# ABOUT ASTROLOGY

Astrology is often defined as the study of the influences of the cosmos on life on earth.

The zodiac is the belt or band of constellations through which the Sun, Moon, and planets transit across the sky.

Astrology is a science related to the heavenly bodies. It is the study of the movements and positions of the sun, moon, planets and stars, and the skill of describing the expected effect that these are believed to have on the character and behavior of humans. Astrology is not at all a fortune telling. It is one of the successfully tested methods for man to learn about who he is, where he came from and where he is going. Astrology reveals CHARACTER and character makes your destiny.

The main uses of astrology are analysis of health and sickness, character psychoanalysis, professional guidance, analysis of children's horoscopes so as to give parents a better idea as to how best to raise their children, and analysis of the compatibilities between people.

Astrology does not show anything but tendencies. A man can dominate his stars by exerting his determination. If a man decides to flow with the wave of life, then the tendencies indicated in the birth chart could be observed in that man. Astrology forewarns and being put on alert, a man is thus in a better position to cope with the struggles of life.

There are three aspects which bring to us the mystic message of the stars - the houses, the signs and the planets. Each house represents a section of life; the signs are divisions of the heavens which by their placement relative to the houses indicate our basic temperament and attitude towards life and the relative motion of the planets through the houses are the messengers of the god which bring to us the opportunities.

## **About Sun signs**

Your sun sign represents the sign of the zodiac that the Sun passed through at the time of your birth. The Sun rules your essential personality, your ego and your willpower. It represents the core of your potential and your distinctiveness as an individual; it is who you are and what you are about.

The beginning and end dates for each of the signs can vary from year to year. Cusp is the border line between two adjacent sun signs. If you were born on a cusp, you may have some qualities of one sign and some from the other sign.

# ABOUT THIS BOOK

## KNOW YOURSELF

New faces and fresh pastures always beckon you, so though you may be a good lover, you're not always a faithful one.

This may create problems in your love-life.

The centaur that depicts your zodiac symbol represents the partial animal nature in you, and also your spiritual and philosophical craving for the all important truths of life. You are thought of as brave, enterprising and foresighted individuals. But still, you have an uncivilized taint to your personality and somehow tend to get into fights and arguments.

Your adventurous character is backed by a great inner enthusiasm and optimism which shows in your interactions and work. You tend to be a little irresponsible in your dealings and interactions and don't apply your farsightedness to the repercussions of your own behavior. You have an impeccable honesty and this only instills in you a feeling that you are not answerable to anyone, and need not be afraid of anyone; this tends to make you a little outspoken too.

You have a huge self-respect that works in an inward sense and makes you quite independent and straight-forward. You also have a generous and nature-loving side to yourself that is not quite noticed. Your idealistic nature makes you very frank and fearless, but it also makes you tactless, unsophisticated and inconsistent in your work. Also, your impatience and boastful aggression help the situation. Perhaps a little more patience and sensibility will help you in your professional and domestic spheres.

Qualities that make you lucky are fearlessness, self-governing, sharpness, and gutsy. Qualities that hinder your success are aggressiveness, full of yourself, over-confidence, and contradictory.

Christina Aguilera, Ludwig van Beethoven, Walt Disney, Brad Pitt, Britney Spears; We know them as famous Sagittarians.

# 2008 FOR SAGITTARIUS

As a friend, you are sincere, helpful and generous in the extreme – a good friend to have around. With Sagittarians likes and dislikes and intense, sometimes leading to blinding predilections or prejudices. Your intuition is strong and makes you offer your friends good advice and guidance.

It is all about money and mending ways with your spouse/companion this year for you. You will yield a lot of power, the likes of which you have probably not experienced before. So this will be new for you, otherwise, like they say – pride comes before the fall. Issues relating to property acquisition and increasing your wealth will have a sway on your decisions and thinking. Family and friends will be close to you, but their health might bring anxiety and sorrow. It will be good to contribute some part of your wealth towards charity.

A move in your area of work or a retirement has a high possibility. Mortgages finance and taxes, and most importantly, issues relating to domestic expenditure will keep you busy. But you will stretch yourself, make new deals and work on them. Most of all, you have the confidence that you can get things through. On the personal front, your loved ones will rely on you for providing them and comforting them. The old and deceased will need your support and these issues will take up a considerable amount of your time. And you'd better stick to your responsibilities.

With the kind of competition you face, you will be expected to deliver. In doing this, your health and family's emotional wellbeing might be at risk. But in the desperation for making things work, you might overdo it in the sense that you might get too rash and unsophisticated. Combined with the precarious conditions, this may result in a great slump in professional repute. So you will have to walk the line, and keep within your limits with great caution.

Even with all this, there is a silver lining in the cloud. You will earn a lot of fame and recognition. Your mental energy will be great. Most importantly, things between you and your spouse will be at their sweetest.

# MONTHLY HOROSCOPES

As a father, you will always enjoy your children's company, though you can be a little intolerant when they are small. You will always expect too much of them and the children may find it difficult to live up to your aspirations.

## JANUARY

Focus and determination are your creed, and this year you're no different, starting it with an almighty bang — both at work and at play. Where there's a will, there's a Sagittarius! And the will is to focus, to succeed at whatever you take on. Let's see what you'll be handling as the year starts. Of course, I must mention at the outset that The universe gives you better health and an energetic social life. All this has one motivating factor — improving the quality of your life, and that of your family. It's the ideal direction to be headed in. Home and family get an intensive appraisal. Renovations, additions, enhancements, beautification happen to the home.

The reason is not a desire to impress others but more a sincere wish to make it a wonderful place for you and your family to be happy in. You wish to make your self-image as pleasing as possible to yourself — this is part of that total exercise. Finances are targeted with similar enthusiasm. Pending payments, taxes, insurance, rents and deposits will see cash flowing out. You more than make sure it flows in, too, making wise choices and, clever moves in addition to slogging away. You enjoy the cut and thrust of new deals, as well as the effort of bringing existing ones to satisfactory closure. It gives you a sense of achievement.

## FEBRUARY

When you get started in terms right, royal style, there's really no stopping you Sagittarius. Distant connections, a website of your own travel — your world view is truly infinite. So also are your ideas and mental resources in dealing with money-related issues, even home/property from the real estate angle, as well as promotions, added perks, bonus, advanced increments. The money scene definitely remains good till March.

There may be some clashes and differences with close relatives, even with immediate family over property, but you sort them out with far more tact and patience than is usual. You desire pleasure from family and close associates. You strive to keep it that way. However, the predominate monthly theme is your own brilliance of mind, coupled with deep affection.

# MONTHLY HOROSCOPES

As a mother, most Sagittarian women are reluctant to take on the role at all. She needs much more than marriage and motherhood to keep her happy. She gives her children a marvelous mental background and brings much genuine enthusiasm into her role, once she accepts it.

That is brought to bear on your relationships, family, social interactions. You will never not focus on matters of home and family. They're always there, but sometimes they have to jostle for space, as you have so much happening as usual in your life. Home improvement and enhancement continues alongside totally different activities at work and in your reaching out almost to a cosmic world view.

## **MARCH**

The ever-expanding nature of your orientation cannot possibly leave the past behind — nor family background either. Nor do you intend to. You want to explore your roots, investigate them, nurture them, never hack at them. Work and career have never been better, but you still think seriously of the life you can have beyond them, so retirement benefits, old age plans and pensions will be thought about. As I said, surprisingly, retired persons may go back to work. Any way you look at it. there is a link between career and after!

You review opinions and values you have had for ages — and surprisingly, once again, may be amenable to a shift in your stance and attitude. Relationships, too, are part of the exercise, as you realize how much you value them. You are ready to do whatever it takes to nurture them and make them deeper, more meaningful. A softer, warmer, more giving approach comes to you, bringing in its wake a glory of love and pleasure that will last for many weeks more. All your trials, troubles (who doesn't have them?) will fade into the background.

This is a time when you will be conducting a mental review of your position in relation to home and family, career/profession and your own personal identity. I think home, family, treasure, is the theme for the month. You need to realize what your attitude to them will need to be; also to older relatives, parents, in-laws, once again as part of your roots, as where you come from and whither you're headed.

## APRIL

An outstanding month, for gains, progress and true, deep satisfaction. Love and marriage, children and your creativity at work all register gains this month, too: though work brings added responsibilities that you take over willingly. Communications, imagination, cleverness will be an intrinsic part of you, adding greatly to your relationships in particular. I say this despite frustrating holdups/conflicts with relatives, siblings/associates who can't catch up with you. Your achievements may excite envy; not just that — the quality of life, too.

In any case, there's also your hugely exciting sense of adventure. Popularity, ceremony and your public image all make for luck, liveliness, and above all, a sense of joyous fulfillment. Let's leave it there! What is left to be said? Traveling, too, is important but not entirely smooth. Impediments to growth, one might call them, but you take them in your stride. Trips, holidays, romance, lots of entertainment, good times, even liaisons, writing and music are enough to take your mind off snags. In all this, the desire to live life not just well but fully is the guiding force.

## MAY

A good month for you personally, but you face the risk of undermining all your gains by being a little important, or perhaps careless of others' feelings. Your dependents, employees, family and even pets, all gain from your care. Of course. I don't need to point out the dangers of (a) over stressing and over extending yourself and also (b) of not extending yourself enough — in terms of reaching out. understanding people's shortcomings, setting exacting standards

Remember that everyone may not have your Sagittarian focus and single-mindedness towards objectives. A more laissez-faire type of attitude will serve you better in relationships, even in love/marriage/affairs/ liaisons and with your children/parents, depending on which you are. No hasty decisions, in the areas of business or investments — save your money right now. Wait for the opportune moment to make your moves and watch them prosper.

In your chase after prosperity and advancement, work, more work, even more work is what you take on. I wonder if you're a glutton for punishment or a workaholic. Health benefit schemes will be looked at as seriously as you look at work, research, further study, improvement and streamlining of office procedures and practices. You may even be working more than your job-profile demands.

Surprisingly, both moonlighting for extra cash, and community and social sense are favored. Quite likely that you'll be attempting to do both! You want to be liberal and open-handed, yet generate enough to be financially comfortable even while you give to others. Good thinking.

## **JUNE**

A month of conflicting trends and contrary pulls, which you may even find a little taxing and troublesome. Coming together and separating are both indicated astrologically. But man does have some control over his fate. Right action is the controlling factor. All the religions of the world say. It is usually a question of mind over matter, of focus and determination. You may feel as if your typical, characteristic desire for action, to be up and doing, has deserted you. You give in to a kind of inert mind block. But the time for action is now. even if you feel that it is fruitless. Competitors and rivals have to be reckoned with.

Learning, study, travel, writing, new software, web-design, even short trips are all favored — so where's the time to be laid back? Rest, relaxation will rejuvenate you, give you fresh new ideas and a new orientation so that you're off and away, dealing with pleasant and unpleasant situations, both. It could be a make-or-break situation in love and marriage, too. So that could have stopped you in your tracks. Your own personal contributions in all relationships, but particularly in love and marriage will be the deciding factor. You will have to put in as much of yourself into it as you do with your work. But the results are far more rewarding!

## **JULY**

Tremendous mental and emotional changes, even upheavals, will be experienced. As if that is not enough, there will be low vitality — I don't blame you. All reserves of energy have gone into past issues and now will have to be called up

again. But determination is always your strong point, you will be determined to meet the challenge.

There are other challenges too, death, sorrow, passion rather than love, the sensory, sensual world, even conflicts that have endured long are indicated, but there is also true spirituality to counter not just the forces of evil, but any momentary weaknesses of your own. gives you the incisive intellect that makes you weigh up all the options and make the right choice, the good choice. for you and yours.

This will apply definitely to the financial sphere, where you work wonders, indeed. As in January, a very favorable time for investment, joint-stock, capital formation. You could gain from a legacy, too, or very strangely indulge in practices that are quite unorthodox, verging on the brink of being illegal. Your religious leanings too. may be such that you might like to walk on the wild side. You follow true faith rather than occult practices, arcane rituals.

## **AUGUST**

Progress and advancement again this month, too. You now have a solid perspective about going places in your profession. Good meetings with fine people bring out needs for serving the distressed. Your work is bringing out depth of character and you are blessed with the support of true friends and loving cooperators. Major reconstructions happen — favorable for communication, overseas trade/travel/connections or all three; long-range planning of future projects, along with similar exercises closer to home. The universe gives you ideas regarding a) your family and marital/romantic commitments, b) your own role and place and the overall design of life itself, and c) of the world.

Skill and authority are used magnanimously — climaxing to smooth achievement, harmony not just with your surroundings but within yourself. The reason is obvious. Religious and spiritual experiences expand further, as do the strong bonds of marriage, love and family. Gains from parents (may be just wise counsel and support), even inheritance and property will be there.

Also, your own care of their health measures to support them in terms of finances will be important. You will be far more idealistic and concerned with a world vision and an

# MONTHLY HOROSCOPES

awareness that is global if not cosmic. In actual life this is the way you make true progress, achieving better, feeling better, thinking better.

## **SEPTEMBER**

You've been thinking of others for several weeks now even to the point of depending too much on them. The streak of independence reasserts itself strongly. At the same time, there are household responsibilities, emotional issues, philosophical concerns to cater for before any final decision can be made. You may need to weigh up financial options carefully. Actually,

I would say this entire month is about finances, ways and means, finances, plans, finances! Initially, avoid money transactions in this month, but then make your well-planned, well-executed manoeuvres and moves at the right moment. The emphasis is on reading the fine-print, doing your homework well.

Power, publicity, parents, prestige, precision, planning, come to you in a blaze of glory. Riches fall into your lap — excitement, loving vibrations, maturity, thrills, even stability. Love and utter fulfillment are drawn to you magically by the time. You realize the difference between true loving and emotional dependence — which I mentioned above. You want to be doing your own things, very frequently indeed. This is a strong Sagittarian trait, perhaps the hallmark that stamps them.

In this month, you will relate this to the sphere of finances rather than love. Self-employment (if you're a professional), your own business/ office/property will attract you immensely. You want the freedom to express yourself in your profession, not merely do a job. or work as a cog in an organizational wheel. You're teeming with ideas and want to put them into practice fast.

## **OCTOBER**

Confidence, independence and sureness make you better-looking, better-dressed, better-equipped for life as you want it. Better relations - due to your generous, friendly, attractive persona. Love and liaisons, and quick financial gains, too. You will interact well not only at the personal level, but with

# MONTHLY HOROSCOPES

society, organizations, club, fellow-professionals. It's a rare phase for you love-rangers. Friendship, affection and pleasure fill your life with satisfaction.

Impatience and carelessness could be your downfall. Relationship of all kinds are in very strong focus. You realize that there is no need for differences in tastes or values to unsettle the glorious love and friendliness that is your right. You communicate calmly with work or home-mates. You move towards major personal goals with ease, accommodating the demands of others. Siblings or neighbors may involve you in rancorous dealings, perhaps travel might do so, too. In any case, there could be snags and delays — it's becoming part of traveling these days! Learn to take it all in your stride. You'll go further!

## **NOVEMBER**

Professional gains — but of a different sort. You interact with like-minded people who give you fresh new ideas, incentives, inspiration. You have skill, authority, bigheartedness. It is therefore easy to connect with those who have a strong, helpful effect on the goals you've set yourself. Here, mutual efforts go smoothly, and assistance is shared. The reason is the well-sustained communication from your end. most definitely.

New directions are enjoyable and satisfying as November moves into your birth-period. There is much activity right now — and you want to make the most of it, looking for ways and means of doing so. Greater and steadily growing self-knowledge and awareness makes for a changed attitude, to life and loving in particular. Household and family matters require time, effort, money, and you give unstintingly. Even your business/professional concerns could be relegated far back. Group activities, gatherings, parties, social events see you scintillating, fulfilled and pleased.

But don't take this mood of sharing into the financial arena. That is risky, so also is overdoing it — something you're quite prone to. It will make for stress, exhaustion, even ill-health. Patience, good humor and your friendliness and generosity ensure that you get love and pleasure in equal measure. Enjoy it, do it full justice, use it as a mood-lifter as well stress-buster.

# MONTHLY HOROSCOPES

## DECEMBER

Your heightened awareness in your birth phase has you looking ahead at the future as the year ends. Your vocation, your place in the world, even your mission in life, will be what you think about. Future directions will become crystal clear; along with this successful year you've had, you look ahead with the confidence and faith in yourself that you can and will sustain it, because it is the result of your own efforts and hard work.

Financially, you will have only yourself to rely on. It is NOT the time to make shared investments, or trust the judgment of others in financial matters. You will perform well at work and play both, in society and in festivities in the family. There is a strong astro-reason of course. It is your birth month and is bound to bring heightened activity, heightened awareness. Your relationships are deeply revealing, even a little other-worldly. Far-off matters will be clarified, though some behind-the-scene activities, secret negotiations, are possible. These will, quite obviously be work-oriented. It could be blueprints for the future, for further progress, as you enter 2009.

# WEEKLY HOROSCOPES

## JANUARY

You are semi-compatible with Capricorn, Aquarius, Libra, Scorpio, Taurus, Cancer, and Sagittarius.

### **January 1, 2008 to January 6, 2008**

Check in with your favorite people as the week begins. Somebody's got a question for you -- and somebody's also got a very helpful perspective on that thing you can't quite decide. You're definitely moving into a new phase in the middle of the week, and it may involve transitions in mood, lulls in energy and a puzzle for you to start solving. Take good care of yourself and be ready for it all. From Friday through the weekend, your personal goodwill is back and better than ever. Life (and maybe love!) looks bright and plans may go deliciously astray.

### **January 7, 2008 to January 13, 2008**

As always, you try to get off to a good start. You begin the year full of self-confidence and security, and it comes in no small measure from the domestic situation and family support. You are functioning in the midst of friends, loved ones, well-wishers and this strong support is due in no small measure, too to the attitude you display, towards them. They are completely sure of their place in your life and wish to share it fully. Also there will be total sharing of family commitments and expenses. You focus on work that will satisfy you professionally and challenge you to give of your best.

### **January 14, 2008 to January 20, 2008**

Focus on your work ensures that there is a steady growth in finances. You find that you seem to have luck in anything you turn your hand to, particularly money and love. You are, as usual, focusing strongly on goals which are so clearly defined that you can almost see them. With this focus, and your capacity for sheer, mind-boggling work that is hard, determined, unflagging, is there any doubt that you'll go places? You now have the strength of mind and determination to sustain a) your professional growth and b) also your involvement and commitment to family progress, welfare, warmth. You are able to do justice to both.

# WEEKLY HOROSCOPES

## JANUARY

You are incompatible with Pisces, Gemini, and Virgo.

### **January 21, 2008 to January 27, 2008**

The accent is more on your work/profession than on finances. You will also experience somewhat contrasting moods of joy and sorrow, indulge in some amount of contemplation that is deep and focused! This should lead you to balance, restraint, tolerance so that relationships in the workplace do not take on harsh undertones. You can be rather impatient of others who are less efficient, less focused. This will apply to bosses and superiors as well as colleagues and subordinates. Sometimes you find yourself both initiating and leading innovative work-practices. Keep your mind calm, and rest when you feel depleted, or there could be health problems. Remember, the skill and authority that is vested in you must be used judiciously and above all, gently. It will yield better results and also create far better relationships, both professionally and personally.

### **January 28, 2008 to February 3, 2008**

You find time for your hobbies, entertainments and leisure activities, despite your hectic schedule, because you get better satisfaction and solace from them. Yet, you realize the importance of maintaining personal contact and cooperate/interact (or both) with others. Personal finances will have to be handled cleverly and judiciously to balance your many interests and activities. Clear allocation of funds, discussions on family spending and home budgets is a great help. There will be romance, love, even adventure in your life, lots of fun, gatherings, parties and entertainment. Surprisingly you occasionally fall prey to a feeling of neglect, in this week, and may even get oversensitive over the issue. Remember, some things have to be stated clearly to avoid any misunderstandings.

# WEEKLY HOROSCOPES

## FEBRUARY

They are idealistic, ambitious, optimistic even when there are many disappointments.

They are honorable, honest, and truthful with an innate sense of justice.

They are good conversationalists and make good researchers.

### **February 4, 2008 to February 10, 2008**

You're back to concentrating on your work, again. Sagittarians rarely compromise on standards; rather, they focus more and look for ways and means to make their plans work. So will you — on funds and finances, but for the family. Also, a fair amount of entertaining, accepting and extending hospitality. There is so much that you want to do, and you're prepared to work for it. It is not in your nature to cut corners, either. You take on more work in your keenness to earn, or look for other avenues of earning from writing (if so inclined — it's hard work, believe me!), moonlighting or speculating, to maintain a certain lifestyle for yourself and your family. By lifestyle I mean here not only the material comforts but a sense of security, bonding that you go all out to cultivate.

### **February 11, 2008 to February 17, 2008**

From professional efforts, you now try to put in similar effort in one-to-one relationships, particularly the parent-child one: whether from the parental side or the filial you are more than aware of your duties. Family solidarity is something you respect and desire. Personal and family property issues will also have to be dealt with. You will need to ensure that fairness and justice to all prevail and that no one feels left out. Remember, what I have described just above is a monthly trend. Finances are therefore your main preoccupation, along with the need for security for you and your loved ones. In addition, you make a lot of carefully thought out adjustments in the family scene along with some equally careful investment for future gain.

### **February 18, 2008 to February 24, 2008**

Once again, money matters dominate. This quarter finds you focusing on income, assets, property, documents, legal papers — all related to your family and yourself. Care, discretion, detailed study of clauses, the fine print, and the rules applying to you will all be necessary regarding your income/money/assets. There will be an increase in both travel and in money projects for the future: business meetings presentations, bids, conferences will be all prove to be profitable. In fact your interactions with people will prove to be valuable personally, too. You will not wish to neglect the home and family, so in this very, very busy week here is some advice from us. Don't stretch yourself in too many directions; learn to fix priorities and both work and live to a proper schedule. It pays!

### **February 25, 2008 to March 2, 2008**

You're now determined to get the best out of life professionally, and therefore think seriously about entering a new line or field of work. It will challenge your intellect, vision and intelligence and you will relish that. However its very newness and novelty will need care, so that it doesn't turn adverse in the effects it has on you and your family. If you're planning a job-switch/ new profession, do so with care; there can be hidden pitfalls, or at least a downside which you could ignore in your enthusiasm. It will be the pursuit of new ideas, greater knowledge and study that impels you towards contact and communications of all kinds. Try and put off vital and important decisions, or if you can't think carefully and seriously before coming to a decision. You may be able to make a more informed decision later.

### **March 3, 2008 to March 9, 2008**

You turn your focus on the domestic and family scene now. The time blesses you with much in the family scenario, leading to peace, harmony and a congenial home atmosphere. The factors that add on to this are: (1) easy finances; (2) enhancement of personal possessions; and on the less material front quality time spent at home with family, children, loved ones, in-laws, parents — the lot! Long-delayed issues will be sorted out easily in this harmonious setting. A calmer, relaxed approach, even to discussions/solutions to problems will get better results. In terms of your personal space, this phase and monthly trend will be highly favorable.

### **March 10, 2008 to March 16, 2008**

In your focus on home and family, you now turn to the actual home to see how to improve it and renovation, repair, additions even construction of a new home will be important, along with ceremonies and celebrations related to these. In these modern times, it would also mean the down payment for an apartment in a high-rise building, so the finance and home angles are common. You will think and plan systematically about the financial outlay required for all your needs. The focus will remain on the home, since this is the same lunar month; but it is the house itself that you give your attention to. You interact with community, neighbors and family, too. It is still in the spirit of, and with the desire to create congenial and happy home surroundings for yourself and your loved ones.

For the past few weeks, the main focus of your activities has been your home and family, and even in this one, this continues to occupy center-stage in your thoughts *and* activities. The home front, and all that it entails, both interaction with family and in a more concrete form as well. The theme is enhancement of property, assets and such acquisitions. What form it will take is difficult to say in a general solarscopic reading. I can only tell it like it is. ## MAY

Sagittarians would rather learn on their own than endure structured classrooms and routine work assignments. However, having broadened their knowledge and gained experience in the world on their own, they could become excellent teachers or administrators in the very educational system they once found so restricting.

### **April 28, 2008 to May 4, 2008**

The old saying about making haste slowly will apply strongly this week. You could find that your mood may see-saw, between a sense of achievement and contrary disillusionment or melancholy. It could be caused by a delay that you could not foresee, or inefficiency on the part of other people. It happens to everyone and you must take it in your stride and cope to the best of your ability. In this, you have a potent secret weapon — your own charisma, dedication even capacity for sheer hard work. You take heart, try to mend and further both personal relationships and bonds, and plans and projects. You may even win the heart of one special person.

### **May 5, 2008 to May 11, 2008**

You attack your work with zest, gusto, total determination and focus. It will seem that work is a word/concept you invented personally! And it is mental challenges that you take on — intellectual activities, strategies to plan for business, projections for future growth. Stress may lead you to impatient handling of people you care for. Don't unnecessarily create bad vibes or misunderstanding. Keep more detached when work is so necessary. Be confident that you will manage successful. You are loyal and dedicated in equal measure to our work and family. In fact, you should Endeavor to calm heated feelings around you. There are gains in both peace and productivity. And isn't that the main idea behind all your efforts.

You turn to those you love, your friends and companions and gain greatly from them, because it is a time when you can relate beautifully to those who are true friends and loving cooperators. Household and family matters are resolved harmoniously, so you can even wind up feeling energetic, if not playful by the end of the quarter.

## MAY/JUNE

The chief faults of Sagittarius native are their tendencies to fly all to pieces over trivial and unimportant matters, in which they should strive to avoid getting angry and cultivate a more even temper.

### **May 19, 2008 to May 25, 2008**

The second phase in the same sign is of course similar to the first one in theme, but the moving ahead is also very visible. Work and progress are there, along with smooth functioning luck and the grace of time. It will help you accomplish and understand a lot in your work sphere. Love is dynamic and you make demands, too. A good partner aids and supports you at work, pleasant comrades bring fun, laughter, charm and communication. There's still hard work, but you move towards major goals with ease, secure in not only the faith in your own capacities, but in the utter beauty of human nature. Rest will also be necessary in this multitude of pleasures.

### **May 26, 2008 to June 1, 2008**

A calm week, full of ease and yet, great progress comes now. Your mind and intellect benefits the most. It is easy for you to connect, and have meetings with realized souls. Fine people focus your need for serving the distressed. Mutual efforts (with family partners and associates) go smoothly and you share assistance on projects. There is clarity of purpose from discussions as well as long-distance connections. All this will naturally have a favorable pleasing impact on home and family life. You are rested and relaxed and suddenly you feel the tensions melting away. I must say here that the universal balm — family and marital bonding, togetherness, sharing — works its magic. Old pending issues get concluded/sorted out; new projects will be on the anvil. All-round satisfaction will be the mood of the week!

### **June 2, 2008 to June 8, 2008**

On the whole, its family and finances that are uppermost, but there has been a shift (not in focus) but in what you consider is best for you to do. Your entire family, from children to in-laws, draw closer. Your home becomes a bastion against the world, and you decide to equip it with, not just comfort/luxuries, but things you enjoy and always wanted to possess. You're in a mood to venture forth to set everything right. Not the world, but certainly several different spheres that comprise your immediate world. Of these, money and your resources in terms of family spending/requirement will keep you busy, though there is a fair amount of happy family time and interaction, not just work. In fact, it is for them that you seek to enhance your income. To do all this, you pull out all the stops in your money-making activities.

### **June 9, 2008 to June 15, 2008**

Where both activities and focus are concerned, this week is almost a total spillover from the previous one. You want results soon. You therefore continue to work with flair and style and a touch of originality, too, in your chosen field. But that's only one part of the total picture. New schemes for making money suggest themselves to you and you're determined to get maximum benefits from them. There is no selfish greed motivating you, only the desire to do the best you can for those you love, i.e., your family, spouse, children you may have even seriously contemplated switching jobs, in this context. Therefore, you find that you. You are suddenly thrown into a phase of such intense activity that you won't have a spare moment to yourself.

### **June 16, 2008 to June 22, 2008**

In your birth sign, the full moon powers you on. You are strong and energetic, able to direct yourself towards major reconstructing and brilliant activity. The main thrusts of this activity are — trips and ties. This means travel for work/business/ pleasure/religion. The ties of marriage and family most definitely, of love and friendship too and even partnerships and collaborations with legal backing. Once again, the possibility of ill-health, accident, injury has to be guarded against. Risks in business too. I think caution will be equally important now. In your own sign, what can the moon bring you but a tremendous sense of purpose and direction, which you need to channel both intelligently and positively towards gain, advancement and growth.

### **June 23, 2008 to June 29, 2008**

A change that is both radical, very positive and very productive comes — in your attitude and personality as well as your interactions. The strong focus is on joyful relationships — of a large variety. The change I spoke of is that now you are able, willing, even eager, to express your feelings and loving interactions will be the result. The relationships can be purely platonic to purely personal, but you will enjoy both, and loving friends communicate in ways you appreciate, and want to reciprocate. You make fewer demands, show greater tolerance, kindness and affection. In fact, friends, affection and pleasure fill your life with such satisfaction that there is far better health, and also greater efficiency at work.

### **June 30, 2008 to July 6, 2008**

A new theme now, or perhaps it is better to say, a recurring one now rejuvenated. Group activities and personal interaction are important, but the focus is most definitely on enhancement of finances, of security in money terms. Your work goes well, with a weekly bit of cooperation and support. So, if the money is not good enough right now, you know it soon will be — as a result of your own efforts. It makes you feel very secure. Your ideas at work are strong, calculated to win, along with your truly phenomenal sense of purpose and dedication. Sagittarians are usually never short of it, anyway, but you actually excel yourself, outstrip everyone! Stemming from the sharp activities of last week, there is fine communication with those you consider as your other selves. Matters connected with travel, money and partnership all stabilize, so that smooth progress is maintained.

### **July 7, 2008 to July 13, 2008**

A totally different kind of gain, but badly needed, comes to you now. This quarter brings a sense of balance between work and family, and between self-confidence and lack of trust in your attitude to others. You overlook the faults of others, don't see criticism where none exists, and are not careless of either your own money or other people's feelings. For you that's a great step forward in the right direction. The tendency to overdo things is always an inbuilt danger for you Sagittarians. In addition, be careful about who you confide in. Keep your own counsel about future plans. Don't disclose all that you hope to achieve. Those in advertising and the media could have their ideas stolen (just kidding). Wait for the right time before starting a discussion. You need not take a negative stance, just a quiet one. Don't move into the limelight, you could attract envy! I hope you'll take this all as seriously as it has been said.

## JULY

Each sign has a part of the anatomy attached to it, making this the area of the body that is most sensitive to stimulation. The anatomical areas for Sagittarius are the hips and thighs.

### **July 14, 2008 to July 20, 2008**

Its a strange thing, but right now you are impatient to get on, move ahead rapidly, and achieve results not in the future, but yesterday. In this desire to get ahead fast, you also have to inclination to take on research, higher studies, and courses of updating your skills. Don't take risks with family funds. You need to play safe there. You can risk your heart. Your partner will work hard to improve and further your relationship. Love is warm, romantic, and full of both mystery and fulfillments. Don't throw any of it away in a rash moment, or in a hasty action. Success for new ventures arrives, and not a moment too soon (you may well think) but most of our advice for last week applies here as well. Some confused issues will be sorted out.

### **July 21, 2008 to July 27, 2008**

You have been making some plans in the past, but they were nebulous, uncertain even half-formed. Now is the time for truly strategic plans as a brilliant new venture may be in the offing; the implications will be long-distance, perhaps even global. And you could be a vital part of it all. Loans, funds, capital will have to work out; under the miracles of both work and planning that you perform. Very surprisingly, so also will purely personal relationships, ties and bonds. All this makes you feel very good indeed and pleased with the direction of your life.

### **July 28, 2008 to August 3, 2008**

With property and finances both in order, you decide to zero in on bonds and ties and turn to family matters, also try to improve parent-child relationships, whichever part of the relationship you form (I mean as a parent, or with your own parents) in a rare show of family solidarity. Sagittarians are known to be 'loners' but they do need people as others do, and so also personal belongings to reinforce their own sense of worth. It is the material and intangible benefits (like time, attention, care) that you zero in on. With bull-like determination, you thrust ahead on financial dealings, even wheeling and dealing as there is psychological pressure to build up your level of security both physically and financially. You therefore try to strengthen family bonds, marital and personal, intimate interactions, and also your place in society. You know that no one can live in isolation.

# WEEKLY HOROSCOPES

## AUGUST

The gift to Sagittarius should be given solemnly, with value, doing the greatest possible accent on excellence, value, and virtue of hero of the occasion.

### **August 4, 2008 to August 10, 2008**

Your plans need investment to be put into action, so that is what you will concentrate on — the larger financial scene. Loans and funds, financing for proposals and projects will conic more smoothly now. So will entertaining and socializing. You may meet just the right person to help you in your career-advancement, in terms of ideas, original techniques, to connect with what you're aiming for. This will lead to relaxed, easy intimacy and sharing with those you love. You will find strength and inspiration in your interactions with them. Now is the time you decide when you have to go for the jugular, in terms of making the right moves for career-goals, personal objectives and the finances to make both come true, as I've already said. Practical solutions and new ideas both come to you. Emotional satisfaction will be at an all-time high and your spirits soar to match.

### **August 11, 2008 to August 17, 2008**

A new-prediction — towards the contemplative, meditative side of life has slowly been developing, but it is much more pronounced now. The initial hiccups in love, creativity, marital bonding will stop now. You have the right atmosphere at home and also at work. You sit back as others try to hog the limelight, because you don't want it anyway. You will be zeroing in on personal advancement. Your new mindset and predilection has actually been evolving gradually and so quietly that you did not even feel it. I am talking of spiritual and intellectual growth, wisdom, caring and warmth in personal relationships as a natural development from wisdom. Most of it has been intuitive rather than planned, and is very genuine indeed. It's impact on your attitudes has been gradual too.

### **August 18, 2008 to August 24, 2008**

One word sums up your focus, concerns, activities in this phase — people! You will concern yourself with family, parents, in-laws, even friends and partners (see what I mean by 'people?'). You must learn to relate better with greater empathy, insight, fair-mindedness. Good people will be your allies in all your future plans, in travel and in the beauty of relationships. You realize that your most valuable input will be your own sincerity and true commitment. It's time to make a few decisions, but you do have to think carefully, weigh up options as well as pros and cons. You have, most important of all to make people your focus. Commitments made now will be very long-lasting.

# WEEKLY HOROSCOPES

## AUGUST/SEPTEMBER

In other personal relationships you are reliable, seldom betraying any trust given to you.

However, you can be impulsively angry and you know how to be outspoken and exactly what expressions will hurt your enemy most.

### August 25, 2008 to August 31, 2008

There is no let up in your work and your leisure activities. You have been living life at a speed that's fast furious; the reason is that there is so much you wish to achieve. Having done so, you need to maintain the tempo. And you do — in terms of travel, liaisons and rendezvous, overseas connections and dealings. At the same time you are slowing down in your mind, moving more towards introspection, values that are deeper, and could even be meditative at times. At any rate, this doesn't slow down your actions or emotions. You are usually one of those people who despite their obvious sincerity and true caring don't always know how to express their deeper feelings. You now go all out to learn to relate better to other people. In the bargain, you analyze and assess yourself; your motivations, your values and goals. It is a time for contemplation, deep thought and choosing the directions you want to grow in. Nothing more to be added here.

### September 1, 2008 to September 7, 2008

You're getting closer to people becomes the main theme this month. You actively seek the joy of being, with family, loved ones and friends. Also equally important in terms of time and energy given to them will be new ideas, innovations, novel approaches not just related to career objectives but also to your total attitude to life. It will lead to true creativity in your thinking, too. What will also work out are funds and increased personal finances. This gain in prosperity allows free motion, a sense of adventure shared with friends who may be partners in enterprise. There is a sense of exhilaration, of true freedom of choice. Children and creative pursuits frequently go together, in astrology. They are both highlighted in this new moon phase. There is time spent on both, also on shared amusements, entertainment, and the company of kindred souls!

# WEEKLY HOROSCOPES

## SEPTEMBER

Sagittarians are ardent, sincere and straightforward in love, normally conventional and in control of their sexual natures.

Yet if thwarted, they may revenge themselves upon the opposite sex by becoming cynically promiscuous.

### **September 8, 2008 to September 14, 2008**

A stupendous aura, and sense of satisfaction envelops you now, in the days of glory that you experience. After all, it's your own sign that the moon is in. You will have great vision and foresight about the way things will be in the future. Travel will be easier now, so will your attitude to life and other people. You don't let the petty pinpricks bother you. It is a time when you can see the larger picture in its totality. Pending work will be concluded satisfactorily, too. Celebrations, ceremonies, meetings take up a lot of your time, but you're in a mood to enjoy them as they come. You're active, inspired yet relaxed and believe me, it shows.

### **September 15, 2008 to September 21, 2008**

A week of gains, progress, satisfaction. It is my observation that frequently, full moon phases bring a kind of completion to friends, even to attitudes that have been experienced. The natural end of your mind-set and attitude would be the realization of your ambitions. It doesn't actually happen in this phase. It will not be long in coming. In the meantime both the money and honey are pleasingly satisfying. You gain in both power and plentiful resources, at any rate. You will direct these in two definite directions: (a) the parent-child relationships, be it as parent or child, and: (b) your superiors, those above you. You will not be flattering or kowtowing to them, just having a lot of dealings with them. Also you'll learn to exercise tact and patience, and a good deal of self-restraint, too.

### **September 22, 2008 to September 28, 2008**

In this second quarter in the sign of Gemini, you will go back to your relationships, your emotional bonds, as your main focus. Your entire family, from children to in-laws, draw closer. Your home becomes a bastion against the world, and you decide to equip it with, not just comforts/luxuries, but things you enjoy and always wanted to possess. There could be pleasant surprises and thrills in store. You have much enjoyment in just being with your favorite people. Love is an enduring delight, too, both enjoyable and satisfying. Recognition comes to you, in terms of being part of a large, loving family.

## OCTOBER

Sagittarians bring happiness to others and contribute greatly to society in the areas of science, arts, religion and philosophy.

### **September 29, 2008 to October 5, 2008**

The joys of good and meaningful interactions with people you care for, relate to, become a beautiful monthly trend. Luxury and peace envelop you. Wish-fulfillment and dreams-come-true time is here. Fun, games, pleasure help to strengthen and develop relationships; conflicts will be nipped in the bud, not allowed to grow. A greater flow of understanding and communication draws both friends and family close. Beautiful partnerships at work may energize you further. A marvelous week of balance between work and pleasure! What makes it special is that it is something you've chosen for, worked hard at. You will feel you've seen it through, emerged in your efforts.

### **October 6, 2008 to October 12, 2008**

There could be troubles on the home front. The time advises you to remain impartial, and not take sides. You may now be drawn into situations where there is conflict and confrontation- You have had a long run of credit, recognition, popularity, so you should try to maintain it. The need to stay calm and pleasant is very great, particularly in domestic disputes or differences with someone you love. Don't fritter away your gains by going in to acrimony, harsh words or prejudice. See the other point of view also. Sharing, partnership, perhaps even just talking things over, seeing a different point of view to yours will all add to your career, talents, personal charisma, rather than detract from it. Organizing your household as well as your office routine will also help. You will feel much more in control that way.

### **October 13, 2008 to October 19, 2008**

Your patience, tact, restraint will all pay off this week, which will make you not just go places, but even higher than your aims. Problems and pending issues from the past will also be dealt with. Job-related techniques and skills will also show marked enhancement. You will make efforts to preserve harmony in the family circle. Even if you have to create the time for it in your usually busy schedule, you'll try hard to add to bonding with loved ones and family. You'll be a good parent, good child, good lover, above all, a good human being. Wise decisions and generous moves come as a result. Legal issues will be concluded to your satisfaction; also personal (very personal, I mean) relationships and bonds. Annoying disturbances caused by the immaturity of someone else will be ironed out, too. Your own sane and calm approach will ensure it.

# WEEKLY HOROSCOPES

## OCTOBER

You love to start new projects and have an urge to understand concepts that are new to you. You may be boastful, vulgar and extravagant in your private life. Your restlessness, if excessive, can jeopardize more than your own stability.

### **October 20, 2008 to October 26, 2008**

Having put your house in order, is it any wonder that you now decide on a makeover, revamp of your family's fortune I mean — family/domestic funds as well as the home itself. You acquire the latest gadgets and objects of desire for your home. You'll put in extra work to make the money for all this, because this is something close to your heart, and you want it keenly. You have the energy to make it all happen, with the god's support. You will not let the grass grow under your feet. Sagittarians are usually both strong-headed and strong-willed. In this phase, you get added power, energy, drive or the killer instinct which will ensure great success in all you're taking on right now.

### **October 27, 2008 to November 2, 2008**

Your dream run continues, and there is fun, romance, laughter, love, celebrations and ceremonies, maybe even wedding bells if you're single. In spite of all this activity, you also find time for hobbies, leisure pursuits, a bit of gambling and speculation, easy money to be had. You're cashing in on this glorious phase in every possible way. Along with the glory, the time adds on the vital part of the sweetness of life — almost certainly loves. And that's only one factor. There is an even better one. While you continue to function, or rather perform gloriously in mundane, earthly matters, you are the true seeker for immortality, the true meaning of God, religious faith, karma and dharma. At the same time, there is no neglect of your duties. In that context it's family and finances that are uppermost, but there has been a shift (not in focus) but in what you consider is best for you to do.

## NOVEMBER

Favored food for Sagittarius would be prunes, apples, oats, raw eggs, strawberries, skin of fruits and vegetables, dates, cherries, tomatoes, green beans and corn.

Avoid spicy food and smoking.

### **November 3, 2008 to November 9, 2008**

You will continue to build and strengthen all your relationships and bonds. What started Last Quarter was definitely a monthly trend, and you see more of the family aspects this week, too. Marital ties, love and romance are beautiful, your health is much better and so is your bonding or togetherness with family. Finances for the home need care and attention, though. Some decisions about domestic matters will have to be taken, too, so that you can maintain the lifestyle you want. Not just for yourself, all your loved ones are included in your plans for future progress. To do all this, you pull out all the stops in your money-making activities. You will have enough to manage all your affairs with grace, dignity and above all, love.

### **November 10, 2008 to November 16, 2008**

You find that this phase is hectic, since it activates every sphere of activity! Petty conflicts, demands of work, problems are there, but you sail through with flying colors, literally! You are poised, balanced, calm, serene, and confident! Is it any wonder that it seems as if nothing can stop you? Being the kind of person you are, you really make the most of this heaven-sent opportunity, and get marvelous results.

### **November 17, 2008 to November 23, 2008**

You now focus more on work-related matters, issues. You will go in for new ideas as well as useful work so that you can achieve perfect organization of your individual space. Streamlining and efficiency will be important, but so also new project/ventures, plans, proposals. You've got your eye on the main chance, in just the right way. This applies very strongly to parents as well as children, whose interests you watch over carefully yet imaginatively. Even the larger community and society as a whole are not left out of your plans. You give and receive love in great measure.

# WEEKLY HOROSCOPES

## NOVEMBER/DECEMBER

A poor diet heavy in fats, starches, and alcohol puts an extra burden on Sagittarius' sensitive liver, and makes it harder for them to sustain a high energy level.

### **November 24, 2008 to November 30, 2008**

You have tried to go all out in your effort to create an almost ideal scenario to live in. The money angle you've been too busy with over the past few weeks will crystallize and/or gel beautifully so that there are benefits, profits and an easy flow of money. Joint-funds will click into place. Legal matters too, with just a click of the mouse! But the true benefits are huge, and spiritual. There is a tremendous, even phenomenal, gain in faith, religion, true worship and prayer.

### **December 1, 2008 to December 7, 2008**

You enjoy being part of a group. From family to colleague to social contacts, you will value them all, and work in harmony with them. Team spirit and group activities are also favorably stressed, so you are both cooperative and understanding. You don't want to climb over others in your desire for excellence. You enjoy being part of a group, a family, a community, a society, as I've already said but need to stress once again. It will be your *raison d'être*. Good results and public dealings are favored for you, even though you have to reckon with rivals and competitors. They will give you a run for your money, but there's no animosity or bitterness, either way. Differences will be sorted out through a free flow of ideas and opinions so that work is expedited and lines of communication remain open. In fact, good things are drawn to you, both in the family and at work! And in this lies your progress and happiness.

### **December 8, 2008 to December 14, 2008**

You will be painting on a very large canvas; indeed now. There is nothing small or petty in your actions. Travel and wide interests take you far beyond your usual boundaries. Naturally, and needless to say, deep benefits accrue. The details I leave to your imagination and your individual horoscope. However, long distance connections yield gain as do global contacts and contracts. Once again, I must remind you that it is world-wide contacts and communication. Personal, one-to-one contacts, not merely cultivating the right people. You really don't need to. But the entire, huge world of communications is your system right now — from meetings, phone calls to web pages of your own. In fact, good relationships are also maintained in fresh surroundings. You are open to all kinds of innovative ideas and concepts.

# WEEKLY HOROSCOPES

## DECEMBER

The Sagittarius child is the class clown, a happy-go-lucky kid who is sure the glass is half-full -- nah, make that spilling over! This is a child who needs room to roam and can't imagine a world without freedom.

### **December 15, 2008 to December 21, 2008**

You are suddenly thrown into a phase of such intense activity that you won't have a spare moment to yourself. New schemes for making money suggest themselves to you and you're determined to get maximum benefits from them. There is no selfish greed motivating you, only the desire to do the best you can for those you love i.e., your family, spouse, children; you may have even seriously contemplated switching jobs, in this context. But the time assures you that you will get the just and befitting rewards soon. You continue to work with flair and style and a touch of originality, too, in your chosen field. This quarter will be all about finances, at all levels. The range will be from housekeeping money to large-scale funding/capital for lucrative projects and ventures. The good news is that you get the just and befitting rewards for your truly hard work. You can come on a rise both in status and your own self-image. But in passing, where new projects/ventures are concerned.

### **December 22, 2008 to December 31, 2008**

It has been a good year for you, all told and you don't want to let your progress and achievements diminish in anyway. You don't let up on your efforts to sustain the trend of glory and achievement. The wonderful part is that you've worked for them, and they are truly your just deserts. In fact, I would go so far as to say that no one could deserve them more. There will be continued and major financial activity that will carry on well into the year ahead. Also greater creativity, time at home, with your hobbies, leisure activities, too, in this week. You want to wring out the maximum from life. Finances, funds, even loans if you require them (though I doubt it) will pan out very beautifully indeed. But your health will have to be watched over, as your tendency to overdo the work angle can cause stress, strain, and even total exhaustion. Rest and relaxation are more than necessary, they are imperative right now. You turn to the care of pets, children, dependents to help you unwind as well as the intimate family circle rather than the larger social scene which you may find a bit less attractive, despite your impressive skills with people and with work. What you want is the contentment you are now experience – nothing can better it!
