# ABOUT ASTROLOGY

Astrology is often defined as the study of the influences of the cosmos on life on earth.

The zodiac is the belt or band of constellations through which the Sun, Moon, and planets transit across the sky.

Astrology is a science related to the heavenly bodies. It is the study of the movements and positions of the sun, moon, planets and stars, and the skill of describing the expected effect that these are believed to have on the character and behavior of humans. Astrology is not at all a fortune telling. It is one of the successfully tested methods for man to learn about who he is, where he came from and where he is going. Astrology reveals CHARACTER and character makes your destiny.

The main uses of astrology are analysis of health and sickness, character psychoanalysis, professional guidance, analysis of children's horoscopes so as to give parents a better idea as to how best to raise their children, and analysis of the compatibilities between people.

Astrology does not show anything but tendencies. A man can dominate his stars by exerting his determination. If a man decides to flow with the wave of life, then the tendencies indicated in the birth chart could be observed in that man. Astrology forewarns and being put on alert, a man is thus in a better position to cope with the struggles of life.

There are three aspects which bring to us the mystic message of the stars - the houses, the signs and the planets. Each house represents a section of life; the signs are divisions of the heavens which by their placement relative to the houses indicate our basic temperament and attitude towards life and the relative motion of the planets through the houses are the messengers of the god which bring to us the opportunities.

## **About Sun signs**

Your sun sign represents the sign of the zodiac that the Sun passed through at the time of your birth. The Sun rules your essential personality, your ego and your willpower. It represents the core of your potential and your distinctiveness as an individual; it is who you are and what you are about.

The beginning and end dates for each of the signs can vary from year to year. Cusp is the border line between two adjacent sun signs. If you were born on a cusp, you may have some qualities of one sign and some from the other sign.

## KNOW YOURSELF

You like affairs and making conquests and a good sex life is important for you though you can be sentimental in love and romance.

No one can question your loyalty and devotion.

Taurus is the sign of manhood, strength, stamina, perseverance and potency. You are quite calm and serene, but when bothered, you will turn wicked and dangerous. You also like your life to be stable and not perturbed with sudden changes.

You have an air of reliability and sensibility about that makes you quite valuable. You have an inherent urge to create and build stuff that is why you are impeccable when it comes to managing money, men and tasks. You are quite attracted by the luxuries that come with money and are ready to work for them. You also have a hospitable, and a epicurean side to your personality and have a tremendous urge for physical pleasure.

You are consistent with whatever they do or say, as you don't have a tendency to change opinion; your temper is also quite distinctive - short burst with no prior caution. Even Taureans are quite moody, and like to keep themselves immersed in their work. You are the ones who get restless and mischievous when idle. You do care a lot about your family and friends. There is a double world within you, a normal world and another spiritual and enigmatic to the extreme.

Qualities that make you lucky are realistic, reliable, openhanded, and arty. Qualities that hinder your success are possessiveness, stubbornness, lethargy, and self-indulgence.

# 2008 FOR TAURUS

As a friend,  
you can be  
patient,  
persistent  
and  
persuasive.  
A good  
friend, if  
not an  
outstanding  
ly brilliant  
one, willing  
to give  
freely  
regard to  
time,  
money and  
practical  
advice.

This year for you, it's all about undertaking new projects and gaining in authority and verve in your professional sphere. You will be at your creative best, you will start coming up with ideas and schemes that you never believed you could, so believe me when I say that this year is for you to go with the flow and see how it works out. What I mean to say is that you have these adventurous ideas, that even you are a little scared to work on. But this time, you have a good feeling about this, and you just have to go for it – no guts, no glory. But that does not mean that you are justified in not making any double-check that you could have.

There will be plenty of new opportunities coming your way, but for them, you might want to complete the pending work as soon as possible. There is the odd possibility of education of some sort. Not a lot of traveling for you; not that you like it very much, but you might want to make that all-important trip.

Saturn can get really hard on you in the middle of the year. There might be a few disappointments or setbacks. Some kind of a great responsibility will be put on your shoulders, in the personal sphere. That might mean an engagement or the birth of a new child. It is a commitment, but it does not have to be a burden. One way or another, Saturn will make take your responsibilities, and what's more? You will walk out of this a much more mature person.

This year is quite favorable for marriage, and matters of law. Don't get the impression that the two will be related, but the possibility can't totally be denied. Your courage and convictions are your strongest qualities, but it might hurt to get a little to pigheaded.

# MONTHLY HOROSCOPES

As a father, you may find the generation gap rather wide between you and your children, but you will have to make the effort to bridge it and change with the times.

## JANUARY

At the start of the year, you are more of an idealist and visionary. You look ahead and plan for the future and your view is far-sighted. Down to earth, too. The over-all vision is long-distance in terms of connections to distant lands and travel. Lofty ideas share space with down-to-earth practicality and you think of, or look for, the best options possible for you and your loved ones. Please note that I have used this phrase — 'down-to-earth' — repeatedly. The reason is that it is on this earth that we live and breathe and aspire to a greater world, a greater vision. It is this version that gives you the right moves, in terms of finances, professional choices, and sheer hard work. The daily grind becomes something greater than just that — and more profitable, too.

Glory and achievements may be seen later, right through the year, from the fine start this month gives you. The most important aspect will be added: spirituality, wisdom, religious leanings. Faith in god will lead naturally and spontaneously to faith in yourself. And you want it to be a justifiable faith, not just overweening pride and ego coming from over-confidence. You are therefore keen to improve not only your own perception of yourself, but also those of others about you. Higher study, research, the latest in computer software, e-commerce, info-tech — you want to be up on it all. A genuine desire lies behind all this, but not the desire to impress. It is a sincere wish on your part to evolve to a better human being, with a deeper and true understanding of life. You also look at the practicalities of living such a life.

## FEBRUARY

A somewhat tense and fraught beginning to the month, as despite the gains in terms of idealism and true mental uplift that January brought in, now you find earthly matters preoccupying you. Certain issues of prestige and status are possible. Here, we advise you to avoid confrontations and build-ups of tension. You'll have enough to worry about in terms of health care for older people dear to you.

In financial matters, domestic funds, budgets and spending are important. You want to establish a pattern that leads to security in the future, money-wise. You will need to make some tough decisions in the immediate as well as long-term planning that you undertake. It will make you somewhat

# MONTHLY HOROSCOPES

As a mother, you have the tendency to be possessive and over protective. You will do all you can to make your children behave well and look good, scrimping and saving, if necessary, to give them good clothes, fun times, even music lessons. You must also accept that you are not very adaptable and learn to move with the times to avoid losing or alienating them.

unpopular in some respects, but the wisdom of your decisions now will soon be borne out and yield marvelous results — even more than hoped for. Idealism has come to stay, so you want the best deal for yourself in terms of job-satisfaction and the feeling of being worthwhile in your career/vocation/profession. Even business ventures will be viewed in that light.

This does not mean, however, that you choose to neglect home and family. Taureans are very- much in the material world. sometimes even detrimentally so. All your assets and belongings related to home and property are initially important this month. Job-wise, it is definitely the level of happiness you get from it that's important, rather than what you earn. Therefore, one could sum up that money and material concerns will remain the main focus this month.

## **MARCH**

Your clever financial moves/decisions/even cut-backs will start to yield great dividends. Social and financial gains may both happen. Sudden material gain like lotteries, legacies, windfalls can't be ruled out either. What I personally consider to be your greatest gain however, is in your growth as a person who has, in today's parlance, a vision and a mission — living life totally in terms of your personal and personalized values. By this, we mean that they're so deeply rooted that they are truly a part of your life, and your innermost soul. The great timing is that your beliefs and values will now dictate your life-style as well as attitudes. It will invest all you do with the aura and glamor of true achievement.

Spectacular success and gains come. But it's on the social and party scene that you sparkle. Club/societies/organizations will find you a valuable member. So also will your family — in terms of shared affection and warmth. Tremendous excitement in the fields of love and romance will have you deeply involved, perhaps even too much so. I know: I have used a lot of superlatives, but those are the words which come to mind. Visible success like yours this month could — not will attract some envy/ bad-mouthing, though.

# MONTHLY HOROSCOPES

Ideal Careers for you are banking, architecture, building, almost any form of bureaucracy, auctioneering, farming, medicine, chemistry, managers, singers, chef and acting.

## APRIL

A much quieter month — the lull before the heightened activities of May, your approaching birth-month. The flare of brilliance that seemed to light up your life will die down. Let me console you by saying that they always do. Expenses and demands on you will seem to be beyond control; and there could be some loss to cope with as well. You may feel that you're being held back, confined, restricted in all you seek to do and achieve. Even travel and commuting will be somewhat troublesome, or perhaps create anxiety. I have deliberately listed all of these first. I'm not painting a totally gloomy picture. You'll have the strength to bear up to trouble with fortitude, the insight to be able to say "These things happen". Lots of good things have been happening to you, so you learn now to take the bad with the good. This is an achievement in itself, but when it's added to the spiritual and the humane (which you are now), it's no mean feat. You handle humanitarian/welfare activities with sensitivity and make great efforts to maintain harmony in your personal life. In addition, you also acquire tact and diplomacy, especially when dealing with bosses and superiors.

## MAY

All-round activity keeps you truly and hectically busy on almost all fronts — home and office, family and society, personal relationships and professional ones too, where (a) you will shine personally, embarking on a total self-improvement plan, (b) despite challenges on the work front, you will almost certainly re-look and re-align your career and professional plans and objectives. In fact, this too is a form/kind of self-improvement exercise. Personally, you strive for a better look, better health and physique, better clothing, the works. By extension, a better job, too. There is a possibility of a dream coming true, a wish-fulfillment.

It could apply to the professional/domestic/marital/emotional gains you aspire towards. The build-up, has been there from March but it comes to a head now. In your birth month, there's a lot that you're doing, thinking, planning. Let's start with the financial angle. Gains are definite, so too is increased income particularly from business. Despite being generous, you will think seriously about economics you can make, and do some very useful budgeting — more for business than domestic expenses. I spoke of this trend in

# MONTHLY HOROSCOPES

You like stability, being attracted, things natural, time to ponder, comfort, humor, honesty, and pleasure.

March itself. You also can't afford to socialize too much. You are advised to restrict it to the family and close friends who will give greater joy, anyway. Moreover, you can't afford it, health-wise, too. Where you can afford to be generous and extravagant is with your personal interactions, especially with your loved one/mate/partner/ spouse. The greatest gains will be in terms of 'love returned' and joy.

## JUNE

The gains of last month earn on through this month, too. Both in the home/family scene and the work place, you will get things organized to your satisfaction. Where you really score, though, is in popularity and social standing or status, which are both greatly enhanced, enlarged and improved. Social gatherings find you at your best, attractive, charming and scintillating. You may find it easier to relate to your spouse, family and loved ones. People in fields related to publicity, media, cinema (different forms of showmanship, I suppose) will do brilliantly. All this though, could trigger off some stress, problems of attitude and balance (mental stress) or of health. These could happen anyway, but you still need to take adequate precautions.

Use your common sense, practicality, as well as your ideals to de-stress yourself. Don't let things matter too much, or over-react to small setbacks and differences of opinion. You will have a lot going for you, if you do so.

Improved finances, most definitely, especially around the middle of the month. You may, as I said last month, have made drastic changes in your angle of work/ profession and they may already' be paying off. Additionally, you concern yourself with taxes, property and a fair amount of buying/selling. The last two could be trade, export-import or property-related. Whatever the personal variations, in all probability, money-matters will take up a lot of both your time and effort. But the gains will be more than worth it.

## JULY

With the financial scene in order, you are able to focus and concentrate now on people — especially those who matter to you. Relationships are, therefore, all-important, and I mean here the entire range from twosomes to social gatherings. So are your hobbies, entertainment, romance, children. You try

# MONTHLY HOROSCOPES

You dislike disruption, being jealous, being pushed too hard, synthetic, and being rushed

to work out disruptive and contrary pulls to display logic, reason and good sense so that you can perform more brilliantly at work. Recognition of your achievements as well as attitude to work will come — and yield satisfaction.

They could also yield better finances, bonus, perks and such but it's in your people-skills, infractions and communicating that you will be a crowd-puller. Other people are important to you for ideas, inspiration and the free exchange of opinions and ideologies. All this is hardly possible without contacts and communication; and web-chats have literally turned the world into a village where you exchange gossip with neighbors over the garden fence. But for you it's not gossip but the exchange of mental stimulants, leading to greater creativity, greater merit and therefore better money. Though truly speaking, it's not money that's motivating you right now. You're marching to a very different tune right now—and a far more exhilarating one of ideals, visions, optimism.

## **AUGUST**

You're totally entrenched in your home environment, your personal space and bonds this month, so that the immediate family will be important. Hence you try to improve the environment you live in. This takes you into closer bonding, greater warmth, a willingness to adjust, give leeway and make allowances. I could go on and on, but this should suffice to convey my meaning. Equally, you add comforts and gadgets, even new decor to the home so that it's not just a safe haven, but a comfortable retreat from the cares of the world.

Your parents, in-laws, older relatives are drawn into this cozy warmth. You remember old times even as you handle property-related matters, and you also try to provide yourself with security. The past, present and future fuse for you this month. Strange but true! It will explain itself when the time is right — and astrology means the right timings as I say over and over again. All I can definitely say, however, that it will resolve around personal and family ties, for sure. They will be paramount. Home and family time, most definitely and strongly.

Now this will range from your going back to your roots, handling ancestral property/wealth/assets/legends/

# MONTHLY HOROSCOPES

You are most compatible with Cancer, Virgo, Capricorn, and Pisces.

relationships to providing for your own old age. You do so also in an attempt to find yourself internally, and reconcile any conflicts and complexities you might have been inwardly prey to. Your desire for security and your own comfort-zone will dictate your actions, and yield the results you want if you choose the right action.

## **SEPTEMBER**

You feel that you have taken too much time out and re-enter the rat-race at a pace that's fast, furious, perhaps even frenzied. You may tend to be in too much of a hurry to be careful of other people's feelings. Or, perhaps, you don't yet know how exactly to express opinions without inflicting hurt. Hurting your spouse/mate/loved one is likely, so do mind how you tread.

In fact, financially too, this last bit applies. Don't run after imaginary gains that you perceive. This could apply equally to assets, finances, love and romance, even sexual/passionate encounters. The stars advice you to make haste slowly, tread carefully, avoid inflicting hurt through rash moves, neglect, or harsh words. You have a lot going for you — hold on to it. It's a superb time for pleasure, more sober than the last two months have been.

You think of romance, holidays, sex, good food, good times, entertainment, your children and your own creativity. Yet, lurking at the back, strangely enough, are some spiritual and psychic insights. You may feel the need to rise above the enjoyment of the life of the senses, but you enjoy it all the same. This will be a recurring theme through both this month, and the remaining months of the year. You will therefore need to go back to the ideals and values of the first few months of this year.

## **OCTOBER**

You have taken our advice to heart and acted on it at once. The results will be matching in their immediacy. Your ideals, your desire to work for society, the betterment of the community, of adding to the quality of human life are all global in range, if not universal. So must your work be. Financially, you'll truly be in a mood to give. Be it servants, subordinates, employees, colleagues, children, even charity, flood and war and famine relief — they all receive large from you.

# MONTHLY HOROSCOPES

Paradoxically, you might display ego, pride, even self-interest in your personal relationships so that you might hurt the other half of the equation. Get your priorities right; do simple, joyful things together even if its a film, a walk, a shopping trip, so that you know that your loved one is as important to you as you are to yourself. I assure you, it works. Now: it's the concrete by this, read finance and gains) aspects of your profession/business/work that you consider important. You will get that little bit extra in terms of rewards and recognition that make everything worthwhile. And they will be so. By gains, I certainly did not imply only material benefits. Job satisfaction is always important, of course, but now you want your work to fulfill you in a higher, more transcendental manner. You experience a tremendous sense of achievement, of doing a job well. Your feelings.

## **NOVEMBER**

You seem to be moving both forward and back simultaneously. It could leave you feeling confused and out of sorts. Contrary pulls come this month, so that in terms of results, it's a mixed bag, I need to just explain and spell things out. You gain support, camaraderie and even make new friends. Yet, at the same time there will be both open rivalry, and hidden jealousies and animosities to reckon with. Love and romance could well lead to bonds of matrimony being forged; equally a hitherto strong marriage could go awry and a break-up or divorce be thought of/executed. Legal issues other than this could arise and tie you down.

Yet there could be travel, new ties, in fact, probably both. So there is progress even when you feel you're standing still definitely, a slower-paced, introspective phase this month. This month, it's probable that many matters have screeched jarringly to a halt. It may well stop you in your tracks. There are two contrary pulls, therefore sometimes even diametrically opposite. It might all leave you feeling rather bewildered. You embark on a bout of introspection and evaluation to get your bearings and plan for the future.

However, the good news is that you rise to all these challenges. In fact, you display mental brilliance and creativity in work as well as in relationships. You are keenly involved with info-tech skills at work, and personal interaction with loved ones. You are full of ideas, and may just hit upon the right one to give you mental peace, satisfaction as well financial gain and profit.

# MONTHLY HOROSCOPES

## DECEMBER

A strange month comes to you to conclude the year. While passion, strong physical ties, even equally strong emotional bonds pull at you, you will have a kind of preoccupation with death, the life hereafter, the loss of a loved one, and how long inner mourning and sorrow last. It's not a morbid fascination, but a genuine spiritual and philosophical questioning. The triggers may have been earthly and material matters which could have yielded both gains and setback but the answer lies only with the stars, and purity of faith. And that is what you will strive for.

But you will not restrict yourself only to financial matters where you exhibit brilliance and flair as the year closes. With an eye cocked at the future, in terms of gains, I might add capital, investments, insurance, taxes, assets and property, to name a few. There could be more, like joint-finances which I have omitted from the list. Along with providing for old age, you will be concerned with taking care of your health in the very immediate present. You also need to avoid too much stress and strain as assiduously as you need to avoid taking on loans to fulfill your financial plans. Debt-traps can be death-traps, so do be careful. That way you could lay yourself open to pain and sorrow.

All in all, though this has been a year of finances, family, house and home. Your tensions and pressures will become much less after April and May, your birth-months. The first half of the year is for money. The second half of the year is for home and harmony, and marvelous gains will be seen on this front, in particular in the year ahead. It will be built up on the groundwork you have done this year.

# WEEKLY HOROSCOPES

## JANUARY

You are semi-compatible with Taurus and Scorpio.

### **January 1, 2008 to January 6, 2008**

The first week of the year, you will be full of dynamism and grit to make it big in the New Year. But you don't want health problems to start your year and dent your confidence and enthusiasm, so guard your health even though you might be pretty sure that nothing can go wrong. You know that you have all that it takes to fulfill each and every dream of yours and you are ready to plunge into the hassles of you job and home once again.

### **January 7, 2008 to January 13, 2008**

New trends are ushered in — it's only natural in the new moon phase — of focus on goals and targets and the work necessary to achieve them. Funds, loans, property matters, domestic issues, home improvements are all dealt with and keep you more than busy. You're determined to achieve desired results and leave no stone unturned, in order to do so. A job hop or switch, or a fresh new line of business, even a second part-time job could be indicated as part of this theme.

### **January 14, 2008 to January 20, 2008**

People — and their perception of you — will be the main focus. Your professional relationships as well as the personal ones (these will be intense) will be all important; you will also expect certain recognition in terms of perks, status, and promotion, whatever. But, for you, they've got to be there. It is necessary for your sense of security and self-worth. You also feel it will influence the quality of your life. It's a time when your inner voice needs to be listened to, your hunches followed. Having said that, though you may be holding the right ideas and views, perhaps it's better to try the 'softly-softly' approach rather than ram ideas down other people's throats in your determination to get things done. Finesse and tact will take you further.

# WEEKLY HOROSCOPES

## JANUARY

You are incompatible with Gemini, Leo, Libra, Sagittarius, Aquarius, and Aries.

### **January 21, 2008 to January 27, 2008**

Your perceptions were getting a little skewed, but now the focus and some sense of direction will be back. In fact, communications, contacts, even a little travel and keeping your PR skills honed, will help you get fulfillment (and finances, I must add) through an intelligent approach, coupled with appreciation and charm. You realize the need to work towards your goal, both with people and in actual work. You were a little mixed-up over where you were going, for some time now. The mood persists but you accept responsibilities, and a touch of daring/adventure comes to blow away the dreary cobwebs that you were seeing in your life. Leisure activities, entertaining, a touch of romance to outings — all these pep you up.

### **January 28, 2008 to February 3, 2008**

Let us take a look at where you're headed now. What will be the outcome of the shift in focus and thinking that you have been through last week? Financial worries will be smoothed out, intelligently and practically. Travel (most likely for work) will not only stimulate you, but give you a much-needed change of both place and perspective. Achieving targets, meeting deadlines, greater efficiency make you feel confident — and are reflected in your personal space as well as your family life. New interesting contacts, new faces can prove also to be not only stimulating but profitable. You also learn how to organize and improve your working techniques and methods for greater leisure and the best possible use of your time.

# WEEKLY HOROSCOPES

## FEBRUARY

A Taurus will in many cases have a very big, boisterous personality which some people may say is abrasive while others would call it lighting up the room. They usually don't tend to shy away from the limelight and instead crave that kind of attention and opportunity to lead a group.

### **February 4, 2008 to February 10, 2008**

A good time to review and deal with practical matters and money matters. You have achieved impressive goals, in terms of emotional demands and the give and take of relationships. You now turn your attention to money matters — realizing that no goals can be realistic without the finances for them. You are uneasy about quick deals, but may be tempted by them, as the job scene could be a little chaotic/nebulous. There could be a chance for moon-lighting, too. Do take adequate precautions before making any investments. Don't base them only on hope and good publicity. There will be rapid changes in the work scene but patience will pay off, as they will be resolved to your benefit. Love, too, can be either tempestuous or uncertain. All this, instead of getting you down, may well prove to stimulate your thinking towards inspired moves, or at the very least, practical decisions.

### **February 11, 2008 to February 17, 2008**

Where you were reviewing finances last week, now you can both invest and spend. The money situation will ease with an inflow of cash. A mature friend/relative/counselor helps soothe away worries. You let go of the anger simmering within you, turn to creative activity and seek spiritual bliss, instead of just following an urge to be elsewhere. You realize that escapism is not the answer and will only create greater problems. You therefore concentrate on both work and quality. All the moods and quirks that I described in the last quarter (a monthly trend, too) will find you seeing and getting the right answers. Your effort is now to create a good mix of success at work, marital accord, and domestic harmony.

### **February 18, 2008 to February 24, 2008**

Harmony, peace, contentment come to you this week. There is beauty in just being, a seeking for inner content verging on spiritual bliss, perhaps even a kind of wish-fulfillment. Good friends and partners share work and pleasure both, in an exciting, pleasing way. You feel your hopes are coming nearer to realization. It creates great mental well-being, brings out the best in you — and has an impact on your professional interactions as well as domestic and marital life, both. You have been making some fundamental changes at work, and at home someone you love or are closely involved with helps you make adjustments. Home surroundings get an aura of glamor along with warmth and genuine caring.

### **February 25, 2008 to March 2, 2008**

A fine week, when things are really moving for you. Beautiful progress and harmony come in your job situation and you are dynamic and successful in what you accomplish. In addition, you do it with grace, without stamping on any toes, or by overdoing it. Family and fun are both charged with high-voltage energy, not to mention work, where you're definitely going places as I've mentioned above. There is a sense of joyousness within you. Friends are true-blue, supportive and come through when you need them. An interpersonal argument that blows up could prove to be a blessing in disguise, as it clears the air. All in all, a lively hectic phase. Take care, too much activity requires time to rest and recuperate. Don't waste all this by having a burn-out.

### **March 3, 2008 to March 9, 2008**

Your talents and interests come out in unexpected ways which attract people around you, like bees to honey. It creates a good work atmosphere, too, vis-à-vis both colleagues and superiors. It's a time when people really appreciate you. You are linked beautifully with someone you like and find very interesting. Friends are nice in the home scene. A little bit of expenses as you're keen to give gifts, entertain, have a party, and extend hospitality. Your natural generosity is out in full force. It will spill over to the work front too where you're more tolerant and patient with others, and willing to learn from your own mistakes. Dependents, employees, older people are all handled gently by you.

### **March 10, 2008 to March 16, 2008**

The warmth and caring you have been receiving empowers you truly. Strength and confidence surge within you. There is an easy flow of affection from family/young people/ children that sustains you as you go in for re-organization adjusting both to living conditions, as well as changes at work, and some travel as well. There could be some snags or mix-ups both at work and while traveling, but you take them in your stride, dealing with them calmly and competently. And that is not all. There may have been some underlying conflicts at work, which may (not will) come out into the open. Your mindset, however, has changed to calm tranquility, even spirituality, despite the social interactions and partying of last week. You are at peace within and are truly stirring to enhance it. What better way, therefore, than faith and meditation?

### **March 17, 2008 to March 23, 2008**

In addition to peace of mind and higher gains, you gain emotionally too. You feel energized by good relationships and friendships, and love and friendship both uplift you, mood wise, most certainly. Parties, socializing, luxury and peace will envelop you, also a deep sense of inner space and fulfillment. Even at work, your calm of mind helps you (a) think of solutions and (b) look ahead at future trend. You have done a lot of re-thinking, either consciously or at some subconscious level vis-à-vis your career/job/promotions. You now seem to be awakening from a dream (or was it a nightmare) of restrictions and limitations. You find the ways and means to find meaningful solutions and also to ensure future and further progress.

### **March 24, 2008 to March 30, 2008**

You've done a lot of thinking and planning about your work, earning capacity, domestic life. Some careful organizing of funds will prove necessary, some economizing too. You may think of a job-switch or relocation or change quite seriously. Travel draws you. And it is not just work-related. You seek to widen your horizons, find new ideas even as you relax. You will be active this quarter in three ways — social life, charity and finances. They may even be linked together. Charitable concerns appeal to your higher self; finances may seem to be in a bit of jumble as you spend more than you can truly afford. But your efforts will see you through.

## APRIL

Gardening, flower arrangements, interior and landscape designing, sculpting, collecting antiques, designing or collecting jewelry, painting, collecting perfumes are among the activities that could become rewarding hobbies for you.

### **March 31, 2008 to April 6, 2008**

This is the time to increase your interactions, be a part of the revelry and attend greater number of reunions and get-togethers. This will surely improve your rapport with your next of kin and friends and colleagues. You are closer to your family and your family affairs are really working out for you. Even with all this fun, the week is quite frantic. However, greater joys of parenthood, home, family and duties arising out of love are the highlight of the month and you will really enjoy doing them.

### **April 7, 2008 to April 13, 2008**

This is a week when it will pay to think coolly and calmly, and stay focused. Patience, tact, a conscious striving to stay calm and above all, a rational approach to finances. Resist the temptation to make fast money in any kind of way, doubtful or otherwise. You could really come a cropper! Your time will come, but it's certainly not now. Steady hard work will definitely bring better rewards, which will be more lasting. Very often, a phase comes just before the heightened activity of your birth-month when nothing seems to be going your way. Money seems tight, so do deadlines, not to mention frayed tempers and frazzled moods. This is one of them for you Taureans. I'm honest in saying that this will last. It's not a storm about to blow away overnight. You will have to find the strength of mind to cope — and you will.

# WEEKLY HOROSCOPES

## APRIL

Taurus individuals are prone to throat-related problems (hoarseness for example) and appear to be particularly vulnerable to suffer from colds which settle in the throat.

### **April 14, 2008 to April 20, 2008**

A week of some worries, tensions, demands to be coped with. Unplanned demands and unforeseen expenses may arise, causing anxious moments; likewise pets, children, dependents, older relatives. You rise to the occasion and cope. Support from friends is almost unconditional. Your life mate/lover/partner, too, does not cavil at pitching in to help. So, you don't get as hassled as you might have, otherwise. Primarily a week of domesticity, by any angle you look at it. Even solving domestic problems/issues can be rewarding, if you choose to make it so. And you perceive other home needs too. What was hinted at last week now becomes a major concern — repairs/renovations of the house (be it a faucet changed or a complete overhaul). You realize that a smoothly running pleasant home will make for a happier life.

### **April 21, 2008 to April 27, 2008**

You have literally put your house in order and now turn back to professional work concerns. Your career graph, market worth and personal popularity will peak now. It's up to you where they go next — up, down, or on a plateau. At least the first two can happen. Popularity cannot be "managed" despite what the PR and ad world say. You do some serious thinking, therefore, about future plans. You are not just highly employable but also much appreciated professionally. Changed ethoses in terms of charm, tact, gentle persuasion come to you. Work hassles seem to be at an end. They never are, in actual life, but right now, it's certainly smooth sailing.

## MAY

Taureans are industrious and good craftspeople, and are not afraid of getting their hands dirty. They are reliable, practical, methodical and ambitious, within a framework of obedience to superiors.

### **April 28, 2008 to May 4, 2008**

A week of splendor, warmth, caring and much affection. A power of loving reconciliation is at work; pleasure and affection, the support of colleagues and your own exciting and daring ideas will all click. It makes you feel good about life, good about yourself, relaxed and happy. A certain easing of tensions will be experienced as a result of all that's been happening to you recently. Delays and bottlenecks will ease at work. But where this easing will really be witnessed will be on the personal level, in your interactions on a one-to-one basis with friends, family, children, loved ones, even perhaps neighbors and the community. Your personal/ married life also gets greatly improved.

### **May 5, 2008 to May 11, 2008**

The build-up started last week with the initiation of your birth phase and this will escalate further this week. All activities and concerns seem to get energized, revitalized in the birth month of any sun sign. So too, with you. First of all, the financial restructuring you started on takes on wider implications; may be a partnership, collaboration, or a joint-venture. Any or all of these could be on the anvil. That is not the total picture, though the home front will get equally energized. You are stricken with pangs of conscience that you have not paid enough attention to home and family, so you go out of your way to do so. And finally, the fun and games, the social whirligig have you right smack in the center of them with friends, partners, family, all surrounding you.

### **May 12, 2008 to May 18, 2008**

From home and social life to family interactions is the next logical step. And you take it. You are careful of pets, children dependents and most importantly, want to do the right thing both for job and home. There will be harmony and happiness at home, work will be dramatically energized and friends a source of satisfaction, lay and work are united, love excites you. It's people-time with a vengeance and you not only enjoy it to the hilt, but do your best to sustain it. On the financial scene. media-related activities for those in the public eye and requiring the human touch all prosper. This obviously entails lots of socializing, entertaining, wining and dining. Wariness has entered your pattern of spending, so no harm done. You will cut your coat according to your cloth — and enjoy wearing it.

# WEEKLY HOROSCOPES

## MAY

Among the faults, which are typically Taurean are anger and excitement.

Taurus people are also exacting, domineering, and very selfish in their physical demands and expectations.

### **May 19, 2008 to May 25, 2008**

You re-focus on work now, more particularly on future prospects. What seems to have happened to you is that you have introspected deeply into your own potential, and have certainly developed a sense of self-worth. Not overrated, or egoistic as Taureans can sometimes prove to be. But a realistic appraisal. You therefore seek to realize your true potential. In fact, this will apply to the domestic scenario too as you turn to your home, your surroundings, your own self in terms of appearance, wardrobe, turnout, physique and alongside, existing work practices too and seek to alter where you find alterations. But too much upheaval could be disturbing. Harmony will come from sharing.

### **May 26, 2008 to June 1, 2008**

Your gains continue but they are all of the non-material kind — or mainly so. You're good to be with. Your self-image will be matched with your image in the eyes of others. And the reason is that you are now much more caring, more willing to listen. You even have the empathy to put yourself in other people's shoes to see where they pinch. And that's saying a lot! It goes without saying that this will reflect on both your work, your efficiency at the work-place, and the atmosphere at home. Things have been going your way for some time now. On the one hand it makes you so self-confident that you might turn brash. But on the other, you gain greatly in focus, values, and good moves.

## JUNE

Taurus  
Strengths  
are  
Dependable,  
Persistent,  
Loyal,  
Patient,  
and  
Generous.

### **June 2, 2008 to June 8, 2008**

You display a depth of understanding that gets you doing all the right things vis-à-vis people. That's a sweeping generalization — the word "people". For the fine print, read family, colleagues, friends and acquaintances, even animals as friends of man! The higher self takes on very practical manifestations. All that's gone before has been concerned with you, your work, and your personal interactions. This new moon ushers in a phase when you're flush with funds (I did say exciting ideas would click, didn't I?) Luxury and prosperity bless you. Love seems to surround you. A marvelous sense of fulfillment comes from contacts, conversation and cash!

### **June 9, 2008 to June 15, 2008**

A week that favors my two all-time greats — money and honey. It's a time when your hopes, dreams, ambitions all seem to be about to be realized — in different ways. Let's look at the money angle first. Here it is the larger picture - loans, funds, joint-ventures, collateral — that will need attention rather than personal finances. BUT, on the personal level is where it's really that you see the realization of dreams — could be family, loved ones, meeting your life-partner. It's all very exciting, and builds up your optimism, confidence and general sense of well-being.

### **June 16, 2008 to June 22, 2008**

You turn to bonds and relationships almost totally. Things are going smoothly, job-wise. But what's more important to you now are familial ties and duties. You're happy and keen to be part of the family, as a parent/child, or as a member of the whole clan. Alongside, a sense of responsibility to society; seeing yourself as a "world citizen" makes you concerned with charity, welfare, the needy and the disadvantaged. It is therefore, also the bonds that unite us all as mankind. Warmth, a glorious understanding, depths of sharing is brought out. You are given much and you return it gladly many times over. This will be seen with friends, colleagues at the work-place, in society as a whole, in your tenderness in dealing with loved ones, pets, and children. Good friends, perhaps even neighbors, will be gently supportive. There is so much good in your motives and actions that they're bound to.

## JUNE/JULY

Taurus  
Weaknesses  
are  
Stubborn,  
Laziness,  
Possessive  
,  
Materialistic, and Self-indulging

### **June 23, 2008 to June 29, 2008**

Another very pleasing week. The results of your efforts over the last few weeks will now begin to show themselves. Harmony; co-operation from loved ones, children, parents make this quarter go smoothly. This is most true of family matters and the home. You now feel, able to relax a bit more, take life a little more gently. Harmony will come from a sharing of ideas — at home or at work. You develop great insights into human relationships and act on them. Love, too, is felt deeply, in fact, it lifts you to the skies. Be conservative and careful in dealing with finances and money. Don't be carried away by your emotions and generosity.

### **June 30, 2008 to July 6, 2008**

You will realize the necessity of reaching out to people and places. And put this realization into action. Communication is therefore all-important. You have been learning the value of putting other people before your own self, and now it will bear fruit. Home, the workplace, even distant places see happy interaction. You have seen hidden danger in relaxing and getting complacent and lazy. You are both realistic and pragmatic on the one hand, and caring on the other. Now you work on relating to people, not taking anything for granted. You can relate to their problems (not animals, but people, please) their aspirations, in short, what makes them tick. And you're willing and eager to help in any way you can. You also realize that too much help may well have the opposite effect.

### **July 7, 2008 to July 13, 2008**

If I were to combine the forecasts for the last two weeks and suits them up, I'd have my forecast for this quarter. To sketch in some details, though, you, care and share. You also realize your own true worth and your capacity for giving — in work as well as in relationships. It improves both the atmosphere and efficiency at the workplace so that there is smooth interaction. The same goes for family bonding and warmth. Finally, you reach out sincerely with a helping hand, taking others problems to heart, and making genuine efforts to solve them to their best advantage.

## JULY

Each sign has a part of the anatomy attached to it, making this the area of the body that is most sensitive to stimulation. The anatomical areas for Taurus are the throat, neck, ears and vocal chords.

### **July 14, 2008 to July 20, 2008**

You now turn the focus on yourself with this same new attitude or mindset. There is always room for improvement, you feel. Even though you do have a feeling of self-worth, you realize that while you're a nice guy (or girl) at heart, there's room for improvement. There always is: that's what life is all about and astrology, too. Anyway, whether it is your total outlook, personality, turn-out, health, or wardrobe whatever — you are in the fast lane to a better self. Work and interpersonal relationships benefit greatly, in fact, truly blossom as a result. They go from good to excellent.

### **July 21, 2008 to July 27, 2008**

A smoother satisfying, productive and happy week; with the quarter in your own sign there's activity and achievements, both, as they say. Plans go off without a hitch and the makes for happiness and a sense of satisfaction. There's a round of parties, entertaining, outings and amusement in store for you. These could well be celebratory, but in all, it is most definitely a phase of hectic activity in different spheres. Innovation and ingenuity come too with their own happy outcomes. With the moon in your own sun sign, you find inspired, even unorthodox solutions to the problems you need to deal with, or address, as they say nowadays.

### **July 28, 2008 to August 3, 2008**

This week is a strange combination of responsibilities and introspection. The satisfaction and enthusiasm that you felt for a long time are now a thing of the past and now, in order to forge ahead, you might have to reassess your priorities. Circumstances to come will test your ability and efficiency but also tax your budget. Property hassles and issues relating to your next of kin will push you to the edge and obligations will have to be acknowledged and dealt with at the same time. Life has put you in the middle of matters and how to manage to them will depend on you.

## AUGUST

The best gift for a Taurean is something luxurious and expensive.

### **August 4, 2008 to August 10, 2008**

Your luck is holding, and your good phase continues. It's a brilliantly lucky time for you — you have the Midas touch without its hidden dangers. Let's look at finance — even thing you handle certainly seems set to turn to gold. Investments and deals made now could prove to be winners and shares zoom in value, like the info-technology run on the market. Equally rewarding are interactions with friends and family, and love has a special feel, it's so uplifting. Money is flowing beautifully, as I said, and your job gives both prosperity and satisfaction.

### **August 11, 2008 to August 17, 2008**

This week you find yourself marching to a different drummer. There comes a certain intense physical passion that really scales the heights. But it's not only the heights and pleasures of the flesh/physical love that you experience. Equally intense is your longing for the spiritual, the religious, the occult, the supra-physical as well as the metaphysical. Don't think I'm going overboard. Equally inspired will be your handling of finances and the funds at your disposal. Family matters, not unnaturally, take a back seat in this phase, but you have put in enough effort over the past few weeks to ensure that they're ticking over smoothly.

### **August 18, 2008 to August 24, 2008**

A week that will demand much from you. You will wonder if I spoke too soon about family matters. Responsibilities rest heavily on your shoulders, especially about property, family funds, trust and the family firm. You are not only willing but able to cope. No wheeling-dealing, but clever moves for sure. Intense financial activity and also travel could be likely, related to the family. Some social interaction too, for the same reason. You feel you don't have a spare moment because there's so much to do. Here's where I warn you that moderation in all things is the best way.

A re-vitalizing inflow of zest and energy comes to you. You are now ready to channel all the inventiveness and the creativity that you are capable of, into charity, social and community welfare. You relate beautifully to, and are wonderful with children, young people and youth in general. There is certain youth fullness that you can summon up that helps you do this. I'm talking here of enthusiasm and zeal rather than the rashness that often comes into being young.

### **September 1, 2008 to September 7, 2008**

The progressive, go-ahead phase is here to stay. Improvement of a vital nature and large size in the quality of family life is the theme throughout the month. You feel that you need to provide well for all those who depend on you. You make sensible investments (financially), think things out in a long-range perspective, improve/acquire a property, perhaps. Most vitally, you give of your time and attention along with love and affection.

### **September 8, 2008 to September 14, 2008**

Your efforts have been genuine and from the heart. They therefore show results almost immediately. Fun and family, frolic and friends — there are many F's to choose from, not to mention finances. But if you're willing to take my word (And I hope you are, otherwise what is this book about, anyway!) it's socializing, partying, wining and dining, having the time of your life that I see you busy with. Some of the socializing could pertain to work, but it's more the family that you're keen to be with — even relatives. You summon up tremendous reserves of energy to cope with it all. The people around you and those you love are truly close to your heart.

## SEPTEMBER

Taurus avoids talking about their emotions and many people never really know how they feel.

### **September 15, 2008 to September 21, 2008**

From caring about those you love, you move to a wider spectrum of philanthropy, charity, service. In this phase, you will be seen in the care of, and concerned about, the elderly, the poor, the sick and the disabled. You reach out to them in several ways. Most importantly, your heart bleeds for them, shares their pain, and you try to alleviate it. The gentler side of your nature responds to the Piscean influence. There's has been certain spirituality, an awakening and development of inner strength that you now experience more fully. It has been hinted at from time to time but now it holds an irresistible attraction for you, like a flame holds for a moth. Just don't a) over-extend/neglect yourself, or b) shelve your own claims/duties.

### **September 22, 2008 to September 28, 2008**

You realize that in order to accomplish all that you wish to, you must get back to a more practical approach. Rules are both made or broken, sometimes bent a little as you seek to reconcile the demands of home and office/work family, pleasure and ambition. All this will imply not too steady hard work, but also some very careful financial; and career planning. Home and house, shop, godown and office, yes, there could be changes on all these front: Your creativity and enthusiasm will be outstanding and fierce. You will be adventurous and enterprising and therefore you will earn away the prize. Your own will power-drive you to the very top, if you can sustain in the weeks ahead.

## OCTOBER

Taurus are not fond of change. They like the familiar and routine comfort of life. Taurus is easy going and not one to pick a fight but should some poor souls attempt to provoke Taurus, the wrath will be known, for they have a temper underneath the calm surface.

### **September 29, 2008 to October 5, 2008**

Steady progress has been the name of the game over the past weeks and will earn1 on this week too. Financial gains will be very visible now. All that you have envisaged for yourself at your home will now be easier to put into action. The reason is that there is more money at your disposal. And it's m a sudden, unexpected gain or windfall. You have heightened workload but you are eager to get to it. because it brings all kinds of rewards, though these mainly take the form of both money and recognition. That is good enough for you, too, and you're content and happy to have it that way. In your search for what matters most you, you have zeroed in on home and family and set work with a will to make life better at home.

### **October 6, 2008 to October 12, 2008**

Along with care of family and dependents, there are main demands on you at your work as well, maybe even watching out for the interests of subordinates/employee colleagues/union-members. Finances, luckily for you, we pose no problems this quarter. You are both efficient and insightful. This not only helps you function brilliantly yourself, but cajole and demand the best efforts of others. This holds good for both home and office. I must once again sum it up as "enhanced quality of life."

### **October 13, 2008 to October 19, 2008**

You have struggled to achieve this and now are in a position to reap the harvest. You're feeling good, and it not only shows, but rubs off on those around you. Plans/projects either start up. They are happily and successfully completed. ## OCTOBER

Taureans are deeply sensitive, the slightest comment or negative remark will be taken personally and they can easily get offended or hurt.

### October 20, 2008 to October 26, 2008

Entertaining, family outings, that overworked phrase "quality time," and also perhaps a face-lift/redecoration of the house itself. You acquire things that make life easy, more fun, and rosier. Your creative instincts are in overdrive in that respect. For you, right now, home is truly where the heart is. Relationships are definitely, but definitely, what it's all about in this phase. In personal relationships, love, marriage, you truly understand how necessary give and take are. You will spare no effort to maintain marital and family harmony. You will know instinctively what's best for your loved ones and those who depend on you. You weigh up all your actions/future plans in the light of their repercussions on those dear to you.

### October 27, 2008 to November 2, 2008

The higher self now reasserts itself. Scorpio phases are usually characterized by focus on the 2 F's of faith and finances. And so it is, here too. Now that your home, family and love life are ticking along smoothly, you find an interest in the occult, tantra-mantra and esoteric pursuits/ sciences burgeoning within you. It gives almost psychic insights into what your best moves ought to be. This will reflect most, of course, in how you handle finances but also in your sensitivity and perceptiveness in personal relationships.

## NOVEMBER

Favored food for Taureans would be pumpkin, cauliflower, cucumber, peas, almonds and liver. Starchy and sugary food should be avoided.

### **November 3, 2008 to November 9, 2008**

Funds and finances and the difference between the two will be your major concerns now. Better health, too, enables you to surge ahead. A lively pace is set both at work and at leisure in your house and family environment. The mood is upbeat, in several ways. Firstly, and most importantly, you are successful and innovative (you can't always be both) in managing large-scale financing/funds/joint-stock and ventures at work and for work. Secondly, you have the time to have fun with the family. There is, in addition and perhaps best of all, lots of romance and certain intensity in love. You are passionate, loving, warm with your mate/partner/spouse and "the living is easy".

## NOVEMBER/DECEMBER

Taurus subjects tend to be somewhat heavily-built, which is frequently a side effect of the inherent love for fattening foods, tendency toward indolence and dislike of physical exercise.

### **November 24, 2008 to November 30, 2008**

Once again, visible rewards for your efforts. You now see definite results and benefits that your efforts have yielded. It's time to take stock — in material as well as emotional terms. And you feel the going has been good and that you can afford to take things easier, to relax, unwind, and though not come to a halt. You will ease up on yourself and on those around you. This phase will find you entering heartily into the spirit of joy and merry-making. Do not let go too much, or you'll have trouble getting back to grips with life. And that, all of us have to do! Complacency is a dangerous way to feel, and must be given in to. You realize the need to sustain all your efforts over a period of time, not just in spurts. Actually, I would say that this week is almost like the preceding one and should have been forecast together. You pay attention to family funds as well as family unity. You are also very aw; indeed of how others see you. You wouldn't be human you didn't try to improve that image. I'm talking both the inner self and the outer you that others see. And you do want them to have not just a good, but the best possible opinion of you. You look at creating a better you physically, mentally, financially and emotionally.

### **December 1, 2008 to December 7, 2008**

A wider reach and world-vision are an important part of your self image. All kinds of communication and the required skills now come into play. Telephones to voice mail, handwriting cards/letter to e-chats/e-mail you're using, all or, any. Also favored is import, export, foreign collaborations, to agreements, tie-ups with overseas partners. What for they'll take will depend, obviously on your personal horoscope, but the focus is on contacts, conversation and communication. You are now aware that you were hovering dangerously on the brink, and draw back to safety. In love affairs/ romance, you may well feel there is safety numbers.

### **December 8, 2008 to December 14, 2008**

As the year draws to an end, what you're doing, as I've said before, is taking stock. The best businessmen do it. banks do it, merchants do it, petty traders do it and so do you. But of yours once again, you try to consolidate your gains, especially in terms of home and family life. This phase brings in the harmony and balance in thinking that you need so, desperately, in view of past activities, between work, personal goals, the demands of love, family, profession and your aspirations to a higher world.

# WEEKLY HOROSCOPES

## DECEMBER

The Taurus personality is a fixed one and this child may not find it easy to mix freely with his or her peers.

### **December 15, 2008 to December 21, 2008**

Resolution and determinations to carry your work ahead are the main thrust now. You are creative, innovative, brimming with new ideas and energy. All this in a spirit of adventure, a certain daring and cool-headed gambler's nerves. This will be wonderful if kept restricted to work campaigns, deadlines, projects but don't be tempted to play around with money. Both office funds and personal resources are taboo for you could well wind up in debt. Sharpen your skills but don't take chances. Calculated risks don't always pay-off. Patience, and waiting for the proper opportunity (which is bound to come) will serve you better now.

### **December 22, 2008 to December 31, 2008**

Whether or not you take risks, it will be money and finances that are the main, if not the only, focus this week. Its not that you are materialistic or greedy – a charge frequently levied at Taureans. You realize as never before that money spells power. It always has, and will be even truer in 2009 though 2008 is drawing to a close. How you can acquire that clout, that territory, that strength and security is what concerns you. You ponder the moves you need to make and already make them a New Year wish.
