ABOUT ASTROLOGY

Astrology is often defined as the study of the influences of the cosmos on life on earth.

The zodiac is the belt or band of constellations through which the Sun, Moon, and planets transit across the sky.

Astrology is a science related to the heavenly bodies. It is the study of the movements and positions of the sun, moon, planets and stars, and the skill of describing the expected effect that these are believed to have on the character and behavior of humans. Astrology is not at all a fortune telling. It is one of the successfully tested methods for man to learn about who he is, where he came from and where he is going. Astrology reveals CHARACTER and character makes your destiny.

The main uses of astrology are analysis of health and sickness, character psychoanalysis, professional guidance, analysis of children's horoscopes so as to give parents a better idea as to how best to raise their children, and analysis of the compatibilities between people.

Astrology does not show anything but tendencies. A man can dominate his stars by exerting his determination. If a man decides to flow with the wave of life, then the tendencies indicated in the birth chart could be observed in that man. Astrology forewarns and being put on alert, a man is thus in a better position to cope with the struggles of life.

There are three aspects which bring to us the mystic message of the stars - the houses, the signs and the planets. Each house represents a section of life; the signs are divisions of the heavens which by their placement relative to the houses indicate our basic temperament and attitude towards life and the relative motion of the planets through the houses are the messengers of the god which bring to us the opportunities.

About Sun signs

Your sun sign represents the sign of the zodiac that the Sun passed through at the time of your birth. The Sun rules your essential personality, your ego and your willpower. It represents the core of your potential and your distinctiveness as an individual; it is who you are and what you are about.

The beginning and end dates for each of the signs can vary from year to year. Cusp is the border line between two adjacent sun signs. If you were born on a cusp, you may have some qualities of one sign and some from the other sign.

ABOUT THIS BOOK

CAPRICORN

KNOW YOURSELF

You are conscientious but a little too dry for romance. Capricornians are not the greatest of lovers.

You are really not up to showering attention on people.

Learn to give. Your inbuilt inhibitions need some emotional release.

Being a Capricornian, you tend to quite introvert and reserved, and at the same time hard and sturdy in terms your personality. You make your way to your destination with slow and steady pace. You have a strength of character and your ambition is something that you won't be willing to part at any cost.

You are quite systematic and have a tremendous verve that you exhibit in everything you do. Your narcissistic approach towards life can get really unnerving for your mate and friends. You might also be restricted and misfortunes may come your way at various points, but this will make all the more strong and patient. You also tend to become orthodox and conventional at times, losing your broad-mindedness. While negotiating, you just can't believe someone until you have scrutinized the situation thoroughly, and you tend to lose out on a lot of effort and fun in this process.

You are symbolic of authority and industriousness and these qualities are bound to increase your earnings greatly. But refrain from getting into the rat-race for money and power, lest you lose out on the more important things in life. Your unemotional and too professional approach and your reticence towards your colleagues at gatherings will not help your fortune.

Qualities that make you lucky are common sense, steadfast, cooperative, and hardworking. Qualities that hinder your success are distrust, selfish, pessimistic, and conventional philosophy.

Jim Carrey, Mel Gibson, Tiger Woods, Dido Armstrong, Nicolas Cage; we know them as famous people with sun in Capricorn.

2008 FOR CAPRICORN

As a friend, you will be faithful and reliable once the initial hurdles are crossed. You are not too polished or very tactful and you may have an unfortunate tendency to snobbery which you ought to try to overcome.

The trend for you this year is one of a tremendous creative and intellectual energy. You will have a kind of romantic aura around you, as you will take your work as an art and reach out for new ideas. You will look for total freedom in trying out what you want. This might point to a switchover to a more suitable vocation, or just a new form of amusement. On the darker side, this might well contribute to disputes and love loss with some loved ones. The important thing is not to involve oneself in others' problems at this point of time.

It goes without saying that the trend of creativity leads to more initiatives and starting of new ventures. There will be a strong yearning for being in the thick of things with higher education and psychological refinement. Contacts and communication with them will bring more opportunities and this adds to the great potential for expansion. The knowledge you have will just help you make strategies for the future. Actions of courage and your sheer genius will bring you money and spirituality in equal measure – something that generally doesn't happen.

You might want to make short journeys, probably to reclusive places just as hospitalization and medication for you or someone else might become necessary. Stability of mind is a weak point and mood swings will be as frequent as the sorrows of your life this year (and trust me, there are a few). Around this time, projecting yourself will be important, as diplomacy and skills in interaction help one utilize his contacts to the fullest.

To end it in a few words, you have the will power and ability to tower over all others in terms of power, self and credentials.

Success and eminence will be yours, and this will be the year to work for them. So go for it, and remember to be considerate and charitable for others too.

MONTHLY HOROSCOPES

As a father, you are ambitious not only for yourself but more for your children, putting many opportunities their way. You can sometimes be very strict and too demanding.

JANUARY

Professional interactions, reaching out to learn and grow, managing your finances better — this is the main thrust. There is a lot of activity as you start the year since this is your birth-month, and it always happens thus, in astrology.

Finances are thoroughly reviewed, along with career choices and options. Its not the ideal time for you to make large investments, particularly in business expansion, or new start-ups - It is the right time for ideas, visions and images of the future, even discoveries and new concepts — which you will enjoy sharing with like-minded people. It helps you tremendously to grow and move ahead.

FEBRUARY

You learnt much — from people, and also from yourself, about future directions last month. Now you also learn, most definitely, to shed some of your reserve/inhibitions/complexes when interacting with co-workers and colleagues. All this is because career advancement is uppermost in your mind. You shed past hang-ups. learn to get on better with certain people with whom relations might will have been strained — justifiably from your side. You are willing to forgive, even if you can't forget, in the larger interests of your own progress and peace of mind.

You will also accept more responsibilities, not avoid them: these could even take the form of taking better care of yourself— health-wise. You will exercise equal care, even restraint and effort to make relationships grow — and that's because you value them. Any conflicts or clashes of opinion, which are quite likely in the workplace, or even with friends regarding property or shared assets, will be dealt with in an open and clear spirit.

These two months thus form a continuum of work-related concerns and progress. Your feeling of marvelous security was your major gain, as well as objective, last month. Now it lets you take certain risks that may just pay off — in cash. However, you will be concerned more with (a) dealing with buying/selling, rental, tax benefits, investments, even legacies, (b) taking up crash courses, learning new skills, improving existing job-related knowledge/skills. Or, acquiring the latest technology to keep up with the demands of your work.

MONTHLY HOROSCOPES

As a mother, you must give your children more affection and show it. Being undemonstrative yourself, you must nevertheless, try to understand and fulfill your child's emotional needs.

MARCH

There is the growing realization that communication and contact must be constant and an on-going affair, in personal and other relationships. Avoid controversies over larger issues like politics, religion, social customs, environmental issues. Your interest is more in future planning — keep it that way. Also, keep your people skills honed. It may create such bonding and loyalty that a marvelously gainful and lasting partnership may emerge — and I'm not talking of marriage/love. Other partnerships and bonds can prove to be equally genuine, fulfilling and sincere, helping to make you a better human being.

You will start out on a voyage of discovery, in the continents of the mind, seeking original ideas and thoughts, new concepts, inspiring philosophies. The emphasis is now very strongly on mind and intellect rather than emotions. You are more than busy with further education, learning new skills, joining study groups, social organizations, as well as pursuing your own hobbies and creative interests. Additionally, amusements, entertainment and the activities of children see you participating keenly. There is travel, too, for pleasure, adventure and the sake of new experiences. All leading to greater awareness, more knowledge and more understanding.

APRIL

You are in an evaluating frame of mind, assessing your life, your relationships and where you want them to head. Your motives in life, your career goals and objectives, too, will be reflected upon and either revitalized or reoriented to make room for your personal relationships. Towards the month-end, favorable activity- in the financial sphere might be energized in two ways, one bad and one good ! The bad could be rendered less troublesome. A financial blunder/loss/mistake/miscalculation in profits might lead you into a long-lasting debt trap. This, of course, is best avoided by taking wise counsel and postponing major decisions about money-matters. There may be sudden gains in money, like gifts, wins, legacies, even unexpected perks, job-benefits, pay-revisions. The wise counsel I spoke just might be from older relatives, guardians, trustees, superiors/bosses and, of course, parents.

MONTHLY HOROSCOPES

Ideal careers for you are scientist, engineer, manager, civil servant, mathematician, farmer, builder, politician, director.

Suitable occupations are where responsible, patient and economizing qualities can be exercised.

In fact, you turn back to the domestic scene with a vengeance now — not that it's ever been too far from your mind. You are one of the carers of the world. Capricornian women often have an earth-mother profile — and that's meant as a great compliment. Home, parents, family are lavished with care, gifts and new items of comfort and luxury. You might even buy a house or a second home — that's how strong this trend happens to be. Finally, your strong sense of family identity, of belonging, makes you even retrace your roots, your ancestors, your family tree.

MAY

This month brings you a major lightening of mood, relief from anxiety as well as flashes of brilliance, true creativity — be it literature or cookery. But there's also a warning to avoid carelessness of any kind of this buoyant mood; the bubble just might burst. Specifically, once again shared finances, risky deals, overextending yourself financially are what you should take care about. You might even put domestic funds and family life itself in jeopardy. You'll be likely to take on extra responsibilities/work, but you won't get the results you expect, so there could be a degree of frustration. Also a misunderstanding with someone very dear. It's best to take things slow and easy, avoid confrontations and try to find a happy resolution to conflict situations.

Don't spoil the freshness and charm of the summer month of May when you're carefree, ready to be amused/ entertained, or generally have fun, even if your cares are still there. You push them to the back of your mind, find time for socializing, hobbies, creative pursuits, craft, neglected friends. You will experience a sense of achievement and of freedom that is a great mood-lifter.

JUNE

I'd like to summarize the trends for this month thus: “work, health, loans, pets, and projects.” But I must elaborate on this theme. Let me tell you right away that it is not a good time to take any kind of risk in any of these spheres; show patience and steadfastness. Your day will come, don't try to push it along by wrong/hasty/rash moves. Your patience may be wearing thin, but you still have to cling to it. All kinds of risks, even doubtful or illegal/questionable schemes may-come to your mind. These are desperate measures — shun

them like the plague, banish them from your mind. Attention to your own dependents, pets, even superiors and employers will be your best bet. Also the community and an active interest in social welfare. Here again, I suggest that you avoid too much involvement, or you could find yourself in the midst of conflicts and controversies. Prayer meditation, leaning more towards mantra than tantra. and solitude will attract you, calm your mind and lighten your spirits.

JULY

In this month, you gain much greater freedom, more pleasures, more thrills, entertainment and interaction with loved ones. Surprisingly, there is greater activity in your angle of opposition and enemies. This means that both friends and enemies play a major role in your life and may well impact your future plans, too. Learning to cope with negative vibes could thus be rather taxing. I have mentioned the pressures and pulls that will accompany your magnificent start in the preceding weeks.

It is an ideal time for using your considerable talents and creativity. You never lack for ideas, but these will be more to do with, or inspired by. young people, maybe your own children. Don't be childish, though, in your mood to take risks. Do not be a daredevil, or flirt with danger. In any case, there will be some hidden dangers. No physical risks and above all no monetary or professional ones, please, not right now. You would be well-advised to be on your guard. I'm sure you understand all about the pressures and pulls now. and will think of ways and means to rise above them.

AUGUST

This, unlike last month, is the time when you will be handling all money issues. You will need to deal with loans, raising funds, legacies, lotteries, inheritance, debts — some or all of them. You will feel that you have to examine your personal values and foundations. Perhaps you may even redefine your position and aims about life. Your own little world will matter to you more than the world around you. This is not to say that you will be self-centered or selfish in your attitude. It will truly be a desire to feel both secure and confident of yourself. You need to feel that you can survive on your own with just a little help from others now and then!

With your growing confidence and self-awareness will come the desire for a true companion, a sincere friend/mate/lover. The theme that started in July will be much more prominent now — closeness, sharing and togetherness with loved ones who are even more dear to you now. And that's saying a lot for Capricornians sake their relationships seriously, and put lots of themselves into it. The reasons for this will once again be the swings of mood, the sudden changes that are happening around you: you could feel unsettled. Worry about household problems, financial dealings could also be there. At any rate, you feel the need for someone to trust, to share things even though you have a greatly enhanced self-belief. Or maybe because you have it.

SEPTEMBER

A time for shared if not group-activity for sure, rather than attempting to go it alone. You will discuss shared expenses, help family prosperity, investments and hopes will be much more reassuring. In fact, shared inner understanding with friends makes you discuss even the mysteries of life, your own cogent feelings. Your mind will expand greatly, but through a group, organization, study-group. Vision and intelligence are there, but in addition there is now wonderful communication by all possible media to loosen your social inhibitions and lead to freedom of expression.

Despite a lot of socializing towards the month-end, you prefer to relax into something more cozy and supportive of your own ideas. You'd rather discuss life's more profound experiences than just have a good time. You will work in meaningful ways to benefit the community; hence the contacts, success and publicity that you now handle are on a different level — not just strictly personal, and with a much wider impact. Where you withdrew into yourself last month, you now reach out, perhaps much more than you've done in the recent past. And it's a good feeling!

MONTHLY HOROSCOPES

You are most compatible with Taurus, Virgo, Scorpio, and Pisces.

OCTOBER

A busy month, focusing on a) finances, b) family, and c) faith and spirituality. Many new options and ideas about making money may come to you. Also you'll use your imagination and tact in resolving household/domestic issues. For some time, you may chafe at being slowed down, or feel you have to mark time instead of marching out to victory. Greater faith, awareness, spirituality and an interest in occult phenomena are your true gains, as much as the success you achieve. The tremendous drive that you have now gained is certainly going to take you to a totally higher realm of consciousness, to the rarefied heights that come to just a few. You're one of the lucky ones!

I should now add on a new 'F' for you — favors, both granted and received. Actually, a trend that may well have been thought of around August or late-July will gain force and momentum now. It will be the trend of moving/movement. Where you thought of shifting your office/home, or even job. now you may see upward mobility. Perks, promotions, raises, bonus in your existing job or a move to a better job, even setting up something on your own. Power and status come to you. also recognition of your worth.

NOVEMBER

You will develop strongly in the realm of self-improvement, ably supported by both loved ones/family and your friends. Information, knowledge, ideas, books. music are all shared and enjoyed together. But please, no sharing in money matters or investments. This is important. There could be problems there. Remember that when I spoke of sharing, I also mentioned trust and sincerity. It will be better to manage alone on money and income issues and even property.

Right now. you're in a mood to assess and count your gains, I don't think two very major ones can be left out. On the one hand, far more freedom in self-expression and on the other, greater bonding, better associations with loved ones, friends and like-minded people. These are your greatest gains, along with greater spirituality. You will embark on joint voyages of discovery, acquire new skills, learn new technologies. even go jogging/exercising together for better health and stamina, but you must still need to keep your own counsel. Even so with family and relatives, or there could be some problem or

MONTHLY HOROSCOPES

there. Also some rather frustrating dealings with siblings, relatives or your neighbors who may seek to interfere in your life. Laugh at mix-ups, snags — ever, in travel plans — together. Bonding in marriage/love, work-associations, group activities are the key gains. Let's keep it that way, don't try to get more than is intended for you by Providence and there will be true contentment.

DECEMBER

This month you're inclined to weigh up your losses and gains over the year that is gone. On the debit side — money matters have been difficult, economies were necessary; sickness, loss of energy, low vitality, visits to doctors and hospitals; not very successful/pleasing travel or holidays; doubts and questions about yourself and worries about others.

The credit side would be: a new look at your money-making abilities, leading, perhaps, to a change of job/profession; greater professional skill and knowledge; true bonds, associations with friends, loved ones, colleagues; boost in poise, self-confidence, self-esteem; a changed outlook as a result of greater faith, greater spirituality; better, in fact, brilliant interactions with mates/partners/friends/colleagues/superiors. I'm sure you can read this balance sheet.

WEEKLY HOROSCOPES

JANUARY

You are

compatible
with
Cancer and
Capricorn.

January 1, 2008 to January 6, 2008

This phase prepares you for all the important directions that the year 2008 will take — renovation, decoration and beautification (this will be very important) in property, the buying and selling of land, or development of land, assets and property. Also equally important will be the care of elders, parents, in-laws which you do willingly and graciously. It will be a good way to look ahead at, your birth month, too. The accrual will be in terms of self-esteem and self-worth, which will be pretty high. And that's what most of us constantly strive for!

January 7, 2008 to January 13, 2008

Without compromising on your work and duties, you create the lime to think about more personal matters. You will start the year with a rise in the feeling of self-worth and of your image of yourself. It gives you the decision-making skills so necessary to fulfill your duties and commitments. You feel you must try for a better quality of life — a life that gives you more satisfaction. You will use all possible media of communication to reach out to the community and society as a whole. You will have better physical and emotional health and well-being now, so you can put in the extra effort. There is both a greater sense of purpose, as well as hope. You have learnt also to accept both your own shortcomings and those of others. Assessing your situation in life, you say as the Americans do, "I can live with it." Obviously, greater peace and harmony are the results. You are easier to live with, too, and enjoy the simple interactions of day-to-day life.

January 14, 2008 to January 20, 2008

Your duty to older people, parents, in-laws, even aged/infirm members of society will be strong and focused. You will derive genuine satisfaction from caring for them. You won't just be going through the motions, as some people do. In addition, you will lavish care on your immovable assets like house/home/property, and re-do, improve and beautify them. Please note the use of immovable assets. In your mind, the aged are assets, too not liabilities for you. You are keen to do your best for them. You have both greater energy and greater daring in facing problems, squaring up to life itself. You will put yourself, in fact, almost throw yourself into organizing your space. Household changes will be pleasing despite somewhat high expenses. Your job will also be energetically satisfying; in that you take a less passive, more positive role.

You will be relaxed, at ease, and ready to enjoy yourself in the company of others. In fact, you might even have pleasurable sharing of old times, and reminiscences with acquaintances and friends. Your interaction with people brings you rejuvenation, the energy and skills of youth. In fact, you will feel somewhat transformed, much more daring, or at least confident. You'll have enjoyment, fun, and romance in your life, but not in your goals. You have the time, despite all your socializing, to plan wisely, well and slowly, about your career advancement and thrust. You are in no hurry to go places, so no rash moves are made. You think and weigh up your choices and actually enjoy the waiting.

January 28, 2008 to February 3, 2008

All the efforts that you have put into organizing your house and household will now bring you visible and pleasing results.

WEEKLY HOROSCOPES

FEBRUARY

The most likely place to find a Capricornian is in a quiet corner, carefully observing everything that is going on, but not fully participating in it.

February 4, 2008 to February 10, 2008

Pleasures intermingle with work to create greater creativity and talent in your work. There may be confusion too from discussions and matters revealed through and about friends. But sharing your thoughts is like a therapy, and will clear up misunderstandings or misconceptions that could arise. In fact, you are so good at the contact (personal and one-to-one) and communication that many social inhibitions are loosened and there is both relaxed entertainment and love. The clarity of the home atmosphere that you have created will work wonders. You will gain greatly in this new moon phase too in terms of hope, fresh new outlooks and a better perspective of life.

February 11, 2008 to February 17, 2008

You are far more realistic and down-to-earth in your expectations, and it makes life easier. Remember, there are no absolutes in life, not even in terms of profit and loyalty/sincerity in others. But the family scene is remarkably fulfilling. Creative pursuits, children, pets, dependents will flourish. So also even your plants, your flowers, and your piece of land. Be pragmatic and realistic about the goals you set yourself in your work/profession/career, and you will have a fine moon phase. A sense of getting things done to your satisfaction comes now. You are more practical and more flexible in your attitude, particularly in the finance angle. Stocks and shares and speculation will be exciting, interesting, but don't be too blind in your trust of others. Work goes smoothly, and that is actually more than enough to oil the wheels of life.

February 18, 2008 to February 24, 2008

A very taxing week comes, in which your workload is huge, and you will make superhuman efforts to cope with both finances and the demands on your creative skills at work. The latter will require imagination, vision and flair. The trend in work is almost cosmic in its implications, so you have to watch it with ideas that are equally glorious and inspired. You need to come out with winning ideas. There is more good news, in terms of your work. You will be confident and determined in your handling of money matters, because you perceive a shortage of funds. Stringent measures will prove necessary, as hidden expenses become patently obvious. You will economize; recover your losses in small ways that add up well. It's just about stretching your funds further.

March 3, 2008 to March 9, 2008

A grand reaching-out takes place now. You'll want to communicate not only with those in your immediate circle or vicinity but with the whole wide world. You will truly reach out to people and places. Social and group activities will be shared much more actively, and will also prove much more enjoyable. They might prove quite profitable — contacts can lead to contracts and future benefits. You are open to new ideas, suggestions and would like to explore them further. Once again, contacts and communications, but also companionship, correspondence, in fact, all the ties that you are capable of, in a wider sense. You see yourself more as a citizen of the world now.

March 10, 2008 to March 16, 2008

A hectically busy phase this week. You will not feel like sparing the time even for your children, loved ones, dependents, so busy will you be in wider subjects like information technology, even space research, science and physics will influence and impact on your work. How exactly it will happen will depend on your individual horoscope, of course, but work has a global, universal dimension. Your skills benefit the community, if not the world. You will also feel more secure about your investments, and career plans/hopes. Some of the ideas you have tossed around could also be paying off. You will have to concentrate very hard on your professional sphere of activity. It will not be a sudden change, but a gradual increase and enhancement that you're aiming at.

Huge mental growth comes to you. You meet and interact with people with similar values. This helps to reinforce and strengthen your own better nature and also your mental powers, and the sensitivities and sensibilities you have. In fact, you will see how to proceed with your own wishes and vision. You also realize that individual happiness comes when you know yourself. You will discuss shared expenses, and help family prosperity in this new mood. Optimism, hope, looking ahead, come back to you with grace and dispels your doubts and anxieties of last week.

WEEKLY HOROSCOPES

APRIL

Your hobbies can related to arts, music, gardening, singing, reading books and everything that is meaningful.

March 31, 2008 to April 6, 2008

You may have become a bit over-enthusiastic, at the cost of your powers of judgment! It's not a very good time to make vital decisions and even love affairs and your interaction with children may seem burdensome. You realize that you have left yourself open to too many demands, in your desire to be helpful, accommodating. You concentrate on your work, especially the job and employment sector. Try not to display a negative attitude. You may consider working in fields like metaphysics, computer and space technology, social reform, journalism —the higher plane, in short. You may even try a combination of fields, and this may make you over-extend yourself somewhat, so that it's a good idea to pace yourself. Try also to avoid sharpness in your dealings with others; this may just be a way of giving vent to your own frustrations.

April 7, 2008 to April 13, 2008

You swing back to more personal concerns now. Once again, house, home, possessions and personal property, are at the center of your focus. But there is a change from the early weeks of the year, when you were recognizing and rescheduling. Your rights and privileges will be more important than your duties. In fact, you will wind up some long-delayed matters, handle relatives and extended family. This trend may extend to include the community, the neighborhoods, your city or locality, but you are aware of them all in terms of your private space. Keep detached and calm when doing necessary- work. Mature friends will give you good counsel.

WEEKLY HOROSCOPES

APRIL

The diseases with which the Capricornian may be afflicted are nervous rashes, allergies, roughness and chapping, some peculiarity of perspiration, enlarged pores or acne. Stomach disorders from incompatible foods and mental distress are common.

April 14, 2008 to April 20, 2008

You have tried, over the past few weeks to grow in several ways, and especially in your own estimation. You will also grow in terms of a sense of freedom and independence that comes from fresh knowledge of yourself. I must comment that the fact that we human beings are constantly growing is well known to all of us. What should be of concern is the direction we try to grow in, and what true awareness of ourselves we can have. Having said this, let me warn you that (a) this is not too favorable a time for travel, and (b) you may not come to the right decision on some vital issues, so put off decisions and choices if they can possibly be deferred. It's time to make plans, not for immediate matters but for the long term vision that you have of the direction you want to give your life, career, even family. A second home, maybe a holiday retreat may be planned for, despite the trends of the Last Quarter. You will see it both as an investment, and a means to greater leisure.

April 21, 2008 to April 27, 2008

You will be working both steadily and steadfastly. You are creating an ideal home and work environment for yourself, systematically and sensibly. Lots of work in store for you now. But there is the incentive that efforts of the past are getting their justly deserved rewards. They may take the form of citations, bonus, stock options, awards, more perks and privileges. You feel wonderful to have this public esteem, recognition of your many sterling qualities. Capricornians have a phenomenal capacity for hard work, seeing things through, come rain or hail. That's exactly what you'll be doing now! You will make huge efforts to sustain the pace of work that you yourself have set.

WEEKLY HOROSCOPES

MAY

You plan carefully to fulfill your ambitions (which often include becoming wealthy), you are economical without meanness, and able to achieve great results with minimum effort and expense. Because of your organizing ability you are able to work on several projects simultaneously.

April 28, 2008 to May 4, 2008

The money angle eases, as a result of your efforts. Your problems with expenses come under control. You rely on old friends and family, known supporters. There will be both spontaneity and quiet luxury. In addition, there will be a chance to think independently and express yourself freely. But you don't sit back and relax. On the contrary, you will be working harder than ever. One of the busiest periods that you've experienced in a long while. Collaborations, partnerships, deals with friends all lead to new means of earning. Your inputs are valued and steady income not only makes you feel secure, but powers you on to even better work.

May 5, 2008 to May 11, 2008

The trend that sets in now can be summed up in just one word — achievements. You are self-confident, focused, and alert and can handle both personal and professional commitment smoothly, so that the success you've desired for so long is finally closer at hand. Your wishes and personal hopes for someone you love, also your family or children/parents may come true, too. New projects may take off smoothly. Your work will be both satisfying and creative, and it makes you feel great. It is in these terms that success is measured, you may feel. Job-satisfaction and the just rewards for your capabilities are both great barometers of your success.

May 12, 2008 to May 18, 2008

Relationships and ties of all kinds are foretold for you this week. Let me add that it will be both old and new relationships that are stressed. You work on them, and value them. I should add the words bonds and ties. People are more important than ever before to you; all possible human relationships are favored. You Capricornians are clever enough to figure out the details. Let me give you a few hints — glorious communication, true affection, exciting and interesting friendships, value, bargains, gifts and appreciation. You can add to this list! There is mutual give and take, the true exchange of ideas, and caring, so that love of all kinds fulfills and energizes you.

WEEKLY HOROSCOPES

MAY

Among the faults, which are typically Capricornian, are lack of spontaneity and creativity and thus sometime boring and uninspiring.

May 19, 2008 to May 25, 2008

A high 'feel-good' factor has been added to your life, gradually and imperceptibly over the past few weeks. Your spirits and confidence are restored and boosted. Therefore, what can the moon bring you but a tremendous sense of purpose and direction? You are strong and energetic, able to direct your energies into inspired action, to move into new and uncharted spheres. It may take the shape of trips and ties. This means travel for work/business/pleasure/religion. The ties of marriage and family, most definitely, of love and friendship too. Even partnerships and collaborations with legal backing. Once again, the possibility of ill-health, accident, injury has to be guarded against. Risks in business too. Don't let your self-belief cam you into investing (either effort or money) in doubtful deals!

May 26, 2008 to June 1, 2008

You will experience an upward movement in your mood, attitude, spirit, and very importantly, your health. You will find such dazzling and immense inner reserves in terms of ideas, originality. You will feel that your run-down batteries have been charged and energized. You will have the vigor, power, inspiration to plan new projects or ventures. And now they may just work, provided you do your homework. Personal relationships and partnerships are favored too, therefore creativity and charisma; even sex-appeal, if that's the way things are going! But most important will be the stamina that allows you to go in for sheer, slogging, back-breaking, mind-boggling work. You'll be able to overcome both obstacles and envy, and even professional rivalry; with ease and style.

WEEKLY HOROSCOPES

JUNE

Capricorn Strengths are based upon the qualities of stamina, fortitude, staying power and survival.

June 2, 2008 to June 8, 2008

A really action-oriented but productive week, which gives (a) ties, and (b) acquisitions. It may be that the two are linked; but so too will be very great expenses. However, you are now shopping around for yourself or someone very dear to you. There could be a marriage in the near future (your own or of someone close) so that explains all of the above, doesn't it. You need to generate a much larger income, or perhaps dip into your savings to get the cash you require. But the hard work you need to put in (see the forecast just above) is still there, though a little easing up is experienced. Your attention will still be demanded by both professional and domestic matters. In addition, your hobbies, interests, children's activities will see you keenly involved. Keeness to learn a new skill, and to acquire expertise. You may also dabble with more than a little success in the stock market, games of chance, speculation.

June 9, 2008 to June 15, 2008

Let me remind you, Capricornians that it is a known fact that you are nimble and dexterous as your symbol, the goat, and can clamber up mountains better than most. But, health, stress and strain, tension and overwork are all great hazards. You'll be spending heavily. Some expenses could be unexpected/unplanned and a little stress could develop, if you don't discuss matters openly. You realize that hard work alone will not suffice to get you what you want. Along with it, communication will be equally necessary, and you pull out all the stops.

WEEKLY HOROSCOPES

JUNE/JULY

Capricorn
Weaknesses are too much work and not enough play.

Also you are sometimes inhibited, pessimistic and hard-headed.

June 16, 2008 to June 22, 2008

All this while, it was the work and money angles that kept you busy. This week finds you equally keen, equally involved, but it's love and romance now! Travel and trips too. You're ready and willing to chance your arm and your heart. But guard against unnecessary risks. There could be accidents, loss or even heartbreak if you're not careful. Some kinds of sorrow are deserved and easy to bear (I wonder?) but others make "you rail against fate", so it's better to be prepared and exercise both caution and restraint. One last warning that comes as a sudden flash — be careful with documents, important papers, even valuables and personal jewelry. I'm sure I don't need to explain.

June 23, 2008 to June 29, 2008

You continue to make people the focus of your activities this week, too. There's plenty of entertaining, amusements, socializing, even love, and romance to keep you busy! You may just meet a very special person, who lights up your life and gives meaning to it. In a nutshell, contacts, communications, contracts (even personal ones) are all very definite. In fact, you are no longer uptight about letting your hair down and having a ball. It's a marvelous mix of high spirits, joie de vivre and happy interactions with people you love and care for. You'll be balancing yourself between personal and professional business considerations though. You do realize that neglecting work/business commitments is not wise, now or at any time.

June 30, 2008 to July 6, 2008

This is a phase which makes you realize and appreciate just how much you have grown and moved on. Hidden doors, mysteries are unlocked in the peace and security you experience. You work intelligently and more importantly, you relate intelligently to people, too. There is a sharing that not only clears the air, but rejuvenates and excites you. There is support from loving people. And that brings out the best in most of us. Doesn't it? Shared ideas and matching aspirations bring you not only cooperation and working together; they also bring shared gains and profits.

WEEKLY HOROSCOPES

JULY

Each sign has a part of the anatomy attached to it, making this the area of the body that is most sensitive to stimulation. The anatomical areas for Capricorn are the knees and skeleton.

July 7, 2008 to July 13, 2008

Your work/profession will now pull at you very strongly and definitely. You'll have to shelve the romance and socializing quite a bit. Partnerships, professions commitment, demands, an upcoming collaboration/tie-up will almost totally occupy your time and your mind. You will have to display your best PR skills, project just the right image, and make sure that others see you in the most flattering, impressive light possible. Your own personality and charisma will be the key factor in your success. At the same time, you cannot afford to ignore family matters or neglect your loved ones. I won't be cynical and say it's bad for your image.

July 14, 2008 to July 20, 2008

Strength of will and the strong desire to succeed keep you moving ahead. What this phase brings you is greater courage, determination and that evocative word 'enterprise'. If you take matters into your own hands, you'll be making some really radical decisions. But the advantage could also be yours, as you send down high-powered aces like Roger Federer at Wimbledon, winning all your matches in a row. It is a time when you could have five wins in a row too but at work! A shift either in focus or in house could happen too. It may just be part of the moving ahead.

July 21, 2008 to July 27, 2008

You realize the necessity of streamlining your work, in order to sustain your gains and progress. Work-scheduling, reorganization of home and work-space may lead to misunderstanding but love glimmers with hope and helps you soothe ruffled feathers. It is good to share feelings and to listen to others' problems. In this satisfying, efficient atmosphere, the work you take on brings social and societal rewards. The biggest might even be your own awareness of the difference between the two. Love is sweet, healing and intensely interactive. It makes you find a sense of calm, of proportion in your attitudes to work, and to loved ones. You are able to get yourself, your emotional life, and your work into proper perspective. You are aware of both hopes and your own shortcomings, and will think of ways and means to reconcile them harmoniously.

WEEKLY HOROSCOPES

AUGUST

The best gift for a Capricorn is practical gifts.

Presenting Capricorn with personalized gift makes him happy.

July 28, 2008 to August 3, 2008

Back to finances in a big way, now. You will have to handle both personal finances and the larger area of business requirements. Tax and estate problems, marital funds and expenses, and mutual profit and gifts dominate your thoughts. You have a tremendous will to excel in the arena of work and you put in intense — and intensive — efforts which will win you respect and status, as well as the perks and benefits that you will realize are your due.

August 4, 2008 to August 10, 2008

A week of fine interactions, mutual sharing — of ideas and assets, thoughts and plans. It is a pleasing trend. Communication, sharing, give-and-take (non-materially, I mean) are just superb. Travel, too, may happen. Funds, joint-finance, loans and insurance are the keynotes of the financial scene. Even delays, problems and snags in both travel and finance don't get you down. You are relaxed and calm in your approach and confident of both loving support and sincere help from those you care for.

August 11, 2008 to August 17, 2008

Relation-ships, bonds, good times with loved ones will continue to be the theme. The good times, the fun and games, the interaction with children are all there this week, too. Your morale, spirits, zest for life are at an all-time high. Certainly, higher than they have been any time this year, but a note of warning — equally high expenses to match! You'll need to be careful. Proper budgeting, perhaps some cutting down of unnecessary spending could be necessary. You could be over-spending/overdoing things and that's passion and love. You'll go all out for that special person, and expect the same in return. I cannot tell you if it will be reciprocated. That's one for the gods and fate to answer!

WEEKLY HOROSCOPES

AUGUST/SEPTEMBER

You have a great respect for authority but may not, if you reach high rank, be willing to listen to other opinions on things you are directly responsible for. As the ranking authority figure in a given situation you expect your underlings to be as self disciplined as they themselves are, and to perform every task undertaken to the highest standard.

August 18, 2008 to August 24, 2008

Your work and your relationships come together in your mind now, but by and large, it will be work that you focus on. You will want to shine, scintillate, and outperform everyone around you work-wise. Perhaps you're trying to impress your beloved. Recognition and rewards for efforts in the past spur you on. You have tried hard to give a good account of yourself. Having done so you want to maintain what you've built — your image as well as your performance. Also in focus will be family, particularly property matters, legacies, gifts, inheritance, taxes. In your enthusiastic mood, you manage it all. Put up with even tedious duties uncomplainingly. In fact, you might even gain detachment (about recognition, at least), and calm heated feelings. You don't try to prove yourself all over again and are confident of your own achievements.

August 25, 2008 to August 31, 2008

You will focus almost exclusively on your profession/job now. You now turn to the work front and frontiers. By this I mean, the present professional status and your plans and ambitions for the future. The reason could well be snags, problems in your creativity, your children's affairs and your own romantic/love affairs. You may experience a disappointment, or slight feeling of being let down. You turn to a) your work and b) your own inner strengths to deal with it. You will be steady, quiet and undemanding as you feel this is the best approach for you right now. You repay obligations. Shared love can help you reveal your innermost feelings and thoughts, but you're also genuinely concerned with how your own skills and conduct can benefit the community. Your genuineness shines forth. Be patient and you will win the day.

September 1, 2008 to September 7, 2008

A strange change overcomes you — a trend for the month, too. You see great room for improvement in every aspect of your life — work-practices, relationships with colleagues and with loved ones, your home, and your life-style. The Virgo desire for perfection becomes part of your mental make-up. Not limiting yourself to home/family or work, you want to set the world to rights. In this crusading spirit, you are keenly involved in psychic, Para psychological and spiritual pursuits, too. Your motivation is definitely the awareness of just how beautiful God intended the world to be when He created it. You try-to help others share this appreciation.

WEEKLY HOROSCOPES

SEPTEMBER

Capricornians sometimes dislike the opposite sex and test the waters of affection gingerly before judging the temperature right for marriage. Once married, however, they are faithful, though inclined to jealousy.

Most Capricornians marry for life.

September 8, 2008 to September 14, 2008

The focus will definitely be on money matters and your own finances. You will need to think long and hard about finances in general, and your own income, liabilities, assets, future projections on a personal level. All the terms financial whiz kids use will now apply to you as an individual. In fact, the sooner you realize you have only yourself to rely on the better. Put by something for hard times or even as a wise financial move. Travel is even more strongly focused now, also foreign connections, overseas trade, visitors, huge expenses too. Don't make finances spiral downward by indiscriminate lending/borrowing

September 15, 2008 to September 21, 2008

From professional/work issues and financial concerns, you turn to the social interactive sphere. Now it will be ceremonies, religious rites, meetings, services which will be more important to you. Capricornians usually have a strong sense of duty to family, to society and to responsibilities in general. It is this side that comes to the fore. In-laws, religion, even politics if so inclined, are highlighted. You will be helped, even while you help others, to resolve doubts, worries, hang-ups, complexes of your own.

September 22, 2008 to September 28, 2008

In this second quarter in the sign of Gemini, while the theme will be, broadly speaking, your work/profession/prospects, as it was in the August 23 phase, you realize that there are, in fact, twin concerns. Alongside your work /vocation is your desire to make it gel harmoniously with your deep involvement with a) home and family and b) your social and global concerns. You try to ensure that you do justice to all. The only downside is the unrelenting demands you make on yourself, particularly at work.

WEEKLY HOROSCOPES

OCTOBER

There is a tendency to pessimism, melancholy and even unhappiness which many Capricornians are unable to keep to themselves, especially if they fail personally. This trait can make you a very depressed individual.

September 29, 2008 to October 5, 2008

A sense of harmony and ease of mind enters your life. All the positive developments that have been taking place for you emotionally, and even in other ways, now firmly become a trend for the month. Doubt and despair are a thing of the past; obstacles and disappointment are not allowed to get you down. Family pleasures are profound, liberating and joyously celebratory. You are strong in your handling of secret meetings or revelations that could be unpleasant, even some behind-the-scene activities. You attain in this Libra quarter a balance between your work demand and your growing enthusiasm for life. You know how best to handle both well.

October 6, 2008 to October 12, 2008

Once again you will feel a strong desire to bring about changes in your own self and life. You do perceive scope for a lot of improvement. After trying to take a global view, you swing back to yourself. Your person, personality, even clothes, accessories, assets and homes come in for both evaluation and revamping. You want to update yourself to be a credit to the world you inhabit. It is not so much out of personal vanity.

October 13, 2008 to October 19, 2008

In your desire for an improved environment, you first turn to the immediate vicinity and now it's your surroundings and your house that are subjected to a makeover — but more as an extension of yourself. There's no desire to keep up with the Joneses as you remodel, modify and beautify. Even your dependents, in-laws, your own old age and security' concerns will come under your scrutiny. You will a) plan for the future and b) try to create the funds for immediate changes that you consider necessary. In fact, you will try to make things better on all these fronts as well as the totally personal relationships you're involved in. Even more profoundly than family pleasure, you enjoy the luxury of inner peace of mind, which comes from having satisfied your sense of duty.

WEEKLY HOROSCOPES

OCTOBER

Another unexpected quality in some Capricornians is an interest in the occult which persists in spite of their naturally skeptical turn of mind.

October 20, 2008 to October 26, 2008

Once again, relationships are not only paramount, but a source of both pleasure and peace. Love has grown with your gentleness and patience; there is spontaneity in sharing. This actually stretches to include parents, in-laws, and the wider family circle. Any conflicts that show signs of arising are nipped very firmly in the bud by you. You are not in a mood to let develop, even in your own mind, any grey areas in your bonds and loving interactions. Work pressures have been constant over the past few weeks, and are the same even now but you are more than able to take them in your stride. You have acquired the fine art of relaxing, in mind, body and spirit. This, not unnaturally, leads to joyous times with loved ones, friends and kin. You feel you can really be yourself and be appreciated, taken at face value and loved and cared for sincerely. You are bent on relaxation, recreation and rejuvenation of your mind and spirit and you do it with style!

October 27, 2008 to November 2, 2008

A sense of joy comes from your loving interactions with the people you care for. Love is intense, even verging on luxurious. It's really wonderful to relax into this cozy and supportive atmosphere. You share inner understanding too, with a special friend. You work with style and intelligence, reassured and confident about both investments and future hopes. This leads not only to inner peace of mind, but also puts you in a position where you can benefit the community, even the whole wide world. Rather than deal with life on your own, you want others sharing it. What is important now is being part of a group. Fun, outings, even picnics and short trips, pleasurable entertaining, wining and dining, shared resources and pleasures are on the cards. You do justice to it all!

November 3, 2008 to November 9, 2008

Your zest for life is matched by your commitment to work in this phase. The enthusiasm and keenness to live life well and the work equation will fuse into a single glorious whole, as far as work is concerned. You will handle financial matters with flair and imagination. Investment, capital funds in new projects and for personal and family security will be important to you. But equally important and necessary will be the social and family interaction that is so close to your heart. Once again, you will remain peaceful as good things come to you from friends you have respect for. You will not inflict hurt/antagonism/pain on others, in fact, you are bending over backwards to make sure it doesn't happen. You tread carefully in relationships of all kinds.

November 10, 2008 to November 16, 2008

The build-up has been there. Success at work and happiness in personal and family life. And you've worked for it so it will stay. In the family, there are joint hopes and visions for the future. A pleasing amalgam of peace, contentment, pleasure, family duties, making new friends and meeting old ones. It is good to share feelings, express yourself in glorious spontaneity. All your interactions will be both sincere and very pleasing indeed. In addition, there is steady, comfortable income; no spectacular gains financially, but you're comfortable and secure. Also, adding to this feeling of security will be your social interactions with mature friends, older and wiser people, comrades and colleagues. You find several people who share your views and ideas — in short, talk the same language.

November 17, 2008 to November 23, 2008

A time for money and honey both — though its widespread rather than one-to-one interactions. Socializing, good times with friends, rise in prestige, easier money as funds, loans, joint-finances come through. You will bask in the understanding and appreciation that you get from your immediate circle. The larger circle, new groups, committees, organizations also draw you. You are able to contribute new ideas, directions, and inspired decisions. You throw yourself energetically, even enthusiastically, into plans for a better future. You will meet just the right people who can make all this possible.

WEEKLY HOROSCOPES

NOVEMBER/DECEMBER

Capricorn can dance out on the edge of a cliff, but will never fall. Why?

Stability plays an important role, but so does practice.

As a typical Capricorn, you may appear reckless, but chances are that your actions will have been very well planned, and probably also rehearsed.

November 24, 2008 to November 30, 2008

A slowing down will be felt but it is consciously arrived at. You feel that you need to reevaluate your life and your gains in these final weeks. You will have to take your health in hand; and you do. The reason is your strong motivation for a better tomorrow (in terms of the rest of your life, and for your loved ones). Relationships from personal to professional, even with children and loved ones will be specially blessed by your care. You will continue to value and nurture them, spontaneously and sincerely. In addition, future ventures, projects, plans keep you inspired and busy. Expenses are high, but the flow of finances is easy, so it doesn't wear you too much, if at all. Your job is energetically satisfying in that respect too, but you want more out of life as you feel that you are capable of greater things in terms of the targets/goals you set yourself. It is yourself you are competing with, and no one else.

December 1, 2008 to December 7, 2008

You realize that you have to take your own welfare and well-being in hand. Maybe all that you've taken on has made you become careless and neglectful of yourself. The specters of bad health loom over you, also heavy expenses. Maybe the two are linked too. Bad health can undo all that you have achieved, so rest and health care will be vitally necessary. There are bound to be high expenses on all sides. It could also be that you are making investments that will yield profit and gain in the future, but right now outflow is much ahead of income! Your mood, too, despite so much to do, is positive, even enthusiastic. You realize that you cannot give in to despair, inertia, and tiredness. In addition, there are delays, obstacles, even cancellation of travel plans. You feel free to reveal and discuss your inner feelings and from this come genuine gains and hope for further ones.

WEEKLY HOROSCOPES

DECEMBER

In your personal relationships you are often ill-at-ease, if not downright unhappy. You are somewhat self-centered but not excessively so, wary and cautious around people you do not know very well, preferring not to meddle with others and in turn not to allow interference with yourself. Thus you tend to attract people who do not understand you.

December 8, 2008 to December 14, 2008

A trying, troublesome week, but it leads you to much progress, personally, spiritually and professionally. It is a time for you to rely on old friends and family for support and ideas. Your own inspired moves and true self-knowledge not only help you deal with fears, anxieties, even unknown worries, but you are also given beautiful things, the quiet luxuries of security. The seeming paradox of this forecast is easily explained. Hidden doors are unlocked by your own peace and strength of mind. You will find that you can even enlist erstwhile rivals/enemies to your cause. Your own personality will make it happen. Your own inspired decisions and wise moves will send away your worries. Important deals, projects, interviews will continue to be subject to holdups and snags. You can pinpoint and remove these obstacles, because your mental strengths are genuine, inspired, and focused.

December 15, 2008 to December 21, 2008

Your peace of mind and inner equilibrium will be not just vitally important but paramount for you. You will embark on projects for self-improvement, research and higher study, even spiritual retreats and religious discourses. Once again, the loving supports of friends and family and of your spouse/mate/partner are your mainstay. Your own caring and affection bring joy to others, and to yourself. You change attitudes and perceptions to adjust to and accommodate other people.

December 22, 2008 to December 31, 2008

A sudden influx of energy and enthusiasm sends you soaring. It's a phenomenal way to end the year, but it had to be this way. It is your birth-phase, and heightened activity, I find, is the astrological norm, your angle of work, vocation, profession, employment. Once again, you're off to a good start, willing to do that little bit extra in your result-oriented frame of mind. Health is also highlighted. There may not be ill-health, but health-care, a better lifestyle, adequate food and rest, necessary relaxation, even yoga and meditation techniques, if you're to maintain the progress you have made over the year. With your health improved and your work well in hand, success will be a foregone conclusion. Publicity, prestige, power are yours. Also spiritual strength and determination, the conviction that not just good, but wonderful things are bound to happen. You work with will and inspiration. And you score heavily.
