008 to February 17, 2008

You'll need to learn to keep cool Differences (more possibly at the workplace) can arouse intense feelings. Decision regarding travel and duties may pull you in different directions. Calm thought will help you go the right way, so also will helpful partnerships. Your own attitude will continue to be vital both in the intimate personal relationships and with home and family. Money issues will be satisfactory. Once again, investment and even speculation are favored, but also creativity, entertainment-amusement, pleasure. Also possible is the chance of a little chaos and confusion, both at work and in some mix up at home. Perhaps plans for travel may need to be shelved.

February 18, 2008 to February 24, 2008

You will feel the burden of responsibility this week. The responsibilities and accountability that come with power and recognition of your worth may weigh you down somewhat. But awards and rewards do not come lightly — in more ways than one. And this could apply equally to both the family and your work. Appreciation and benefits too, but they are hard-earned and richly deserved. You try to live up to them, working harder than ever. And more so in the family scene, where there could be anxiety about older relatives and illness. You cope! Try to do it graciously and gracefully.

You realize the strength of mind and determination, and will be greatly enhanced. You are suddenly but not inexplicably, busy on two fronts. Monetary matters and responsibilities will be discussed and thrashed out. At the same time, more lasting benefits of spirituality and the real inner values that guide you will also keep you involved on a totally different plane.

March 3, 2008 to March 9, 2008

Hectic as it may seem, it is a fun-filled and fulfilling week. Even public actions are filled with grace and beauty from your inner self. Efforts to try new techniques at work meet with a little resistance before they are accepted. You'll be well advised to take a softer, more conciliatory approach. It'll get you better results. Your spiritual, meditative side gets energized too, at the same time. You search for deeper meanings, inner values, even answers to cosmic questions. And this, even as you party and socialize with a fervor that's not just infectious but downright stunning.

March 10, 2008 to March 16, 2008

But there is more — love, caring and sharing with your mate/life partner!

March 24, 2008 to March 30, 2008

You'll have a lot to cope with and it will be shorter trips, ties, correspondence that are important this week. Equally important is your own attitude. It's NOT the time to be rigid, unbending, and even uncooperative. You need to use persuasive skills, not a bludgeon to get results. It will be work and more work for you, this quarter. I can even see you carrying your lap-top home, burning the midnight oil, trying to get done the things that bring you at least more clout, more mileage, if not more financial gain. These, too, come but you're not going to be successful in attempts to make a quick buck, even if you perceive opportunities to do so. It is more the correct time to visualize/ formulate/ put in practice new procedures, policy guidelines — the backbone around which your work will resolve (Have I mixed my metaphors? Doesn't matter, so long as you get my meaning!) Shopping, acquisitions will enhance the 'feel-good' factor.

WEEKLY HOROSCOPES

APRIL

Your hobbies can range from sports, cycling, quizzing, solving puzzles, creative pursuits and other activities that make you stand as superior being.

March 31, 2008 to April 6, 2008

you will be assisted in your endeavors not just to the extent of improvising your professional career but also in making strong acquisitions. You will involve yourself in quite some property, building or construction, land and family matters. You will show a strong desire for action, and will be keen to strive for advancement and improvement of your image. You will really do things that will make it all happen. The right moves, the right people and the right choices will come naturally to you.

April 7, 2008 to April 13, 2008

Success comes to you in several ways and all very tangible! In your own sun sign, the new moon brings the advancement that was somewhat limited last week. New projects will gain momentum while existing ones yield profit. Family life will be smooth and hassle-free — all as a result of your own efforts. But there is the danger of pride and honor degenerating into ego and self-conceit. Though you will have much to be conceited about! Changes that were being made are almost complete, bringing a sense of stimulation and excitement. Equally exciting is the deep satisfaction from love, friendship, pleasure. This is a good way to feel. Enjoy it to the utmost.

WEEKLY HOROSCOPES

APRIL

You are prone to head injuries, eye strains, anything with the face and head.

April 14, 2008 to April 20, 2008

You will focus almost totally on yourself for this week. If I needed to sum up the monthly trend initiated last quarter and seen in full bloom here, I would say —watching out for yourself. This is something that Aliens are usually good at. Now you take it up almost whole-time, thinking of ways and means to personal progress. Not selfishly or egocentrically, though, but your home, your property, your family; your money, even your partnerships and legal matters. You are active in all the spheres I've listed above and gainfully so, for the most part.

April 21, 2008 to April 27, 2008

All your activities, pursuits and pleasures are very much of the material, earthly type, not other-worldly. You are filled with a zest for life and a pleasure that is intoxicating. Playfulness and spontaneity expand the joy of life you are experiencing now. Success lends its own aura to your life (and to your personality) and you are determined to bask in it, thoroughly. An extremely favorable time for making investments, earning something extra, or getting a windfall/ legacy/win at gambling. Also, lots of passion and physical pleasure, sensuality in indulging yourself. Your gains are therefore manifold. Once again — enjoy it!

WEEKLY HOROSCOPES

MAY

The astrological symbol of Aries is the Ram. You indeed "ram" your way through life by sheer energy and force of will and accomplish many things by your boldness and courage.

April 28, 2008 to May 4, 2008

You know that success has to be backed up by work, or it doesn't last. It is too sweet a feeling to let go. You swing into work mode; though happy times with the family still give you pleasure. Doing too much can cause some stress. Take things in your stride — don't get into confrontations and showdowns. You gain recognition and appreciation of yourself as a person this week. It's not only at work — you give a good account of yourself, and are only appreciated — but at home and in the larger family circle. Yet there is a sadness and "low" feeling to cope with, too. What goes up has to come down. And that's the way it is with you in terms of mood and thinking. Some worries about someone older/superior could be the cause, particularly their health.

May 5, 2008 to May 11, 2008

I pre-empted this forecast a bit last week. Material gains of all kinds come now. A good time once again for money matters and finance. You may even have spending on trifles and fun rather than necessities. Short trips, contacts and communication are also important. So it's a mixed bag of goodies here! There could be many demands made on you. Certain rigidity in outlook could surface. It may lead you to dig in your heels and be a little unbending, uncooperative. Maybe it's first a desire not to be taken for granted — you could feel a little resentful. To lighten you up, you will be shopping around for few items, trifles that amuse you, and are entertaining, too. You need to savor your success, having worked hard for it.

May 12, 2008 to May 18, 2008

Much, much more of the same — in terms of material gains. The goodies I spoke of just above are now coming your way as thick and fast as you'd ever have imagined. Fun and frolic, children, loved ones, friends even a quick buck to be made (games of chance?). Equally good for chancing your arm in romance. Excitement and amusement are in the air in a big way.

WEEKLY HOROSCOPES

MAY

Among the faults, which are typically Arien are pride and egotism and a lack of maturity despite your great vitality.

You also lack tact and diplomacy, but can be generous and open-hearted.

May 19, 2008 to May 25, 2008

This is the second full moon phase in the same sign. While the pleasures and productivity are the same as in the first phase, there are bound to be changes, differences. The idea is to keep moving further, isn't it? You seek diversion in the things that give you pleasure. Both new directions and effort are important to you. Playtime, of a different kind, in terms of total self-expression. The results might surprise you.

May 26, 2008 to June 1, 2008

You gain much this week in terms of both satisfaction as well as achievements at work. Skill, authority, generosity are all there in your handling of people and situations. Strength and the energy to direct yourself into the right channels come to you. And the results will be more than pleasing. You will feel that you really can't put a foot wrong. A wonderful week for both work and love comes to you as a gift from the gods! A multitude of pleasures — love and closeness and exquisite harmony, friends, good partners. You go out of your way to accommodate the last two named, but you do it. Mutual exchange of ideas and caring go a long way towards strengthening bonds.

WEEKLY HOROSCOPES

JUNE

Arien strengths are dare, courage, boldness, charisma, spontaneity, activeness and clear thinking.

June 2, 2008 to June 8, 2008

A larger canvas for you this week. You reach out in even way you can — from meetings and rendezvous to fax, e-mail, voice-mail, the works, in short. Not just to people, please remember, but places. The environment, eco-concerns, wider issues also keep you busy. And how! A huge level of awareness and commitment is to be seen in you this week. You and the world, now. Not in confrontation but in fine accord. One of my favorite phrases — people and places in both the literal and the larger sense. That sums up the trend for the month.

June 9, 2008 to June 15, 2008

The growing awareness of last week develops further. After the pleasures and pain of the material plane, your mind is irresistibly drawn to a higher level. You set your sights on a higher and superior consciousness, spirituality, the cosmic cycle of karma. Also research, higher studies and imbibing knowledge for its own sake. Travel of the mind, and perhaps actual journeys too, not just spiritual ones, keep you firmly anchored in this world even while you seek another. Conference, business meets, seminars, study tours, pilgrimages — i.e. travel with a purpose rather than for recreation is a strong indication here.

June 16, 2008 to June 22, 2008

A somewhat taxing and certainly demanding week lies ahead. A little stress may develop. You could be over-wrought perhaps about unfairness in your work/business and somewhat depleted in health. At the same time, there are useful discussions, meaningful dialogs with those to whom you can reveal your innermost thoughts. Perhaps a mystery could be revealed. The possibility is there and it could be something that may radically alter the quality of your life — not necessarily materially. You are still spiritually inclined but you exercise your mind greatly in the goals you hope to achieve.

WEEKLY HOROSCOPES

JUNE/JULY

Aries weaknesses are selfishness, impatience, pride, brutality, jealousy, possessiveness, and violence.

June 23, 2008 to June 29, 2008

Once again, the moon is in your own sun sign. While this time it is not a monthly trend, it brings a coming alive of faith and hope, of confidence in yourself, an awareness of your own strengths and qualities. And they are many. You can manage both financial issues and domestic matters with charm, resolution and tact. And that makes for smooth sailing AND peace of mind! It's a good week, full of not only pleasure and profit, but also the things that matter, more domestic joy and harmony and true love.

June 30, 2008 to July 6, 2008

A strengthening of commitment comes now — and it's really needed, too. Money will be easy, though not wonderful. Nor will your health. More rest will be very desirable to you as once again, all kinds of pulls could leave you feeling as if your batteries are running low, and you just can't cope with all that you're required to do. Your faith will energize you, as will your warm interactions with loved ones. Once again you focus very definitely on home, family, property, in several ways. It could range from home improvements, to family interaction, a gathering of relatives, to visits to the ancestral home, strengthening your roots, strengthening bonds and ties.

July 7, 2008 to July 13, 2008

In this phase, the moon is in your corresponding house of the zodiac — Libra. It brings in a juxtaposition of conflicting trends — primarily home and career. You have been thinking deeply of changes in the former. Now you know which way to go, how to balance work and home, pleasure and commitment. A beautiful spillover is seen in personal relationships and marriage. Just what the doctor ordered — give and take, loving and sharing! It makes you feel really good too. Money matters, too, are covered in this little forecast. You are certainly willing and eager to do that little bit extra to please not just loved ones and family, but friends and colleagues. In the process, you spread sweetness and joy and have it enter your own life too.

WEEKLY HOROSCOPES

JULY

Each sign has a part of the anatomy attached to it, making this the area of the body that is most sensitive to stimulation. The anatomical areas for Aries are cranium, jaw, facial bones, brain, upper teeth, hair, carotid arteries, and nerve centers

July 14, 2008 to July 20, 2008

Harmony and contentment are your goals now. All that the preceding forecast was about is now sought to be put into action, or motion, by you. You get off to a dramatic, stylish start in the work arena. You are redefining your attitudes to home and career, refocusing on fresh goals in terms of advancement. You realize that all work-advancement can sometimes turn out to be hollow victories if there's no love, warmth, caring, family bonds to come home to. Therefore, pleasure and play are embarked on with equal style and flair, even though they're more oriented towards home and family. All this is made possible by your own objective assessment, and these in turn come from much greater faith in yourself.

July 21, 2008 to July 27, 2008

A truly fine week, again, in which you find satisfaction in all spheres — work, family, love and marriage. You gain in effortless ways both at home and at work. Understanding and rapport with people who are part of your personal "think-tank" lends to an energizing effect on both money matters and affairs of the heart. You work with equal zest and energy as you play. It could be that work itself is pleasurable. That too, is possible. In fact, work activities acquire an aura of glamor which adds greatly to home affairs and domestic fortunes. And brings out the best in you and also in those you care for.

July 28, 2008 to August 3, 2008

A pleasant week that will set your spirits soaring high, this must be the time if you were thinking about asking anybody any favors. You display an impeccable style and confidence in your work, you are available, good tempered and composed. This will reflect on how you score on the professional circuit in terms of your interactions and contacts. This will help you with finances, as well as in increasing your own or your group's efficiency. You will find yourself getting more out of life!

WEEKLY HOROSCOPES

AUGUST

In terms of gifts, the Aries likes an experience rather than something tangible like tickets to a sports event or cooking your favorite recipe

August 4, 2008 to August 10, 2008

Energy, inspiration, enthusiasm all come to you in a torrent with this new moon. The operative word here is new — most definitely. It's ideal for creating a new product/project/venture/piece of art/book/a symphony/poem. Creativity manifests itself even in getting a new job or a new addition to the family. Also a wonderful time for those in the media, publicity; writing, copywriting, the e-world (and that in itself is really a universe, isn't it). This trend will prevail for a few weeks, so make the most of it.

August 11, 2008 to August 17, 2008

A typical Scorpio with its emphasis on faith, religion, spirituality'. You feel an urge to live less in the material world and more in the spiritual, but it is material concerns that will force themselves on your attention. Finances, joint-funds, debts and loans will all have to be dealt with or handled in some form or the other. If not your own, they could pertain to the family interactions of the last week. Prayer and meditation, religion, tantra and mantra exert a strong pull. At the same time, there will be meetings, seminars, workshops so that you gain knowledge and expertise in other spheres, too.

August 18, 2008 to August 24, 2008

Much comes to you now, and in easy, harmonious ways; you don't have to struggle to achieve. Your efforts produce effects far beyond your expectations. Fun and games are embraced joyfully in a spirit of celebration. Don't let go of the clean lines of communication and sharing you've established with those around you — friends as well as workmates. You realize and appreciate the role of good people in your life. Popularity, success, results that are mind-boggling in their brilliance. You gain a lot in easy ways. Money and possessions/ acquisitions galore. That's all that needs to be said.

WEEKLY HOROSCOPES

AUGUST/SEPTEMBER

Aries seek complements to themselves in their relationships and, because of innate insecurity they require individuals who will stimulate them into action and provide emotional security.

August 25, 2008 to August 31, 2008

Solid gains — in this world and the higher one too make it a week of progress. You ponder on deeper questions, undertake further study/training/orientation and gain much in terms of ultimate wisdom and maturity'. Good ideas at work, solid interaction with friends, family, mate or lover, all add to the creation of deeper ties. So, travel and ties with a whole new-connotation. Not armchair traveling, but travel of the spirit, taking you into uncharted areas that you explore with zest. There are rapid, exciting contacts with people at a distance. Free, intellectual interplay rather than clinging to the old and the familiar has you powering on ahead.

September 1, 2008 to September 7, 2008

Right now you're really a fine person to know and this will continue, since it's a trend for the month. You are full of grace in your public position, and exercise authority with affection and charm. And that is probably the least of your gains, though it brings mind-bogglingly good results at work and in the family scene. You feel a little more internal, more reflective, and more introspective. Also, you concern yourself with larger issues — society and the community, the environment, the disadvantaged, oppressed or weaker sections of humanity. Even older people, subordinates, children. pets — all those who depend on you emotionally or otherwise, come in for some TLC (tender loving care, in case you don't know this acronym)

September 8, 2008 to September 14, 2008

Your spiritual and emotional growth has been steady and sustained. It's a much larger canvas that you are painting on, once again leasing your own individual imprint. You function as part of a group or social organization, see your place in the world order and open up the vistas of your mind. Original studies, research, higher learning, theses, hypotheses — even the media and particularly television — are all part of your sphere. Ethics and morality too, in terms of issues and the stand that you take. You've grown tremendously, as I said at the beginning.

WEEKLY HOROSCOPES

SEPTEMBER

You are liable to have a high sex drive and make passionate and fastidious lover.

September 15, 2008 to September 21, 2008

You acquire a lot of Piscean qualities this week. A softer, gentler approach is just one facet of it. A total disregard for money-matters or at least, pushing them to the back of your mind, is the way you deal with finances. You're not careless about them —just not focusing on money matters. Pisces is perhaps the sign of the dreamers of the universe; they are idealists but can be led astray for a cause. You are other-worldly this week, living totally on a greatly elevated plane of existence and consciousness but still concerning yourself with the society, the deprived, and the homeless. Closer to home, there's care of the elderly or the infirm in the family or community.

September 22, 2008 to September 28, 2008

Greater creativity, deeper knowledge, intellectual growth, a touch of wisdom are what come to you now. The deeply caring attitude, the sense of almost cosmic responsibility that has been growing in you over the last few weeks, comes into full play This will be seen in action both at home and it work. Even your income is directed at creating and improving your own little universe — encompassing loved ones, life-partner, family and kin, even distant relatives, friends and neighbors. You are in the mood to do your best for all of them.

WEEKLY HOROSCOPES

OCTOBER

It is preferable to be aware of your pioneering spirit and not disregard it. For in acknowledging it you not only enjoy life more, but you avoid being pushed around by others. Your nature is usually push or be pushed, with little middle ground.

September 29, 2008 to October 5, 2008

A week of gentle living, yet pretty high-level in terms of activities. Libra is your opposite number in the zodiac. Here you acquire much of the Libran charm and balance, sense of harmony. New ties and bonds — anything from new colleagues, friends, to a wedding or engagement, even a legal/ professional partnership. All this results from the attitude you have developed, cooperation to the point of conciliation, a willingness to give more than you take and generally see things from the other person's perspective. All this will entail some, if not a lot of, travel and it may well be the time when long-drawn-out disputes/problems get resolved amicably. This is truly a fine trend for the month.

October 6, 2008 to October 12, 2008

Many gains come now and the intangible leads to the tangible. Intelligent planning, friendly connections, good interplay with colleagues and a great pleasure in using your authority to teach young people, to name just a few! Competence and appreciation in your job are, naturally, very satisfying. Team work and cooperation ensure that you get results at work. Perhaps the greatest gain is that the much wider perspective you have and the insights you have acquired, now have you swinging into action to put these things into practice.

October 13, 2008 to October 19, 2008

Aries people are not lacking in self-belief, and you would be justified, in view of what I've forecast for you for the last couple of weeks, in being a little proud of yourself. You will ALSO be keen about self-improvement, if you perceive the need, or in the home, in relationships. Personal hopes and ambitions are definitely favored for you this quarter — perhaps even a wish-fulfillment. You're getting ahead by leaps and bounds. Once again, in the full moon quarter of your own sun sign, the focus is on you/yourself. Your perception of yourself, your image in the public eye! You need to be grateful indeed, for favors granted.

WEEKLY HOROSCOPES

OCTOBER

Aries natives are competitive and love both the game of life and the game of business. Born leaders, they provide initiatives to the world, defend just causes and fiercely protect those whom they love. Their mission is to open new roads, create enterprises, show audacity, expose personal ideas and develop confidence.

October 20, 2008 to October 26, 2008

You are full of enthusiasm and zeal, feeling charged with zest. Energy is generated to earn on from last week, by your sharing with creative and emotionally intense people. Good things are shared — in several ways. You will be able to meet trouble head-on, handle problems realistically. Love and shared moments yield great pleasure. You also develop insights into handling money matters much more efficiently. Another good week, by any reckoning!

October 27, 2008 to November 2, 2008

The most definite source of power and strength in today's world is money. And that concerns you; whether for yourself or your workplace, your family or someone close to you. Shares, employees' stock options, funds and trading, even create a capital fund. Whatever, money seems to be a big issue in your mind right now. Not selfishly and more as a means of security and fulfilling responsibilities. That way lies true happiness, you realize.

WEEKLY HOROSCOPES

NOVEMBER

Aries likes variety.

You would love bunch of appetizers. You want your food to be hot and spicy. You hate bland things and like to spice up your meals with basil, cinnamon and curry.

November 3, 2008 to November 9, 2008

A week of ease, mental repose and harmony. You feel comfortable, especially in money terms, and good people are around to share your joyfulness. Time for you to relax after the high-voltage events you've lived through over the last few weeks. And what better way to do so than in comfort and style, surrounded by friends, family and loved ones! People are important to you, indeed, this quarter. A sense of well-being pervades your consciousness. Older people give you peace of mind and security. You gain from them in many ways.

November 10, 2008 to November 16, 2008

You revert to work with both zest and determination. Arians are people with a sense not only of responsibility, but of focus. And knowing this, how can you be less than your best at work? Duty calls, and you answer with a flourish. You realize that your duty is in two spheres (a) family, loved ones, friends, i.e., the emotional investments you need to make and, (b) in earning, creating wealth, raising capital, building up a nest-egg for the future, even saving for a rainy day. And you tackle both with a will.

November 17, 2008 to November 23, 2008

You are greatly loved and cherished this week — and it feels great. There is a balance in life. It says so in all the scriptures — what you give comes back to you in full measure, perhaps even a little extra. Reciprocity is a time-honored concept even among the aboriginal people. And amongst "advanced" folks, its parties, invitations, gifts, appreciation, cozy twosomes and tête-à-têtes, not only with your mate/partner/spouse but with friends, special people, or even those whom you've been kind to. This quarter therefore centers on people, and mutual give-and-take and its pleasures.

WEEKLY HOROSCOPES

NOVEMBER/DECEMBER

Favored food for Aries would be lettuce, walnuts, potatoes, spinach, onion, cucumber, lentils, apples, radishes, lime, beans and cabbage. Brain foods such as fish are essential.

November 24, 2008 to November 30, 2008

Focus, energy, enthusiasm — you're full of them all this quarter. There is a tremendous joie de vivre, a lust for life and an enchantment in even thing you do. The money is easy, too, so you could well feel that you haven't a care in the world. This is an upswing of mood that is, however, perfectly legitimate and justified. Don't throw your hat over the windmill, or you will see your health and your pocket both registering losses. To sum up, don't get carried away into overspending — your money or yourself. You can be veering towards over-confidence this week. Just remember its dangers. A state of elation bordering on euphoria seems to envelop you — and the world is really viewed with rose-colored glasses.

December 1, 2008 to December 7, 2008

Success at work brings you peace of mind and harmony. Your higher self (super-ego, the psychologists call it) is very much in action. You are able to perceive future goals. You are at your best when you feel that you are honoring your commitments to work/home/family. And to your own standards. This calm creates leanings, on the one hand, towards spiritualism and religion, and on the other, to charity, social and welfare issues, organized care for the needy and disadvantaged. This is a fine way to be feeling as the year approaches its end. The spillover from last week's somewhat unusual monthly trend will be seen. It will take the form of a calm certainty, not placidity, but inner harmony.

December 8, 2008 to December 14, 2008

You're functioning at two levels — intellectual ones, I might add — almost simultaneously, and doing justice to both. Remember, the moon is in the sign of Gemini, the twins! The creative arts, all media of communication, the cyber world, and foreign connections will involve you effectively and brilliantly. At the same time, you cling to the world of contemplation and thought, even the mysticism that you have been interesting yourself in.

WEEKLY HOROSCOPES

DECEMBER

The Aries child loves to take things apart and may break toys easily.

The Aries child must be allowed plenty of space.

The Aries child normally excels in scholastics.

December 15, 2008 to December 21, 2008

Most of your other interests and leisured pursuits take a back seat right now. All that interests you is the work that you want to do, need to do. And you do it with a will seeking no reward other than the joy of a job well-done to your own satisfaction. But the rewards come too, in more concrete terms. You achieve spectacular results and the awards and recognition that go with it. It's a wonderful way to look back on the past year — and dock ahead at the future, not just 2009.

December 22, 2008 to December 31, 2008

A long forecast to end the year with. An excellent time for moving out of your usual orbit. People may seem far away: some interpersonal relationships seem to make you unhappy. All that will be a thing of the past, and just fade away now. The really tremendous achievements you have made give a different sort of satisfaction and exert demands of two kinds, as you will have seen in the past few weeks. And now it's more of the same. The material, physical world keeps you busy with possessions, relatives, family/ children/parents, property, even acquiring or caring for all/any of the above. At the same time, like the parallel lines of a railway track, runs the theme of spirituality-, growing in wisdom, even actual/spiritual journeys, foreign and other-worldly connections. That's a full serving on your plate on the eve of the New Year. And as the Americans say, so say I — ENJOY!
