ABOUT ASTROLOGY

Astrology is often defined as the study of the influences of the cosmos on life on earth.

The zodiac is the belt or band of constellations through which the Sun, Moon, and planets transit across the sky.

Astrology is a science related to the heavenly bodies. It is the study of the movements and positions of the sun, moon, planets and stars, and the skill of describing the expected effect that these are believed to have on the character and behavior of humans. Astrology is not at all a fortune telling. It is one of the successfully tested methods for man to learn about who he is, where he came from and where he is going. Astrology reveals CHARACTER and character makes your destiny.

The main uses of astrology are analysis of health and sickness, character psychoanalysis, professional guidance, analysis of children's horoscopes so as to give parents a better idea as to how best to raise their children, and analysis of the compatibilities between people.

Astrology does not show anything but tendencies. A man can dominate his stars by exerting his determination. If a man decides to flow with the wave of life, then the tendencies indicated in the birth chart could be observed in that man. Astrology forewarns and being put on alert, a man is thus in a better position to cope with the struggles of life.

There are three aspects which bring to us the mystic message of the stars - the houses, the signs and the planets. Each house represents a section of life; the signs are divisions of the heavens which by their placement relative to the houses indicate our basic temperament and attitude towards life and the relative motion of the planets through the houses are the messengers of the god which bring to us the opportunities.

About Sun signs

Your sun sign represents the sign of the zodiac that the Sun passed through at the time of your birth. The Sun rules your essential personality, your ego and your willpower. It represents the core of your potential and your distinctiveness as an individual; it is who you are and what you are about.

The beginning and end dates for each of the signs can vary from year to year. Cusp is the border line between two adjacent sun signs. If you were born on a cusp, you may have some qualities of one sign and some from the other sign.

ABOUT THIS BOOK

Destiny refers to a predetermined course of events.

In astrology, nothing can replace the personal touch of the astrologer because astrology is much more beyond the planets and requires intuition and understanding of the subject.

Life is a journey and the forecasts are given to help you. Use them as a guideline. These horoscopes shall give you an idea of your future in year 2008. A day may be good for one thing and bad for another. Please read the trend in horoscopes carefully as they might indicate opportunities and pitfalls ahead.

There are no absolute guarantees in life. It depends on how you interpret the things. This is a small book and does not contain each and every minute details of the subjects. We've tried to be specific on topic and be general in trends. If we say you'll be busy with your partner, he could be your spouse/colleague/business partner/friend and your pet. Please relate interpret these horoscopes to your way of living.

SCORPIO

KNOW YOURSELF

You are very demanding in your sex life, with much physical ardor

Your marriage is almost always a very enduring one, despite the fact that you are difficult to live with.

Being a Scorpio, you are quite shrewd and astute and even intensely revengeful in cases, you are not the right person to cross. You are the symbol of courage and power, and this is certainly accompanied by foresight, intelligence and power, along the freedom that this power provides.

Your vision gives you the power to see farther than your comrades and opponents. And this provides you with the power to strike down those you oppose you, figuratively. Adventure lures and you and finds you wherever you are, and this intrinsically makes you a leader, as you dare to tread where no one else dares to go. You have a great stamina, and as I talked about, you are a deadly adversary.

You expect total loyalty and sincerity from your friends, as you give the same to them and you are not that easily deceived, because of your superior vision. You are brilliant and tactical in your business, but run the risk of appearing, and even being deceitful and surreptitious. You are quite dedicated and sensible, but still in some known or unknown way, you tend to yourself in jeopardy. But still, you will succeed a lot in life, and also make a lot many enemies in the process, but they are innocuous and only cause anxiety. You receive cooperation from your coworkers and subordinates and satisfaction from your family.

Qualities that make you lucky are will power, positive, political, and courageous. Qualities that hinder your success are possessiveness, dominating, jealous, and cold-blooded.

Leonardo DiCaprio, Bill Gates, Prince Charles, Meg Ryan, Julia Roberts; We know them as famous Scorpions.

2008 FOR SCORPIO

As a friend, you are intensely loyal and ultra-sensitive where your pride and self-respect are concerned. Sometimes you can be too overbearing. Learn to overlook minor lapses on the part of friends. You are pure dynamite as a friend because you are also secretive and discriminating, so there can be a betrayal, despite your own sincerity

The whole of this year comes into a period of great potential and energy for you, and that should turn into performance and that, into results if all goes well – and believe me, it will. The scholarly and truth-seeking side of you gets a boost this year. This time brings you fortune, ability and courage (courage, not confidence). So, you will be good to go if you have something new in mind. But that will involve addressing already pending issues first.

You seem to exhibit an extraordinary amount of physical health and mental stability. But that does not mean you are immune to strain, actually that is the chink in your armor. Try not to be so pigheaded, and to take advice thrown at you positively, no matter who it comes from. That includes advice given by me too, and the first thing I'd advice you to do is to try harder to get along with your in-laws and neighbors. Apparently, that contributes for a majority of the stress, in most cases. This is also a good time for exercising your mind and gaining knowledge – that might mean a new crash course or something else.

On the work front, mood swings and ego-wars might have a very negative influence. Matters relating to mortgages, taxes, investment and insurance will demand your attention. You have been warned and you need work on them. However there will be material gains and recognition from superiors nonetheless. This basically results from the decrease in delays and other factors that generally keep the results from coming to the effort-maker. Since you have everything else it takes, all your accomplishments will depend on your ability to accept and accommodate others, and click in group efforts.

So it is a good year for trying out new things, going to new places and taking it easy while being serious about your work. Connect with more people and make the most out of those connections in both giving and taking – that is what you do best, right?

MONTHLY HOROSCOPES

As a father, you are keen, proud and ardent. Take care not to be too strict as it may sometimes be counter-productive.

JANUARY

You start the year well, in terms of progress and advancement. In fact, the theme of improvement widens to include both home and people. The home is spruced up, added to, beautified, extended. So also your relations with people in general, family in particular. The domestic scene will gain greatly, as you get rid of anger, critical attitudes, your own hang-ups. There is a gain, very naturally, in popularity, respect, even recognition of your truly sterling qualities — at home and at work. Towards the end of the month, come added income and financial gains. So travel can also be thought of; spiritual travel is already there for you, but you reach out to places as well as people now. You have both the mindset and the wherewithal to make it possible. You pursue meditative practices, higher learning, true wisdom, very sincerely too.

I have always maintained that Scorpios are one of the more spirituality-inclined signs. Learning, faith, meditation, research, further education are as important to you now, as 2008 starts, as they have ever been to anyone. This originates from a desire for true improvement of self; the higher self is what you strive for, even in the midst of mundane activities. The theme of spirituality was with this end in mind and it is a good way to be headed in.

FEBRUARY

Perhaps the time made you store up your spiritual strengths knowing that you would have a lot of pulls in your mental environment. It is not a very good time to make investment, or to speculate/gamble. It is better that you hold on to your cash and assets, despite pressures — even from members of the family. In addition, you may also need to hold on to your temper, as there can be some conflict situations, domestically, that you may need to resolve with tact and patience. The conflicts may probably be related to the financial angle, but otherwise you will find greater domestic accord. That's because of your own sustained efforts in that direction. You feel the strong pulls of family and marital bonds and want to be good in both spheres.

The renovating/decorating of your house/properly/home will carry on into this month; you are now as tightly wound up as before. You're ready to be amused, entertained, loved, to go

MONTHLY HOROSCOPES

As a mother, Scorpio has few equals. She can, however, be a little too demanding. She is full of maternal pride, but can tend to be too strict. You give your children a lot of fun and are basically a very good mother, though you too must make a great effort to bridge the generation gap.

on a holiday, to take up a new hobby or sport, or even some work in addition to your own profession. Most probably, this will be linked to your desire to serve society, community, the environment, in fact, the world in its entirety.

MARCH

The material, mundane world drags you back with a vengeance. You have to handle the pressures and demand of family and marital commitments, and at work trying to reconcile both. You're teeming with ideas mentally and don't want to be bogged down. Some adjustments will need to be made, but the rewards make them worthwhile. Tactful awareness may help in handling legal and other conflicts that might just occur — this may not actually come to pass. Perhaps you'll defuse the explosive situation with your good handling. After all, it is this world in which we need to give a good account of ourselves.

Good times are coming to you in new ventures/projects/enterprises. These, you may start up now. They stem from an increase in (a) your own creativity, ideas, inspirational moves, or (b) sudden monetary gain, maybe a gift, legacy, win or even a windfall. They do happen! Bonds, ties, even marital harmony will register gain, as a result of your efforts. New directions seem important to you, so also effort. You are hard working, sincere and will now be making clever changes, with a view to expediting routine work, at home and office. Remember what I said in the opening lines of this forecast!

APRIL

It's not approval alone, but true support from the lord, so that good results are absolutely inevitable from organization in the fields of both work and income-production. Your children, too, may have contributed to your mindset, with their own insecurities. We reassures you, and you can perform the same good office for them. You are strongly supportive, wise and also affectionate — it gets more than the desired results! Your willingness to help others can never be held in doubt; it is truly sincere and genuine.

Now you get down to grindingly hard work, even accepting a secondary or subordinate or lower role than you have hitherto

MONTHLY HOROSCOPES

Ideal careers for you are detective, pathologist, surgeon, scientist, researcher, undertaker, insurer, market analyst, butcher, member of the armed service, politician, actor, artist, or pharmacist.

had. You need harmony in relationships, and are willing to make both compromises and sacrifices, not just adjustments, as you did last month. The reason could be the fact that you need to work out issues related to financial credit, or even difficulties in the cash flow. It could also be because the fundamental changes you've been making are at a peak, and you feel anxiety.

MAY

A demanding month for you. It makes you not only sit up and think, but also slog, as you're pulled in two opposite directions. Many things happen simultaneously to indicate to you the trend that this month shows. And that's not a joke. Love and hate in equal measure, so also the making and breaking of ties, bonds, relationships, as well as support and cooperation on the one hand and enmity or competition on the other. Perhaps you're confused about how to deal with all these different pulls.

Yet, strangely enough, a sense of freedom, even elation comes to you as you interact with young/younger people, especially at work. You also turn back to meditation, study, higher learning. These are often your greatest strengths, and so they prove even now. You learn to show more caring, more involvement and maybe prevent a break-up/separation (not necessarily a marital one) that seemed imminent. In addition, you just manage to disarm the opposition. And it's not just tactics, it's genuine. That's why you will succeed.

JUNE

Relationships are paramount though not necessarily always pleasing. You feel either a desire for much more individual freedom, or contrarily friends/people may seem far away, even grasping or selfish. In a nutshell, either way you're likely to feel unhappy about interpersonal relationships. Try for smooth sharing, we tell you again. Deeper communication is not only possible, it's necessary. Be more detached about others' unconscious fears: that's one area where you need not get involved. Your own rewards for work are increasing, and you may experience a tremendous sense of achievement/satisfaction bordering almost on self-congratulation.

MONTHLY HOROSCOPES

You like
mystery,
secrets,
privacy,
loyalty,
passion,
strength,
being
acknowledged,
integrity,
willpower,
and
strategy.

Your health and vitality could have been low, even last month, but you soldiered on. Now, you need to take proper care, rest and precautions. You need to be fighting fit, if you're to be the good trooper that you are. New projects and domestic matters will both be very demanding. Earned income will have to be balanced and home conditions will need investment to be improved. Sharing of ideas, emotions, resources will be your best bet. After all, a trooper doesn't march alone! You experience a great sense of companionship and caring that helps you resolve the personal doubts this month started with.

JULY

Huge family demands are made on you. And these could be both for time and money. Finances may be tight, because of too many demands on your purse, but you're more than equipped to cope inventively, imaginatively, and above all, with caring. It's family, after all! You sense people's need (applies to your loved ones, too) and are able to help them feel more comfortable through kindness. Quick thinking serves you well, both in relationships, and settling money matters.

You have a lot on your plate right now, but know just how to cope. Everyday routine arrangements, friends and travel plans will work well and yield satisfaction now. Good people will be your allies and companions in shared beauty, adventure, travel. You will be mutually stimulated by both dynamic ideas and good planning. Communications and related fields you will excel at, even philosophy, higher study, psychic experiences, religion.

An ever-expanding consciousness and greater mental capacity comes to you. You handle matters relating to parents and older people well and gain wise counsel. Finances even out and stabilize towards the month end, causing a sense of peace to prevail.

MONTHLY HOROSCOPES

You dislike deceit, apathy, being questioned, excessive compliments, easily tempered, insincerity, embarrassment, and passivity.

AUGUST

The ups and downs of relationships and family interactions have been so demanding that your love for steadiness and stability has taken a beating, and may do so further before the month is out, but you have your strength and your solace.

Marital arrangements, contracts may need working out (your own/someone in the family) in addition to the financial angle. But you have determination, a certain power. Older people who are mature help you, and themselves, realistically make plans for accomplishment and share money ideas. Effort is important. This gels perfectly with your own thinking, so there is peace of mind, along with serious work and equally serious thought and planning.

The right ideas make all the difference now. You find the time (you had the inclination, anyway) for deeper philosophical issues. Your pursuits thus influence your thinking, and a spiritual sense of movement/growth, comes to you, to light your way.

SEPTEMBER

A month of gaiety, respite from care and worries. An excellent time for going out of the usual orbit, connecting with people you like, doing new things for entertainment, visiting unusual places, off the beaten track games, play, pleasure and total self-expression make you enjoy love, laughter. All kinds of relationships are bound to improve.

In fact, if you're footloose and fancy-free, or even if you're not, you can have a lot of fun with friends; and love is certain to make its appearance while you go off, seeking adventure. Perhaps love itself is an adventure. You could be living dangerously in terms of affairs, liaisons and friendships, too.

It could be because you yourself have learnt to reconcile your interests and advancement with your image in other people's perceptions. Your personality, persona, certainly have an aura, a magnetism. It draws people to you effortlessly in terms of both cooperation and caring.

MONTHLY HOROSCOPES

You are most compatible with Capricorn, Pisces, Cancer, and Virgo.

OCTOBER

A fine, go-head month! High time, you may well be thinking. October is like August was — confidence, determination, the desire to succeed energize you. Also, I must remind you, the approaching birth month. It is always a time of heightened activity — good or bad remains to be seen. Your worries are reduced by the increased inflow of money — earned by your own efforts, not just easy gains.

Pleasant times come as the month ends, and perhaps some radical changes in your work sphere. You are sympathetic, keen to accept and render help, but don't try to take on more than you can handle. It could well boomerang on you — and that you don't need! You have worries and problems galore. So wrestle with family squabbles could happen with siblings, relatives, conflicts and confrontations with rivals, or people who stab you in the back rather than show open animosity.

You might need to reckon with restrictions, hospitals, confinement to care, or sickness and Medicare. Not just for yourself — you could be the carer/comforter rather than having to lean on others. This may cause stress; certainly mental activity gets hyped up. In that respect, please once again heed the warning contained in this forecast. Act with forethought, deliberation, and wisdom.

NOVEMBER

The build-up to your birth-phase brought hyped-up activities. Here, even a disappointment/hurt/let-down in love (also mentioned in the opening line) may have made you do some heavy thinking. Losses (of any kind) may have been bothering you. But you know that in faith and spirituality that is true, you can turn defeats into victories. You will re-evaluate and assess your relationships to see what is missing — from your end. This will apply to the work-sphere as well. I still say that this will be a progressive, go-ahead month. This statement can, of course, be interpreted in any way, but there are very specific details.

Also, there is a clear-cut demarcation into two distinctly different types of progress, and yet they are linked. The first half sees you as the social animal, partying, entertaining and being entertained, projecting the best possible profile, full of the glamor and charm I started this forecast with. How you appear to others is mighty important.

MONTHLY HOROSCOPES

Halfway down this exercise, it's the inner you that matters — and to you, not to others, in terms of mental and spiritual growth. You will pursue this advancement seriously and sincerely, in your life, your work, your thought, your emotion, glamor, love, charm are not very high on the agenda for you, but you get them anyway. Probably because of your new persona.

DECEMBER

For December, one word to sum it all up could be comforts. These are what come to you as rewards for your courage, devotion, determination to just hang in there when the going was rough.

It is a very favorable time for finances — taxes, buying/selling, investing for gain and for your retirement/old age. Pleasure and profit come to you through better relationships — at work and at home, in equal measure, or almost. Money and property-related issues are handled by you in a practical and low-key manner. Conciliation rather than confrontation are the way to go — they ensure that both family values and family interactions remain strong and thriving. Loans, funds, wills and codicils — whatever, will be family-based.

Those in the arts perform brilliantly; with earnings to match. You will cut out a lot of wasteful expenses, making your spending and investing in keeping with your progress and prowess, both. A good way to go into the new year.

WEEKLY HOROSCOPES

JANUARY

You are
semi-
compatible
with
Scorpio
and Taurus.

January 1, 2008 to January 6, 2008

A time to look back and relish the fruits of your actions *and* activity both. And let me assure you the fruits are sweet — perks and enhanced benefits; sudden financial gain is definite. It may range from a windfall or legacy or winning the jackpot at the Derby! Just a metaphor to show you how lucky you might be right now. Good times at home with spouse/children/ family are all the icing on the cake. Greater spirituality, too. The year goes out in a blaze of glory where Scorpios are concerned. You have achieved much, grown much, experienced much over the last year. And the important thing is, this will continue well into the year to come.

January 7, 2008 to January 13, 2008

Two strong trends start right now, and will prevail for several weeks, off and on. Your inheritance, ancestry, and your roots and matters to do with property will both be important, and could well be linked to each other. True spiritualism, joy in family interactions, a sense of commitment to the community and to society will be the guiding factors in all your actions — as they have been for some time past. It is this that is as much a part of your heredity too.

January 14, 2008 to January 20, 2008

Scorpios are known to be brilliant performers in the sphere of work and the sheer dedication that they are capable of takes some beating! However, it is not your job/profession that occupies your mind. You know that this area is maintaining steady progress. The ideas and innovations come, but these are not in work-related spheres even though your thinking is precise and scientific in this phase. Love is felt deeply. Solid ideas are shared in a setting/environment that increases affection. You feel the same sense of obligation and commitment as you do in your work. It is the family, your spouse and or children, even the neighborhood that you wish to be closely involved with.

WEEKLY HOROSCOPES

JANUARY

You are
incompatible
with
Sagittarius,
Aquarius,
Aries,
Gemini, Leo
and Libra

January 21, 2008 to January 27, 2008

You are in a mood to take risks, make bold decisions that will impact your progress in the future. A great sense of bravery will develop in you, the courage to not only stand by your convictions but take chances, most especially in your personal and emotional interactions. Even a little risk-taking in finances will not make you as anxious as you were earlier. Your mood is of nothing ventured, nothing won; and it's for family assets and their enhancement that you will plan. Quick and easy gains are sought by you. Think through everything very carefully indeed. Any kind of bravado will not only be foolish, but could lead to potential catastrophe. I am referring to both love and money. Think and weigh up the risk factors in both. Don't make hasty investments.

January 28, 2008 to February 3, 2008

You feel the need for real communication, which is deeper and more satisfying and will reach out to both old friends and new as well as places that could give you what you need. Community relations will also be stronger, and in turn, strengthen you. The focus is definitely on people — friendship and love will be intriguing and complex and you will actively seek the company of hundred souls to share your emotions and feelings with. It is not that work and finances fade into insignificance in your mind. You want to include them in your reaching out, and work alongside like-minded people. The concept of beautiful partnership inspires you to better ways of handling the angles of both work and family. A growing feeling of security and even prosperity could develop from there. It makes you more confident about your decisions too.

WEEKLY HOROSCOPES

FEBRUARY

Scorpios are the most intense, profound, powerful characters in the zodiac with a seething intensity of emotional energy hidden from plain view.

February 4, 2008 to February 10, 2008

From decision-time, you move into hectic action-time. You will find that you really have a lot on your plate. Suddenly, all the spheres of activity will seem to be galvanized. Spirituality, family life, community and social welfare, mental challenges, emotional needs are what you now try to handle successfully — and succeed at, for the most part. A lot of effort and thought is necessary, of course, but you don't grudge it. Finances which are linked to inheritance, family funds, ancestral property, will seem to be a big issue. In any case, this is a monthly trend. Your ancestors, parents, older people in general will be important to you, not just for their mature counsel. Togetherness with them yields realistic help and shared planning. You will feel relief from your anxieties. From past experiences and memories will come the inspiration to move ahead.

February 11, 2008 to February 17, 2008

You've been both thinking hard and working even harder. Future plans may now be in place, after the new moon phase. But you still need to sort out the required finances. Careful planning of the required investments and of your own resources will both be necessary. You want to raise the money yourself, through your own efforts and work. Connections made now will add efficiency to your work as well as to your handling of money. However, it is not only work and financial matters that keep you occupied. Amusements, fun and friendships, parties, outings, sports, too, will be pleasurable outlets that you enjoy. In fact, there will be marvelous cooperation for your plans and work. Human relationships, though unpredictable at times, will be enjoyable and free.

February 18, 2008 to February 24, 2008

The efforts you've put into making your relationships work have helped you, too. You deal with the requirements of domestic life, office routines/work/business in a contented and happy frame of mind. The deeper values and concerns that have developed are not neglected. In fact, they strengthen your spirit, and support your confidence, no matter what you're dealing with. You are very much a part of this world, with all its troubles, demands and joys, and enjoy the ups and downs, taking it all in your stride. You realize that you have gained much in terms of insight. You will see how to handle funds, friendships, family and have dazzling ideas that give a tremendous boost to your skills.

February 25, 2008 to March 2, 2008

The daily round of work and recreation will be left behind. You will find that neither work nor recreation attracts or fulfills you. New values and concerns are far more vital. They will range from social and environmental causes, to prayer and religion, to philosophy and idealism. All the gains you wish to make are in these spheres. However, you are pragmatic enough to realize that there's no getting away from one's duties and responsibilities. Though you continue to perform your duties, deal with your responsibilities as efficiently and sincerely as possible, certain world-weariness will be experienced. It makes you learn inwards, searching for true faith and greater spirituality.

March 3, 2008 to March 9, 2008

Though you continue your inner spiritual journeys, you're dragged back to the material world and its huge demands and expenses. The reason will be profit at existing business, the starting up of new collaborations/ventures that will pay well right from the word 'go'. One reason for your high expenses is that you will be doing a lot of socializing, partying and entertaining. Also, your concern of last week with welfare schemes related to the community and society will continue to be an important part of your many commitments even financially. You realize that you have to create a good income. You have had to struggle with expenses (both foreseen and unforeseen) for quite some time now. But though they're there this week, too, the god gives you the money to manage them easily. Not on a platter, though, but as your due rewards for your work. It will be a struggle to fit in everything, but you manage it with clever prioritizing, and a little budgeting.

March 10, 2008 to March 16, 2008

You find yourself functioning at two definite levels. Almost all the activities of last week — domestic, social, work/office/business — continue at practically the same pace. But there is a twin theme (remember, the moon's quarter is in Gemini). This will be that of spirituality; meditation, even prayer and contemplation. It is a strong force in your life and has grown to be as important as your work; the good thing is that you are able to manage it smoothly. You reconcile your concerns and interests in both spheres beautifully and harmoniously. Someone you are close to stimulates serious thinking. Deeper communication comes from your new mood.

You will now be so busy that the days (and nights, too) will not seem long enough for you to cope. You will stretch yourself to the very limit so that you can get done all the things you have to do. Most important will be loved ones and family. There could also be legal matters, trusts, ancestral property, partnerships, ties, collaborations. As if these are not enough, there will also be heavy expenses, and you meet them with hard work, burning the midnight oil to meet deadlines. You meet your responsibilities squarely and are able to cope not just adequately but with grace.

March 24, 2008 to March 30, 2008

The tensions that could have been there in the past now lessen considerably. There will be an easy flow in your field of work, and you can see what hindrances there are for personal progress. There will be confidential, even secret matters, private, closed door meetings. It may even mean change or relocation in your office or home. The need for reorganization keeps you thinking, as also the difficulty in keeping so many interests integrated in your daily life. You realize that you have to make the effort. Organization is important for you. Your mood is assessing, quiet, and there is concern for household and family needs. You will prioritize your many commitments and deal with them systematically.

WEEKLY HOROSCOPES

APRIL

Your hobbies and activities have an element of mystery and suspense. You will pursue them until the secret is revealed.

Your hobbies may include collecting items, exploring, and reading.

March 31, 2008 to April 6, 2008

The several themes/pulls of last week now narrow down to two main trends. One is the higher plane of consciousness, the mood of contemplation and meditation and the other is the mundane world of house, home, business, office and other material aspects of life. You will reconcile both beautifully and adapt each to the other. And that's no mean feat, let me assure you. It may cause feelings of jealousy, envy, competitiveness or even dislike in some people around you but, as they say, there are no soft options in life. Take things in your stride. These strangely divergent themes run parallel this week and you may well feel you're functioning or living at two levels and making the best of them, gaining and growing splendidly.

April 7, 2008 to April 13, 2008

The build-up has been there, but now you will find yourself beset with troubles. Perhaps your mood of withdrawing from this world we live in was based on premonitions that things would get you down. This will be a difficult, tricky phase full of troubles and worries. And since it is in the new moon phase, it could persist for some time, in one form or other. Your growing spiritual strengths will now be called into play, and you will make huge efforts to manage well. There will be huge expenses, major hurdles at work, betrayal or even being let down. You will have to deal with difficult choices, and feel that you'd like to lose your temper. The time counsels you to stay calm. In personal/individual terms, you have made gains of no mean order. Don't throw it all away in a tantrum! There could be irritants, I grant you, but you will need to handle them with patience and restraint rather than a show of temper.

WEEKLY HOROSCOPES

APRIL

The diseases with which the Scorpion may be afflicted are swelling diseases associated with ruptures, inflammations, ulcers and acute pain caused through abrasions and blockages.

April 14, 2008 to April 20, 2008

You will have to go in for some major scheduling, which will be necessary as you deal with health problems, home affairs, pets, dependents, children, the aged, as well as community activities. Dedication at work will be crucial, but you will learn how to reconcile it with a search for fulfillment and inner satisfaction. Go where your intuition leads you, and relate with people zestfully. I must also mention adequate rest; it is hard to keep functioning if you're tired and worn-out. The demands on you will persist. It is for you to find proper relaxation and rest. Changes in your living and work-space will be difficult, and will need patient adjustment, too. Once again, we advise patience, tact and keeping a cool head.

April 21, 2008 to April 27, 2008

Relief and respite are not long in coming to you. The great thing is that you yourself are the one, who brings it all about, since your duties to yourself, your family and society as a whole will be paramount for you. You can, thus, sort out matters much more pleasantly and harmoniously. You will find both pleasurable relationships and good allies around you. And that is wonderful because of the sense of security it brings. Also secure is your public image or persona, your respect/worth in the eyes of others. Thus, it is a week full of marvelous gains, all told. To add to this, your personal life and your family interactions will be further eased. Some long-delayed issues which have troubled you and your family (immediate or extended) will be resolved to your satisfaction.

WEEKLY HOROSCOPES

MAY

Scorpions possess enormous tenacity and willpower, with sensitivity and deep emotions.

They can be too demanding and unforgiving of faults in others, aroused to anger quickly which may create enemies, sometimes for life.

April 28, 2008 to May 4, 2008

You have gained much in terms of improvement/building of both your character and personality. These are huge advantages to you in this week, and its demands. Worries and troubles will return. This happens to us all, so you will deal with them with greater determination. You have had a respite from them, and the rest has renewed you in terms of vigor, original thinking, even patience in your approach. You know that good times too come, and are able to cope better. And that's what success in life is all about — learning to cope well. In any case, there is good in terms of easy money, lots of socializing and interaction, the exchange of ideas. You are aware of the need for harmony and graciousness in your interactions and therefore, will experience a sharp rise in terms of personal credit too.

May 5, 2008 to May 11, 2008

You find a certain easing of your tensions and stress. There's a good dose of socializing and entertaining, but new demands on your time, too. Prospects for the future will be considered, too, now that you are able to think about them more definitely. It will seem that the troubles that beset you all these weeks are finally lessening, leading to the easing of tensions for family and you, and there will be interesting happenings, the flowering of far-flung contacts, especially friends. They not only bring pleasure and excitement, but also suggest ways of fulfilling your ambitions. Some contentious family or legal issues will ease, also guests and family will come together to expand the pleasures of home and community.

May 12, 2008 to May 18, 2008

Creativity in your sphere of work will lead to greater progress, this is an obvious fact. It may also lead to easing of the stretched finances. You will have the income to cope very comfortably with your expenses. There will be entertaining, hospitality, some good times with family. You turn to people — both loved ones and social contacts as your strength. Both your family and loved ones, on the one hand, and your own work, on the other, give you satisfaction, fulfillment, joy. It is this that helps you both at work and in meeting family commitments. It leads to all-round improvement and greater satisfaction in your life.

WEEKLY HOROSCOPES

MAY

Three great evils are apt to dominate Scorpio people.

These are anger, jealousy, and passion, and if permitted to hold sway will destroy their integrity and ruin their lives.

May 19, 2008 to May 25, 2008

In this second full moon phase in your own sign too, you are inward-looking, quiet, thought-filled, contemplative. Please note I have not included either 'serious' or 'depressed' — because that's not true. New avenues, new paths of progress, vistas of learning and earning, study and enterprise will be weighed up, thought about. There are journeys, ceremonies, PR exercises, domestic shake-ups, new ideas and inventions for you to deal with as well. It is definitely a time for starting afresh, with new beginnings at different levels. If you are detached about other people's subconscious fears, there will be achievement in no uncertain terms. Even problems in organizing everyday tasks will meet with success and that's good, by any reckoning.

May 26, 2008 to June 1, 2008

Scorpios are good at both — money and spirituality, or at least consider both to be vital for quality life. You use original techniques but good sense and restraint, in handling funds, capital, and joint-finance. You display an almost lethal combination of moral integrity and savvy that is virtually unbeatable. A kick-start to both financial and spiritual spheres therefore comes in this quarter, so that both zoom along to your satisfaction rather than surprise. In addition to personal progress and growth, you can also focus on family welfare.

June 2, 2008 to June 8, 2008

Projects, work, business may all have unexpected snags or be held up. In addition, there could be strain, health hazards/ill health perhaps even a stay in hospital. I have told you the worst-case scenario first. It is better to be mentally prepared — that is what astrology is meant to do, not change even-thing to make it picture-perfect. You will need not just determination but dedication as you'll still have a lot served up on your plate right now. Your personal equations, too, could be rather demanding. Vital money issues will need to be handled with both insight and care. Quick moves, even though clever, may not work out. Take it easy.

June 9, 2008 to June 15, 2008

You may feel that I was being too alarmist and over-pessimistic just above. Secret and confidential matters, tax and legal issues will keep you busy, along with family commitments. Even though temporary, you will find that there is a lull in the storm we mentioned. You will feel that going where you want to be spontaneously is possible after all. You will feel a sense of direction in your efforts and activities. In that respect, you will enjoy both your work-space and your home and the pleasures of community and home will be enhanced. Friends may go in other directions, but we advise that you stay calm, focused. In fact, your personal equation with your work will undergo a transformation, and could lead to prosperity and growth. That's a great thing!

June 16, 2008 to June 22, 2008

A Sagittarius phase often brings focus, and that's what you get — around your immediate family and loved ones. Even financial transactions that you make now will be those that benefit your family. You feel beautifully satisfied in your work and even make some sacrifices for the sake of order, routine, good results. Just make sure that your loved ones know how much you value them. Your very personal relationships will make demands and you have to fulfill them, as child, spouse or parent. All your special interactions will revolve around this. But there is joy and fulfillment as a happy outcome.

June 23, 2008 to June 29, 2008

What you get this week is a zest for life and living and a harmony with your surroundings. This harmony will also spill over into the social scene and the individual. Socially, you wine and dine parts, amuse yourself and others and meet stimulating people. Individually, you want rest, ease and repose rather than stimulation. A relaxed frame of mind leads to greater enjoyment of life. You feel you have not only understood this, but made it a wholesome part of your life. A calmer and much happier phase sets in for you now. You might feel that you are zeroing in on goals, targets, and objectives. These are not only material, but spiritual and moral as well. It all adds up to a great sense of well-being, not to mention greater faith.

June 30, 2008 to July 6, 2008

Refreshed and revitalized, you are filled with the desire to change tack in your voyage through life. You travel, or change locations in terms of work/home, or both. But you also change tack from the mundane to spiritual pursuits, the study of philosophy, greater learning. Actually, you may have been feeling as if you're cut off from home-base or lacking in direction. At any rate you are restless, if not dissatisfied. You are striving for both mental relaxation and peace. You get this also in the warmth of personal relationships. There is far more balance and harmony in your thinking. It certainly makes for greater satisfaction and joy than before. It also gives you a far greater sense of purpose.

July 7, 2008 to July 13, 2008

A certain kind of caring, bigheartedness and generosity characterize you in this week. When they decide to give, Scorpios do not stint. They give their love, their money, their support and cooperation with no holding back, no reservations. You do it for the larger concerns of community--society, for the less privileged, challenged and deprived people who need financial, moral and social support. The harmony surrounding you is very gratifying and inspires this giving. There are gains from or in property, and other benefits coming from the order and routines you have created. The time gives you other reasons to be happy, too. Pleasurable relationships with loved ones/ family, and truly free-flowing connections make you want to give of yourself, every way you can.

WEEKLY HOROSCOPES

JULY

Each sign has a part of the anatomy attached to it, making this the area of the body that is most sensitive to stimulation. The anatomical areas for Scorpio are the pelvis and reproductive organs.

July 14, 2008 to July 20, 2008

You feel you deserve to live better, head for the right opportunities, inspire respect in people both for your person and your ideas. In fact, unexpected and unplanned though your spending may be, you enjoy the results. You realize that you have a strong desire to pamper yourself, too. All the generosity, the open-handedness, the giving of last week continue in this week as well but money flows through your fingers in yet another way — shopping for yourself, your home and family. Even clothes, jewelry, accessories. No expense is spared. The reason is — a rise in your self-esteem and feeling of self-worth. You now feel that you deserve better, if not the best!

July 21, 2008 to July 27, 2008

Your mind, your behavior, even your relationships will be relaxed and easy; there is also style, grace, compassion and humaneness in all that you think, feel and do. You have continued to grow spiritually, and also in your total outlook/philosophy of life. Now you reap the benefits. Firstly, this reflects in your far more accepting attitude, so that your loved ones bask in the warmth of your care and affection. Secondly, you can wring the maximum from life, not only in terms of pleasure, enjoyment, excitement, but also rest and true relaxation.

July 28, 2008 to August 3, 2008

A phase in which you feel yourself to be hard done by, or that you haven't got all that you deserve. It may find you asserting yourself, your rights and wishes and also sorting out private matters, confidential affairs, secret information. You may even think about, or execute, a change of career, or job or even your home. If nothing else, your work space and the domestic set-up could be totally reorganized, revamped. It's not as easy as it sounds. Both your expenses and your responsibilities — at home and at work — will show an escalation, along with the demands on you. Careful handling and a conscious effort to shun resentment, think positive and work harmoniously will give you much.

August 4, 2008 to August 10, 2008

You have broadened not only your outlook, but perceptions of people and your communication with them. Love is true and romantic. You experience empathy and sharing with the special person in your life. In addition, those in the media and fields related to publicity shine at work. You will also find you adding to your income by investing wisely and well. That's great, and so will its benefits be. You will achieve more financial security, and a strengthening of family as well.

August 11, 2008 to August 17, 2008

A comfortable phase, in which there will be easy flow of good things in your field of work, and greater enjoyment. This will not pertain only to work. Prosperity will come from your inspired efforts, original ideas, and techniques. Recognition of your worth will come and be rewarding. You might worry too much about the household schedules, routines. Try for smooth sharing. It will make life easier for everyone. You are willing to meet people half-way and it helps! Worries do tend fade away. If not now; you realize it will happen sooner or later. You are willing to wait.

August 18, 2008 to August 24, 2008

Here comes a when both professional/work demands and responsibilities as well as financial ones will increase very suddenly; rapidly. You are aware of hidden restriction or barrier the family scene, particularly your children give fulfillment. Travel too, may be full of confusion, if undertaken. You may feel it difficult to communicate with people who are sour, if not bitter (The tastes are mixed up, but I'm sure the meaning is clear). I'm sure it's also an incentive to stay calm, pleasant, focused; it will make you cope with everything efficiently.

WEEKLY HOROSCOPES

AUGUST/SEPTEMBER

Relationships with Scorpio are always complicated, just like the person, their relationships are a series of extremes, they can even be downright moody for no apparent reason.

August 25, 2008 to August 31, 2008

You feel full of energy and vitality. You can give work, in fact, life itself your best shot. So can your children who will satisfy you by realizing their full potential and talents. There is no room for doubts and despair. You are aware of both your rights and your duties and want both in equal measure. Spiritual gains, supernatural, metaphysical and esoteric aspects of life, faith and religion draw your attention greatly. The time counsels you to make haste slowly. Don't try to take on too much. There will be small upheavals on the house/home front but it will be easy for you to cope with them in your present state of mind. Money and perks will be there in larger measure, so that quite a few family tensions ease.

September 1, 2008 to September 7, 2008

You'll be working hard, but with a sense of enjoyment. You are doing the ground work for future glory, fame, recognition, achievements in both finances and domestic life. And the manner in which you go about it is not dogged or diligent; it's full of flair and brilliance even though you work hard. What I mean is you're not plodding along; you're soaring to impressive heights of achievement and success. Glamor and satisfying power in your sphere of action/ work will come to you. You will head straight for the opportunities you can perceive, full of original ideas, creativity, skill, enterprise, innovations — the works, in fact. You will leave the opposition far, far behind!

September 8, 2008 to September 14, 2008

A busy schedule to cope with now. The time for quiet and peace may seem to be completely gone. You would certainly be justified in thinking along these lines as you take on what this hectic phase brings. Both family and your profession exert their pulls, but right now, it's work that you'll concentrate on. All at once, you're back to square one in terms of worries and tensions. You may justifiably feel that the good times were just a flash in the pan, and that this is the reality you have to live with. But you cope magnificently. You deal with campaigns, ceremonies, workload, public matters but there is a good fallout coming. You can almost see it. What you can also see, almost, is that there will be intangible and far more valuable gains — in terms of strength of will, ideas, and the capacity to persevere.

WEEKLY HOROSCOPES

SEPTEMBER

Sex with Scorpio is a total emotional and physical experience with passion and intensity. They have amazing stamina and can last all night long, round after round. Scorpio is the zodiac sign that is the most likely to act out a sexual fantasy.

September 15, 2008 to September 21, 2008

The full moon brings peace, a calm mind, and a mental poise and balance that saints would kill for. You are not out to renounce the world. No way. It is neither necessary, nor desirable, you feel. You can manage it all in the midst of this material world, with your commitments and your duties. It is in this world that you gain in terms of faith and prayer, spirituality and meditation. You are truly not greedy for the fruits of your actions —just concerned with the right actions. This makes for greater harmony at home, better relationships all round. Of course, there is much more efficiency at work, too. You will enjoy power and authority in your work, helping people feel more love in the midst of things, because you accept their limitations compassionately

September 22, 2008 to September 28, 2008

Marvelous gains come now — good ideas at work, streamlined procedures, clever moves. This is the combination of philosophy and street-smartness that can have you doing the right things, in terms of growth, prosperity, personal progress and family welfare. The almighty gives you the patience and organization you need, as well as spirituality and moral values. It will help tremendously at work as well as in family interactions. Personal relationships of all kinds will be developing. Good people are your allies in travel or adventure, beautiful friendship comes from mutual sharing — of ideas, time, perhaps even money. Overseas connections could develop; so also liaisons, meetings, quiet rendezvous. Journeys will have to be undertaken and will add to the demands on your finances. This is a phase of very, very high expenses, but you do a good juggling act and manage!

WEEKLY HOROSCOPES

OCTOBER

The ongoing lesson in life for those born under the Scorpio zodiac signs, is to channel their powerful energy into positive goals and not succumbing to the darker forces in life such as manipulation and greed, they will then have great success in their life and have a clean, happy conscience and a circle of friends they can trust and hold dear to them.

September 29, 2008 to October 5, 2008

Rewards for your perseverance and determination are not long in coming. It is in this month when you will see the fulfillment, the coming to pass, of all your dreams and ambitions. Your popularity with others, the warmth and love, caring and sharing are as never before. Fun and laughter, glitter and brightness in family gatherings and outings, ceremonies and parties. You will be greatly appreciated, much in demand. The family bonding is so strong that the petty conflicts that arise are easily dealt with. You hold on to your temper and maintain the unity and bonding in the family. It's what you've striven for and you won't let it go.

October 6, 2008 to October 12, 2008

What we saw last week was a monthly trend, so the faith in yourself, confidence and determination are seen now, too. You can make almost superhuman efforts, and you do so with ease. Targets, plans, deadlines, assignments — you take them all in your stride. In fact, you develop innovative new techniques and practices to perform well. Efficiency and output at work are wonderful but that's not all. You give an equally good account of yourself in love, fun and frolic, play and amusements. The going is truly great, and so will the glory be. You feel good about life.

October 13, 2008 to October 19, 2008

This is a phase when you're right on the ball. All those who come into contact with you and are around you, will be influenced and infected with your own energy, enthusiasm, optimism and confidence. It makes work seem like a breeze. In you, this not only reflects in work, associations with superiors and colleagues but also in matters of the heart (i.e., love) and home (i.e., family and friends). At the same time, as if this were not enough in itself, you have a growing inner life hidden from the world. The strength of your spiritual growth is yet to manifest itself but it does give you humility rather than pride in your achievements. You are really nice to know right now.

WEEKLY HOROSCOPES

OCTOBER

Scorpios have a fear of failure which they keep hidden extremely well, should their confrontation not be successful, or their career fail, they will simply use their adaptive skill to quickly move and leave the bad experience behind.

October 20, 2008 to October 26, 2008

Your faith in yourself will help you undertake a total re-evaluation, re-assessment of your home and your finance. An easy flow of good things goes on in your field of work and you have a lot to spend. Of course, this has been made possible only with extra effort, which you have not spared. Rewards and recognition therefore come, and appreciation of your worth too. Luxuries and comforts for the home, even masterpieces by artists you like (if you're in that league), so that your home has the style and ambience you desire. Along with enjoyment, you sense opportunities for good investment and you take the trouble to investigate them before you take the plunge.

October 27, 2008 to November 2, 2008

Your birth month sets in with a flourish, stepping up your activities and achievements. The trend is strongly for love, fun and laughter, a wedding, engagement or equal bond occurring. You will also focus on hobbies and creative skills. You seek to fulfill your creative, constructive impulses. It's a different matter that they can prove lucrative. Also skills in speculation, gambles, the luck of the draw in games of chance, in short, easy money. At the same time, there is hidden treasure as your mind pursues knowledge, psychology, parapsychology, rebirth and reincarnation, the laws of religion and karma, the whole cosmic cycle of death and life. Scorpios have the depth of intelligence as well as the spirituality for this.

November 3, 2008 to November 9, 2008

A strong sense of identification with the past comes to you in this phase. It is a time when you appreciate the old ways of life. You'll take a stroll down memory lane, reliving old memories in a nostalgic mood. Let me clarify that the mood is nostalgic, even sentimentally so but you don't hanker for what has gone and cannot return. You do not wish to in the past, only to see how you can improve the present. And you will thoroughly enjoy making acquisitions for your home and family. Once again, gadgets, comforts, even luxuries will be spent on willingly. You have been energized in every sphere of activity in the last moon phase which was in Scorpio, and your activities this week are a continuation of that trend. Go to it Scorpios, you certainly deserve it.

November 10, 2008 to November 16, 2008

A very hectic, trying schedule will once again have to be followed. But your confidence, credit, and calm handling make you take in your stride all the demands of your huge work-load and also the petty squabbles and conflicts that may arise. You have your sights set firmly on success, and the clever insights to make things happen to your satisfaction in the family as well. You are stabilizing matters connected with partnership, money, travel. People may cause setbacks, but you try (and succeed) to remain calm. Therefore, no dazzles and splendor. Progress comes subtly, and is steady and very easily maintained.

November 17, 2008 to November 23, 2008

Your attitude to work will be exemplary. And the results come. In addition, your work is bringing out depth of character. Mutual projects go smoothly and you share assistance on projects; you relate beautifully with those who have proved to be true friends and loving co-operators. Useful discussions further your aims. Household and family matters are reaching a point of harmonious resolution. Sports and games too enliven and brighten your mood, even if there are wrangles and tangles to sort out. I sum it up — progress with harmony. It is something you have been striving for, for quite some time. You will be stabilizing, even streamlining your work, but new directions are enjoyable and satisfying. In fact, both work and personal relationships are handled smoothly and come together as a whole.

WEEKLY HOROSCOPES

NOVEMBER/DECEMBER

Scorpios have a problem handling liquor. Of all the signs in the zodiac, alcohol has the worst and most immediate effects on Scorpio's looks and skin. It is toxic for their system, it intensifies their already volatile emotions, and most Scorpios don't know how to say no to a second drink.

November 24, 2008 to November 30, 2008

The moon phases often influence the main theme of a quarter, I find. In this phase in Sagittarius, there is proper focus (I'll go into detail later) and success. Let us look at success first. This is both material and spiritual. Loans, funds, joint-holdings will go smoothly. Also any legacies or legal issues which you have to deal with will find you putting in the extra time and effort to see them through. That is all good, of course, but what is even better is your focus, and reliance on your faith, growing religious and spiritual beliefs and trust in the almighty. This is what sustains you in your activities and yields dividends of no small dimension. The name you choose for the Lord may vary from others, but there is no ambivalence at all in your faith and sincerity.

December 1, 2008 to December 7, 2008

Your growing spirituality has eased your mind and spirit. In this peaceful and calm state of mind, group activities and team work are not only satisfying, but yield the desired results. You're part of a group of people who are sharing deep problems with you, and highlighting human dramas. They respect your ideas, so that you come into glamorous and satisfying power in your sphere of work/action/even karma. This also helps you deal with equanimity with community matters, domestic conflicts, even some competition or at least, healthy rivalry. At least, that's how you perceive them. They spur you on to greater effort and greater achievements. You realize that the demands of this world have to be met. There can be no peace otherwise.

December 8, 2008 to December 14, 2008

You experience a beautiful sense of freedom to do what you want and go where you please. Equally dynamic friends share with you in all your pleasure and progress related activities. Most importantly they share deep awareness, as well as hearty amusements. That's what friends are for, the free exchange of thoughts, ideas, and aspirations. You are put in touch with just the right people for bettering your money scenario, or making connections with what you want. Even more important will be communication (all the media and methods possible) and travel, too.

WEEKLY HOROSCOPES

DECEMBER

Yes, all children need to be loved, but Scorpio children need to be loved at such a deep personal connected level. The worse thing you can do to a Scorpio child is to ignore them. They feel emotionally abandoned and never really learn to trust anyone again.

December 15, 2008 to December 21, 2008

There is a great upward movement in your self-esteem and a matching rise in actual status, prestige, recognition, public esteem. New ventures and projects will not only be considered, but might even be initiated. I do hope you've studied all your project reports, projections, contracts very thoroughly and minutely. There could also be losses/theft/accidents, so care is necessary especially with money/assets. Once again, it's time to deal with the entire gamut of finances. The range is from home/ domestic funds and budgets to high finance, capital formation, company funds and profits, stock options and holdings. Good investments could happen. Energy, faith, self-confidence are there, but no unnecessary risks, please. There is no need, and your own efforts and ideas will give you all you need — and more.

December 22, 2008 to December 31, 2008

In this final week, your go-ahead, get-ahead mood still prevails, since you have progressed so much. Change and relocation are still sought, but at a different level. You realize that deeper understanding is not only possible but desirable. You want to see a transformation in both your work and your personal relationships. There may be travel, but it's not necessary to fulfill your zest for adventure. There can be zest in how you relate to people. That's as good as actually doing something new and different. You will reinvent yourself, as well as your relationships; create romance and emotional bonds in your life. In addition there is a prediction for giving, so philanthropy, alms-giving, charity, sympathy for the less privileged. A fresh new mindset emerges now. You can take criticism and carping at face value and deal with them with both good humor and understanding. It helps you face the future with equanimity, even joy.
